

Department of Administration FY26 Fleet Vehicle Selector/Sample Rates

Rate Calculator - FY2026.Q2 10/01/2025

Departments are required to prioritize fuel-efficient vehicles to support cost savings, and Minnesota Statutes, section 16C.137 and Executive Order 19-27 directed fuel reduction goals. This also supports the state's broader goals to reduce fossil fuel consumption and the resulting greenhouse gas emissions. Section 16C.135, subd. 3 requires agencies prioritize vehicle purchases in this preference order: 1) electric vehicle 2) hybrid electric vehicle 3) cleaner fuel vehicle; 4) vehicle powered by gasoline or diesel. Deviations must be approved by the Department's Commissioner and can occur only if the vehicle type is incapable of carrying out the purpose or the total life-cycle cost of ownership is greater than ten percent than the next type of vehicle in the preference order.

Note: Rates include insurance, maintenance, and interest. Fuel estimates are based on current fuel prices as of 10/1/2025. Prices and vehicle details are subject to change.

Current Estimated Fuel Rate: \$2.80

2026 Chevrolet Equinox EV LT Base Price w/ tax \$33,296.58

AWD Wheel Drive

5 Passenger Seating
