Minnesota Rules: Amendments and Additions

NOTICE: How to Follow State Agency Rulemaking in the State Register

The State Register is the official source, and only complete listing, for all state agency rulemaking in its various stages. State agencies are required to publish notice of their rulemaking action in the State Register. Published every Monday, the State Register makes it easy to follow and participate in the important rulemaking process. Approximately 80 state agencies have the authority to issue rules. Each agency is assigned specific Minnesota Rule chapter numbers. Every odd-numbered year the Minnesota Rules are published. Supplements are published to update this set of rules. Generally speaking, proposed and adopted exempt rules do not appear in this set because of their short-term nature, but are published in the State Register.

An agency must first solicit Comments on Planned Rules or Comments on Planned Rule Amendments from the public on the subject matter of a possible rulemaking proposal under active consideration within the agency (Minnesota Statutes §§ 14.101). It does this by publishing a notice in the State Register at least 60 days before publication of a notice to adopt or a notice of hearing, or within 60 days of the effective date of any new statutory grant of required rulemaking.

When rules are first drafted, state agencies publish them as Proposed Rules, along with a notice of hearing, or a notice of intent to adopt rules without a hearing in the case of noncontroversial rules. This notice asks for comment on the rules as proposed. Proposed emergency rules, and withdrawn proposed rules, are also published in the State Register. After proposed rules have gone through the comment period, and have been rewritten into their final form, they again appear in the State Register as Adopted Rules. These final adopted rules are not printed in their entirety, but only the changes made since their publication as Proposed Rules. To see the full rule, as adopted and in effect, a person simply needs two issues of the State Register, the issue the rule appeared in as proposed, and later as adopted.

The State Register features partial and cumulative listings of rules in this section on the following schedule: issues #1-13 inclusive; issues #14-25 inclusive (issue #26 cumulative for issues #1-26); issues #27-38 inclusive (issue #39, cumulative for issues #1-39); issues #40-52 inclusive, with final index (#1-52, or 53 in some years). An annual subject matter index for rules was separately printed usually in August, but starting with Volume 19 now appears in the final issue of each volume. For copies or subscriptions to the State Register, contact Minnesota's Bookstore, 660 Olive Street (one block east of I-35E and one block north of University Ave), St. Paul, MN 55155, phone: (612) 297-3000, or toll-free 1-800-657-3757. Withdrawn Rules

An agency may withdraw rules from review (*Minnesota Statutes* 1400.2240, Subp.8; 1400.2300, Subp 4; and 1400.2410, Subp.4) by submitting a notice of withdrawal to the chief judge signed by a person authorized to withdraw the rule. Withdrawing a rule is appropriate unless the withdrawal of the rule or a portion of the rules makes the remaining rules substantially different. The notice must explain the person's authority to withdraw the rule. The office must return the agency's filing promptly after receiving this notice.

Official Notices

Department of Labor & Industry (DLI) Notice of Certification of the Minimum Truck Rental Rates

The Commissioner of Labor & Industry has certified the minimum truck rental rates for state-funded highway projects effective January 16, 2018. This certification follows the publication of the Notice of Truck Rental Rate Determination in the *State Register* on December 18, 2017, and the informal conference held pursuant to Minnesota Rules, part 5200.1105 on December 28, 2017.

According to Minnesota Rules, part 5200.1105, the purpose of the informal conference was for DLI to obtain further input regarding the determined rates prior to certification. No additional written input regarding the determination was received by DLI prior to, or after the informal conference.

The truck rental rate is determined for each equipment type by adding the average hourly cost of operating the vehicle to the certified prevailing wage for the driver. The average hourly operating costs are determined by voluntary survey of truck owner operators, trucking contractors and trucking firms.

The certification of the minimum truck rental rates are available online at:

<http://www.dli.mn.gov/LS/PrevWageTruck.asp>

The minimum truck rental rates in the state's ten highway and heavy construction areas will be effective for all MnDOT highway construction work financed in whole or part with state funds advertised for bid on or after the day the notice of certification is published in the *State Register*.

Minnesota Pollution Control Agency (MPCA) Resource Management and Assistance Division Public Notice of Proposed Clean Water Act Section 401 Water Quality Certification

NOTICE IS HEREBY GIVEN that the Minnesota Pollution Control Agency (MPCA) has made a preliminary decision to provide Clean Water Act (CWA) Section 401 Water Quality Certification for U.S. Army Corps of Engineers (USACE) General Permits (GP) for the State of Minnesota. The draft 401 Water Quality Certification is now available for public comment.

Background. Section 401 of the CWA requires any applicant for a federal license or permit to conduct an activity that may result in a discharge of a pollutant into Waters of the United States (including CWA Section 404 permits regulating discharge of dredged or fill material) to obtain a certification from the State in which the discharge originates that the discharge complies with the applicable water quality standards. The 401 Water Quality Certification then becomes a part of the Federal permits. USACE issues GPs to streamline permitting activities under Section 404 of the CWA and Section 10 of the Rivers and Harbors Act of 1899 that will result in no more than minimal individual and cumulative adverse environmental effects. The GPs typically address projects with predictable and minimal environmental impacts, and effectively pre-authorize certain categories of activities (such as maintenance activities or construction of stormwater management facilities) for a period of five years; permit applicants whose projects fit within the parameters defined by the specific NHPs are covered. In order for the NHPs to be valid, however, state 401 Water Quality Certification must be granted or waived. The MPCA is the Section 401 authority in Minnesota.

