

Healthcare Temporary Staffing Master Contract Program – Eligible Vendors Qualification Summary

22nd Century Technologies

22nd Century Technologies is a TGEVO Contractor that provides temporary staffing solutions for Corporations and State and Local Government Agencies. Founded in 1997, Contractor maintains an internal database of resources extensively screened for Office of the Director of National Intelligence (IC datasets), Department of Defense (DoD), and other Federal projects. Additionally, 22nd Century Technologies is capable of providing the following categories of Temporary staffing services:

- Contingent Staffing: Contractor can source contingent staff through neutral sourcing and offer requisitions based on qualification requirements outline by the Agency. Contractor automatically facilitates this competitive model, which results in faster time-to-fill, higher quality candidates and more competitive pricing.
 - Direct Hire: Contractor may assist organizations in identifying, recruiting, and hiring talents for your needs. They assist in the entire hiring process including detailed background checks prior to onboarding.
 - Statement of Work (SOW): Contractor provides qualified candidates as an extension of your team to augment your projects.
-
