Minnesota Rules: Amendments and Additions

NOTICE: How to Follow State Agency Rulemaking in the State Register

The State Register is the official source, and only complete listing, for all state agency rulemaking in its various stages. State agencies are required to publish notice of their rulemaking action in the State Register. Published every Monday, the State Register makes it easy to follow and participate in the important rulemaking process. Approximately 80 state agencies have the authority to issue rules. Each agency is assigned specific Minnesota Rule chapter numbers. Every odd-numbered year the Minnesota Rules are published. Supplements are published to update this set of rules. Generally speaking, proposed and adopted exempt rules do not appear in this set because of their short-term nature, but are published in the State Register.

An agency must first solicit Comments on Planned Rules or Comments on Planned Rule Amendments from the public on the subject matter of a possible rulemaking proposal under active consideration within the agency (Minnesota Statutes §§ 14.101). It does this by publishing a notice in the State Register at least 60 days before publication of a notice to adopt or a notice of hearing, or within 60 days of the effective date of any new statutory grant of required rulemaking.

When rules are first drafted, state agencies publish them as Proposed Rules, along with a notice of hearing, or a notice of intent to adopt rules without a hearing in the case of noncontroversial rules. This notice asks for comment on the rules as proposed. Proposed emergency rules, and withdrawn proposed rules, are also published in the State Register. After proposed rules have gone through the comment period, and have been rewritten into their final form, they again appear in the State Register as Adopted Rules. These final adopted rules are not printed in their entirety, but only the changes made since their publication as Proposed Rules. To see the full rule, as adopted and in effect, a person simply needs two issues of the State Register, the issue the rule appeared in as proposed, and later as adopted.

The State Register features partial and cumulative listings of rules in this section on the following schedule: issues #1-13 inclusive; issues #14-25 inclusive (issue #26 cumulative for issues #1-26); issues #27-38 inclusive (issue #39, cumulative for issues #1-39); issues #40-52 inclusive, with final index (#1-52, or 53 in some years). An annual subject matter index for rules was separately printed usually in August, but starting with Volume 19 now appears in the final issue of each volume. For copies or subscriptions to the State Register, contact Minnesota's Bookstore, 660 Olive Street (one block east of I-35E and one block north of University Ave), St. Paul, MN 55155, phone: (612) 297-3000, or toll-free 1-800-657-3757. Proposed Rules

Comments on Planned Rules or Rule Amendments. An agency must first solicit Comments on Planned Rules or Comments on Planned Rule Amendments from the public on the subject matter of a possible rulemaking proposal under active consideration within the agency (*Minnesota Statutes* §§ 14.101). It does this by publishing a notice in the *State Register* at least 60 days before publication of a notice to adopt or a notice of hearing, and within 60 days of the effective date of any new statutory grant of required rulemaking.

Rules to be Adopted After a Hearing. After receiving comments and deciding to hold a public hearing on the rule, an agency drafts its rule. It then publishes its rules with a notice of hearing. All persons wishing to make a statement must register at the hearing. Anyone who wishes to submit written comments may do so at the hearing, or within five working days of the close of the hearing. Administrative law judges may, during the hearing, extend the period for receiving comments up to 20 calendar days. For five business days after the submission period the agency and interested persons may respond to any new information submitted during the written submission period and the record then is closed. The administrative law judge prepares a report within 30 days, stating findings of fact, conclusions and recommendations. After receiving the report, the agency decides whether to adopt, withdraw or modify the proposed rule based on consideration of the comments made during the rule hearing procedure and the report of the administrative law judge. The agency must wait five days after receiving the report before taking any action.

Rules to be Adopted Without a Hearing. Pursuant to *Minnesota Statutes* § 14.22, an agency may propose to adopt, amend, suspend or repeal rules without first holding a public hearing. An agency must first solicit **Comments on Planned Rules** or **Comments on Planned Rule Amendments** from the public. The agency then publishes a notice of intent to adopt rules without a public hearing, together with the proposed rules, in the *State Register*. If, during the 30-day comment period, 25 or more persons submit to the agency a written request for a hearing of the proposed rules, the agency must proceed under the provisions of §§ 14.1414.20, which state that if an agency decides to hold a public hearing, it must publish a notice of intent in the *State Register*.