Official Notices

USACE St. Paul District office has published its proposal to issue 7 new general Permits on December 20, 2017, and can be accessed through the U.S. Army Corps of Engineers website at:
<http://www.mvp.usace.army.mil/Portals/57/docs/regulatory/Special%20Notices/Regional%20General%20Permits%20-20%20December%202017PN.pdf?ver=2017-12-20-140100-463>

MPCA's 401 Water Quality Certification. The MPCA proposes to certify the GPs because there is reasonable expectation that the activities authorized will be conducted in a manner that will not violate applicable water quality standards. The draft 401 Water Quality Certification identifies conditions that, when finalized by the MPCA, must be incorporated into the GPs in order for the certification to be valid.

The MPCA will consider changing the contents of the draft Water Quality Certification based on comments received during the comment period. Following the end of the comment period, the MPCA will finalize and issue the Water Quality Certification of the GPs, which will then be in effect throughout the duration of the GP (through February 18, 2020).

The MPCA contact person is Jim Brist, Minnesota Pollution Control Agency, Resource Management and Assistance Division, 520 Lafayette Road North, St. Paul, Minnesota 55155-4194; telephone: 651-757-2245 or toll free 1-800-657-3864; fax: 651-297-8324; and email: jim.brist@state.mn.us.

Availability of Draft 401 Water Quality Certification. A copy of the proposed 401 Water Quality Certification is available on the MPCA's web site at <https://www.pca.state.mn.us/public-notices>. Copies are also available upon request by contacting Jim Brist at 651-757-2245 or jim.brist@state.mn.us, or can be mailed to any interested person upon the MPCA's receipt of a written request. Additional materials relating to the certification are available for inspection by appointment at the MPCA, 520 Lafayette Road North, St. Paul, Minnesota 55155-4194, between the hours of 7:30 a.m. and 4:00 p.m., Monday through Thursday. To examine these materials, or for more information, please contact Jim Brist. All MPCA offices may be reached by calling 1-800-657-3864.

Public participation. As stated in Minn. R. chs. 7000 and 7001, there are three formal procedures for public participation in the MPCA's consideration of this matter. Interested persons may:

- 1) Submit written comments on the draft certification
- 2) Petition the MPCA to hold a public informational meeting
- 3) Petition the MPCA to hold a contested case hearing.

The public comment period begins January 16, 2018, and ends on January 26, 2018. Your comments or petitions must be in writing and received by Jim Brist by 4:00 p.m. on January 26, 2018. Written comments may be submitted to him at the address, facsimile number, or e-mail address listed above.

A contested case hearing is a formal proceeding before an administrative law judge empowered to advise the MPCA regarding issues of fact. As described in Minn. R. 7000.1800, persons who submit petitions for a contested case hearing must also state the issues they propose to address in a contested case hearing, the specific relief requested or resolution of the matter, and the reasons (which may be in the form of proposed findings) supporting an MPCA decision to hold a contested case hearing. Failure to comply with these rules exactly may result in a denial of the request. To the extent known, the petitioner may also submit a list of prospective witnesses to be called at a hearing, a proposed list of publications, references, or studies to be introduced at a hearing and the approximate time required for the petitioner to present the matter at a hearing. The decision whether to hold a contested case hearing will be made under Minn. R. 7000.1900.

Minnesota State Colleges and Universities (Minnesota State) Request for Proposal (RFP) for Data Integration Platform

Background:

Minnesota State Colleges and Universities (Minnesota State) is the fifth-largest system of higher education in the United States. It is comprised of 37 two-year and four-year state colleges and universities with 54 campuses located in 47 Minnesota communities. The System serves approximately 430,000 students each year. The Minnesota State Colleges and Universities is an independent state entity that is governed by a 15 member Board of Trustees. The law creating the system was passed by the Minnesota Legislature in 1991 and went into effect July 1, 1995. The law merged the state's community colleges, technical colleges and state universities into one system, other than the University of Minnesota campuses. For more information about Minnesota State Colleges and Universities, please view its website at www.minnstate.edu.

Nature of RFP:

Minnesota State System Office is requesting proposals for the purchase and implementation of a cloud-based data integration and integration management solution. This RFP is undertaken by Minnesota State System Office pursuant to the authority contained in provisions of Minnesota Statutes § 136F.581 and other applicable laws.

Purpose:

The ability to effectively create and manage integrations across numerous SaaS and homegrown systems and services is foundational in supporting core business capabilities.

The purpose of this RFP is to choose a fully-developed, cloud-based data integration platform and integration management solution that will support Minnesota State in creating integrations between premise-to-premise, premise-to-cloud and cloud-to-cloud applications, data sources, databases, and API's.

Problem Statement:

Minnesota State has hundreds of integrations between its ERP systems and satellite, vendor, and shadow systems. In addition, we have multiple integrations across teaching and learning systems, registration systems, campus systems and others. To date all integrations are coded manually and specifically for each integration need.

The existing highly customized, ad hoc data integration environment is not sufficient to meet future business needs. Continuation of the current integration practices is no longer sustainable.

The Minnesota State Architecture team has been charged with implementing a standardized, centralized, secure, cloud-based data integration solution that will provide discoverable, reusable data integrations across a broad variety of cloud-based and on-premise technologies, platforms, applications and services.

General Selection Criteria:

The solution will be selected based on criteria that include, but are not limited to:

The proposed solution is a Software as a Service (SaaS, iPaaS) solution, capable of integrating data to and from on premise and cloud databases, storage providers, ERP applications, RESTful API's and Message Queues.

The RFP respondent is the publisher or an authorized reseller of the solution. The vendor of proposed solution has had a commercially available SaaS/IPaaS product with sales for a minimum of three years in public sector or Higher Education.

The proposed solution substantially complies with current national accessibility specifications and standards, including Section 508 of the 1973 Rehabilitation Act and the World Wide Web Consortium's (W3C) Web Content Accessibility Guidelines (WCAG) 2.0 AA.

Selection and Implementation Timeline:
