

Addendum #1

Date: March 23, 2022

Request for Proposal: RECS RFP for Industrial Hygiene Services
 Event ID: 2000012656

Subject: RFP Proposal Evaluation – Mandatory Requirements/Qualifications Exhibit C

1. Mandatory Requirements (Pass/Fail):

Number as Referenced to Exhibit C	Refer to Qualifications-Exhibit C		
5d.	Responder has three one or more employees who are AAR certified (responders are to submit names and certifications of employees). AIHA accreditation for other materials such as lead and mold analysis to be done in an AIHA accredited laboratory; however air monitoring sample analysis (during asbestos material removal) is required to be done on site by an individual analyst/s who is/are AAR certified (on the Asbestos Analysts Registry). AIHA will be accepted but it does not change the requirements described in Category#1. On-site analysis will be required. Costs/fees should reflect on-site analysis.	Pass/Fail	

2. Exhibit C – Qualifications Proposal:

Exhibit C – Qualifications Proposal template has been revised to reflect the changes listed above and the template has been attached to the Master Contract websites at <https://mn.gov/admin/government/construction-projects/contracts/industrial-hygiene/> and <https://mn.gov/admin/business/vendor-info/construction-projects/contracts/industrial-hygiene/> under Attachments.