Subject of Rules. These rules were proposed by the commission veterinarian. They cover stabling, furosemide, medical testing and examination, and duties of the commission veterinarian. The proposed amendments will update, simplify and clarify existing rules to ensure the health and safety of racehorses. Amendments will also make the commission's rules more consistent with those in other racing jurisdictions and national model rules. In addition, the Commission is seeking to repeal two obsolete and unnecessary rule parts cited above, including the rule permitting an association veterinarian to perform certain official duties. A copy of the proposed rules is published in the State Register and is attached to this notice as mailed. A free copy of the rules is available upon request from the agency contact person listed above.

Following is a summary of the specific proposed amendments:

7876.0100, Subpart 1. Allocation of stalls.

This rule part is being repealed because it is duplicative and unnecessary.

7876.0100, Subp. 2. Forms.

A non-substantive change is made to the rule heading.

7876.0100, Subp. 4a. Horses without required documentation.

This new subpart would specify that horses who arrive at a racetrack without required health documents must be refused entry or kept in an isolation area until the documentation is presented to the commission veterinarian.

7876.0100, Subp. 8. Documents to be kept.

The update would eliminate the requirement for racetracks to keep past performance charts as part of the stall application process.

7876.0100, Subp. 10. Original certificate of veterinary inspection.

The proposed update would require horses' health certificates to include rectal temperature and date of most recent EHV-1 vaccination.

7876.0100, Subp. 11. Record of negative test for equine piroplasmiasis.

Non-substantive edits are made for readability. Testing would now be required for suspected instead of active cases of equine piroplasmiasis, but would cease to be required for a strain no longer seen in the continental United States.

Proposed Rules

7876.0110, Subp. 3. Horses must be at racetrack for race day inspection.

The update would change the time the horses need to be at the racetrack on race day from 9:00 a.m. to 8:00 a.m.

7876.0110 Subp. 4. Original certificate of veterinary inspection.

The proposed update would require horses' health certificates to include rectal temperature and date of most recent EHV-1 vaccination.

7876.0110, Subp. 5. Record of negative test for equine piroplasmiasis.

Non-substantive edits are made for readability. Testing would now be required for suspected instead of active cases of equine piroplasmiasis, but would cease to be required for a strain no longer seen in the continental United States.

7876.0110, Subp. 6. Horses without required documentation.

This new subpart would specify that horses stabled off the grounds that arrive at a racetrack without required health documents must be refused entry or kept in an isolation area until the documentation is presented to the commission veterinarian.

7876.0120, Subpart. 1. Certificate of veterinary inspection.

The proposed update would require horses' health certificates to include rectal temperature and date of most recent EHV-1 vaccination.

7876.0120, Subp. 3. Horses without required documentation.

This new subpart would specify that non-racing horses who arrive at a racetrack without required health documents must be refused entry or kept in an isolation area until the documentation is presented to the commission veterinarian.

7877.0175, Subp. 8. Commission veterinarian.

The new language would add additional reasons a horse may be on the veterinarian's list, taken from the industry model rules. It would also clarify that horses working to get off the veterinarian's list are subject to drug testing and must have a clean test before being removed from the list. The time on the veterinarian's list would be increased from five to seven days for consistency with model rules and rules in other states. References to an association veterinarian are removed because they are obsolete, and the duties of the association would now be duties of the commission veterinarian.

7877.0175, Subp. 8a. Association veterinarian.

The commission is proposing to repeal this subpart because it is obsolete.

7890.0110, Subp. 9. Endogenous, dietary, and environmental substances.

A non-substantive update is proposed for readability and to clarify that these substances are governed by the Association of Racing Commissioners International schedule, which is incorporated by reference under part 7869.0200.

7890.0110, Subp. 10. Medications with regulatory limits.

Non-substantive edits are made for clarification and readability.

Proposed Rules

7890.0110, Subp. 14. Use of electrical or mechanical devices.

This new subpart would restrict the use of certain treatments within 48 hours of racing without permission of the stewards in consultation with the commission veterinarian.

7890.0120, Subpart 1. Veterinarians must keep records.

The update would allow private veterinarians to submit their daily treatment reports to the commission veterinarian electronically. It would also make these reports due at noon on race day instead of post time, which is confusing because it varies for each horse and for each race day.

7890.0140, Subp. 6. Furosemide may be permitted.

The proposed change would allow horses to continue racing with furosemide when transferred to a different trainer.

7890.0140, Subp. 7a. Conditions required for furosemide administration.

The proposal would allow the commission veterinarian to administer furosemide. It would also govern the dose of furosemide approved for a horse when it transfers to a different trainer.

7891.0100, Subp. 1c. Trainer must post stall.

A minor update would require signs to be posted at 8:00 a.m. instead of 9:00 a.m. on the stalls of horses entered to race on a given day.

7892.0129, Subpart 1. Horses tested.

The commission is proposing to add growth hormone, steroids and clenbuterol to the list of substances that may be tested for outside of competition. Testing is expanded to any stakes race or other designated series or event as agreed on the nomination form.

Statutory Authority. The statutory authority to adopt these rules is found in *Minnesota Statutes*, sections 240.23 and 240.24.

Comments. You have **until 4:30 p.m. on March 15, 2018**, to submit written comments in support of or in opposition to the proposed rules and any part or subpart of the rules. Your comments must be in writing and the agency contact person must receive them by the due date. The Minnesota Racing Commission encourages comment. Your comment should identify the portion of the proposed rules addressed and the reason for the comment. You are encouraged to propose any change desired. Any comments that you have about the legality of the proposed rules must also be made during this comment period. You may also submit written comments on the Office of Administrative Hearings Rulemaking e-comments website at <https://minnesotaoah.granicusideas.com/>.

Request for a Hearing. In addition to submitting comments, you may also request that the Minnesota Racing Commission hold a public hearing on the rules. Your request must be in writing and the agency contact person must receive it by **4:30 p.m. on March 15, 2018**. Your written request for a public hearing must include your name and address. You must identify the portion of the proposed rules that you object to or state that you oppose the entire set of rules. Any request that does not comply with these requirements is not valid and the agency cannot count it when determining whether it must hold a public hearing. You are also encouraged to state the reason for the request and any changes you want made to the proposed rules.

Withdrawal of Requests. If 25 or more persons submit a valid written request for a hearing, the Department will hold a public hearing unless a sufficient number withdraw their requests in writing. If enough requests for hearing are withdrawn to reduce the number below 25, the agency must give written notice of this to all persons who requested a

Proposed Rules

hearing, explain the actions the agency took to effect the withdrawal, and ask for written comments on this action. If a public hearing is required, the agency will follow the procedures in *Minnesota Statutes*, sections 14.131 to 14.20.

Alternative Format. Upon request, this information can be made available in an alternative format, such as large print, braille, or audio. To make such a request, please contact the agency contact person at the address or telephone number listed above.

Modifications. The Minnesota Racing Commission may modify the proposed rules as a result of public comment. The modifications must be supported by comments and information submitted to the agency, and the adopted rules may not be substantially different than these proposed rules, unless the agency follows the procedure under *Minnesota Rules*, part 1400.2110. If the proposed rules affect you in any way, the Department encourages you to participate in the rulemaking process.

Statement of Need and Reasonableness. The statement of need and reasonableness statement contains a summary of the justification for the proposed rules, including a description of who will be affected by the proposed rules and an estimate of the probable cost of the proposed rules. It is now available from the agency contact person. You may review it or obtain copies for the cost of reproduction by contacting the agency contact person. You may also review the Statement of Need and Reasonableness on the Office of Administrative Hearings Rulemaking e-comments website at <https://minnesotaoah.granicusideas.com/>.

Lobbyist Registration. *Minnesota Statutes*, chapter 10A, requires each lobbyist to register with the State Campaign Finance and Public Disclosure Board. You should direct questions about this requirement to the Campaign Finance and Public Disclosure Board at: Suite 190, Centennial Building, 658 Cedar Street, St. Paul, Minnesota 55155, telephone (651) 539-1180 or 1-800-657-3889.

Adoption and Review of Rules. If no hearing is required, the agency may adopt the rules after the end of the comment period. The agency will then submit the rules and supporting documents to the Office of Administrative Hearings for review for legality. You may ask to be notified of the date the Department submits the rules to the office. If you want to be so notified, or want to receive a copy of the adopted rules, or want to register with the agency to receive notice of future rule proceedings, submit your request to the agency contact person listed above.

