

CENSUS 2020

#DisabilityCounts2020

Everyone deserves to be counted!

The Census Bureau identifies people with disabilities as “hard to count.”

Participation in the 2020 Census is important! Data from the Census is key to:

- **Funding for federal programs:** Medicaid/Medical Assistance (MA), Supplemental Nutrition Assistance Program (SNAP), State Children’s Health Insurance Program (CHIP), and more!
- **Funding for Civil Rights and Advocacy programs**
- **Funding for education** (including special education) and student loans
- **The number of congressional districts** in Minnesota
