# Minnesota Rules: Amendments and Additions

## NOTICE: How to Follow State Agency Rulemaking in the State Register

The State Register is the official source, and only complete listing, for all state agency rulemaking in its various stages. State agencies are required to publish notice of their rulemaking action in the State Register. Published every Monday, the State Register makes it easy to follow and participate in the important rulemaking process. Approximately 80 state agencies have the authority to issue rules. Each agency is assigned specific Minnesota Rule chapter numbers. Every odd-numbered year the Minnesota Rules are published. Supplements are published to update this set of rules. Generally speaking, proposed and adopted exempt rules do not appear in this set because of their short-term nature, but are published in the State Register.

An agency must first solicit Comments on Planned Rules or Comments on Planned Rule Amendments from the public on the subject matter of a possible rulemaking proposal under active consideration within the agency (Minnesota Statutes §§ 14.101). It does this by publishing a notice in the State Register at least 60 days before publication of a notice to adopt or a notice of hearing, or within 60 days of the effective date of any new statutory grant of required rulemaking.

When rules are first drafted, state agencies publish them as Proposed Rules, along with a notice of hearing, or a notice of intent to adopt rules without a hearing in the case of noncontroversial rules. This notice asks for comment on the rules as proposed. Proposed emergency rules, and withdrawn proposed rules, are also published in the State Register. After proposed rules have gone through the comment period, and have been rewritten into their final form, they again appear in the State Register as Adopted Rules. These final adopted rules are not printed in their entirety, but only the changes made since their publication as Proposed Rules. To see the full rule, as adopted and in effect, a person simply needs two issues of the State Register, the issue the rule appeared in as proposed, and later as adopted.

The State Register features partial and cumulative listings of rules in this section on the following schedule: issues #1-13 inclusive; issues #14-25 inclusive (issue #26 cumulative for issues #1-26); issues #27-38 inclusive (issue #39, cumulative for issues #1-39); issues #40-52 inclusive, with final index (#1-52, or 53 in some years). An annual subject matter index for rules was separately printed usually in August, but starting with Volume 19 now appears in the final issue of each volume. For copies or subscriptions to the State Register, contact Minnesota's Bookstore, 660 Olive Street (one block east of I-35E and one block north of University Ave), St. Paul, MN 55155, phone: (612) 297-3000, or toll-free 1-800-657-3757. TTY relay service phone number: (800) 627-3529.

Currently, the following cities and counties are eligible to be Suballocating Agencies in Minnesota: Duluth, St. Cloud, Rochester, Minneapolis, St. Paul, Washington County and Dakota County.

All persons interested will be given an opportunity to express their views. In order to more effectively plan for the conduct of the hearings, persons desiring to speak at the hearing must so request in writing at least 24 hours before the hearing. Oral remarks by any person will be limited to 10 minutes. Written comments may also be submitted to the undersigned, and will be considered at the hearing. **Minnesota Department of Transportation****Notice of Petition of Non-Compliance and Request for Action under Minn. Stat. § 218.041**

In accordance with Minnesota Statute §218.041 Subd. 4(b), notice is hereby given that the United Transportation Union-Sheet Metal, Air, Rail and Transportation- Transportation Division (UTU-SMART-TD) has filed a petition with the State of Minnesota Commissioner of Transportation alleging that BNSF Railway placed non-compliant road ballast on portions of the “north receiver” and “north runner” railroad tracks, located in the BNSF Northtown Yard in Minnesota. The petition alleges that the ballast fails to satisfy the requirements contained in Minn. Stat. §219.501. Minn. Stat. §219.501 Subd. 2 contains a requirement that rail carriers provide walkways adjacent to tracks where rail carrier employees frequent and general requirements for such walkways. The petition alleges ballast on portions of walkways next to the “north receiver” and “north runner” railroad tracks present unsafe conditions in violation of the statute.

Interested parties are invited to participate in these proceedings by submitting objections, data or comments regarding the UTU-SMART-TD petition. If any objections are made to the UTU-SMART-TD petition within twenty (20) days of publication of this notice, Minn. The petition alleges that the hump-track retarder housings fail to satisfy the requirements contained in Minn. Stat. §§ 219.45-53. Minn. Stat. §§ 219.45-53 regulate walkways, structures and/or obstructions adjacent to and between railroad tracks, specifically defining clearance requirements, providing a prohibition against the obstruction of space by foreign obstacles and requiring that the space between and beside tracks is “kept in a condition as to permit the employees to pass over or between the tracks or to use the space day or night and under all weather conditions without unnecessary hazard.” Minn.