Once a horse has raced with furosemide, it must continue to race with furosemide in all subsequent races unless a request is made to discontinue the use. If the use of furosemide is discontinued, the horse shall be prohibited from again racing with furosemide unless it is later observed to be bleeding pursuant to subpart 1 or the horse is claimed or transferred to a different licensed trainer. A horse that is claimed or transferred to a different licensed trainer is eligible to race with furosemide if the new trainer and a licensed veterinarian employed by the new owner or trainer determine that it would be in the horse's best interest to race with furosemide. Requests for the use of or discontinuance of furosemide must be made to the commission veterinarian by the horse's current trainer or assistant trainer on a form prescribed by the commission on or before the day of entry into the race for which the request is made.

Subp. 7. [Repealed, 14 SR 332]

In these cases, doses of up to 500 milligrams (no more than ten milliliters of a 50 milligram/milliliter or five percent solution) may be permitted. Any such horse that is claimed or transferred to a different licensed trainer shall revert to a dose of 150 mg to 250 mg unless the new trainer and a licensed veterinarian request a different dose and that dose is approved by the commission veterinarian.

The practicing veterinarian must deposit with the commission veterinarian an unopened supply of furosemide and sterile hypodermic needles and syringes to be used for the administration. The furosemide must be administered under the supervision of a person employed by the commission.

Department of Human Services

Health Care Administration

Request for Comments on the Substance Use Disorder System Reform Section 1115

Medicaid Waiver Request

The Minnesota Department of Human Services (DHS) is announcing a 30-day comment period on the Substance Use Disorder (SUD) System Reform section 1115 Medicaid waiver request.

State law directs DHS to seek federal waiver authority to receive Medicaid matching funds for residential programs that have been determined as Institutions for Mental Disease (IMDs) to ensure continued access to this level of care for individuals with the most intensive treatment needs. Accordingly, the state proposes a five-year demonstration project waiver for its SUD delivery system under section 1115 of the Social Security Act which will test the impact of evidence-based provider referral arrangements and practices on improving health outcomes for Medicaid enrollees with substance use conditions. This demonstration project is an important component of the state's larger reform effort to address the opioid crisis as well as transform the health care delivery system for Medicaid enrollees who need SUD treatment and services.

DHS plans to submit this waiver request in March 2018. A copy of the waiver request can be found at the SUD System Reform waiver request link on the Health Care Federal Waivers web page at

http://www.dhs.state.mn.us/main/id_006304. To request a paper copy of the waiver request, please contact Sara Lent at (651) 431-2836.

DHS invites public comment on the SUD System Reform waiver request. Comments received will be posted on the DHS website.

Written comments may be submitted to the following email mailbox: dhs.waiver.comments@state.mn.us or by mail to the address below. DHS would like to provide copies of comments received in a format that is accessible for people with disabilities.

Therefore, we request that comments be submitted in Microsoft Word format or incorporated within the email text. If you would also like to provide a signed copy of the comment letter, you may submit a second copy in Adobe PDF format or mail it to the address below. Comments must be received by March 13, 2018.

Metropolitan Airports Commission (MAC) Notice of Public Comment Period and Public Hearing for Draft Flying Cloud Airport (FCM) Zoning Ordinance

The Joint Airport Zoning Board (JAZB) for Flying Cloud Airport (FCM) is developing an Airport Zoning Ordinance for land uses around FCM. This is a continuation of the airport zoning effort started in 2009-2010 but not finalized. Similar to the previous zoning proposal, the Draft FCM Zoning Ordinance (Zoning Ordinance) limits the height of structures and vegetation and prohibits certain land uses in an area extending approximately 2 miles from the outer boundaries of FCM. The zoning is being conducted as required by Minnesota Statutes 360.061 – 360.074 and Minnesota Rules 8800.1200 and 8800.2400. Maps that are part of the proposed Zoning Ordinance show the precise boundaries for application of the Zoning Ordinance and the associated proposed restrictions.

The proposed Zoning Ordinance would:

- Limit the height of structures and vegetation out to approximately 2 miles to the west of FCM, and out to approximately 1.5 miles in all other areas around the airport. In most cases, however, the airport zoning height limitations

Official Notices

would be less restrictive than maximum heights allowed in the municipal zoning code.

- Prohibit the development of structures in Safety Zone A, which is mostly contained to airport-owned property;
- Prohibit, in Safety Zone B, the construction of amphitheaters, hospitals, nursing homes, residential uses, schools, stadiums and ponds or other features which might attract waterfowl or other birds, with the exception that the proposed restrictions in Safety Zone B do not affect additions to existing residences, residential redevelopment or future residential development in certain Permitted Residential Areas;
- Require a contiguous open space within Safety Zone B of either 20% of the total Safety Zone B acreage or 20 acres, whichever is larger; and
- Prohibit, in Safety Zones A, B and C, the use of land that creates or causes interference with the operations of radio or electronic facilities on FCM or with radio or electronic communications between FCM and aircraft, makes it difficult for pilots to distinguish between Airport lights and other lights, results in glare in the eyes of pilots using FCM, impairs visibility in the vicinity of FCM, or otherwise endangers the landing, taking off, or maneuvering of aircraft in the runway approach areas.

THE PUBLIC COMMENT PERIOD ON THE PROPOSED ZONING ORDINANCE WILL COMMENCE AT 8:00 A.M. ON MONDAY, FEBRUARY 12, 2018, AND CLOSE AT 5:00 P.M. ON WEDNESDAY, MARCH 14, 2018. During this period, written comments will be accepted and must be addressed to:

Board of Water and Soil Resources (BWSR)

Notice of Request for Comment on a Proposed Administrative Penalty Order Plan for Enforcement of Excessive Soil Loss Requirements

The Minnesota Board of Water and Soil Resources (BWSR) is requesting public review and comment on a proposed draft Plan to support the implementation of Minnesota Statutes §103B.101, subd. 12(a) and (b) and §103F.401 to §103F.455, relating to prohibition of excessive soil loss.

Minnesota's soil erosion law is found in Minn. Statutes §103F.401 through 103F.455. The law, which dates back to 1984, sets forth a public policy stating that a person may not cause excessive soil loss. However, the law was permissive

in that it only encouraged local governments to adopt soil erosion ordinances and could not be implemented without a local government ordinance. Minnesota Laws 2015, regular and 1st special sessions changed the law by:

- 1) repealing Minn. Statutes §103F.451 “Applicability”, which eliminates the requirement that the law is only applicable with a local government ordinance;
- 2) creating specific Administrative Penalty Order (APO) authority in Minn. Statutes §103B.101, subd. 12a, for BWSR and counties to enforce the law; and
- 3) amending Minn. Statutes §103F.421 “Enforcement” to remove local enforcement only through civil penalty and to revise requirements for state cost-share of conservation practices required to correct excessive soil loss.

Statute also directs BWSR to “adopt a plan containing procedures for the issuance of administrative penalty orders by local governments and the board” (Minn. Statutes §103B, subd. 12a (b)). BWSR is considering the following APO Plan for implementation of the excessive soil loss prohibition:

Administrative Penalty Order (APO) Plan for Enforcement of Excessive Soil Loss Requirements includes an overview of the enforcement responsibilities of counties and BWSR related to the excessive soil loss prohibitions of Minn. Stat. §103F.415, a model county administrative penalty order plan for use as guidance when counties choose to use APO as an enforcement mechanism, and the APO plan that BWSR will use when it is the enforcement authority.

The Draft APO Plan is located on the BWSR website (<http://www.bwsr.state.mn.us/soils/index.html>)

Information and comments will be accepted until **4:30 p.m. on March 12, 2018**. Comments may be submitted via email to soillossrules@state.mn.us. Alternatively, comments may be submitted by U.S. mail as follows:

Minnesota State Colleges and Universities (Minnesota State) Request for Proposal (RFP) for Data Integration Platform

Background:

Minnesota State Colleges and Universities (Minnesota State) is the fifth-largest system of higher education in the United States. It is comprised of 37 two-year and four-year state colleges and universities with 54 campuses located in 47 Minnesota communities. The System serves approximately 430,000 students each year. The Minnesota State Colleges and Universities is an independent state entity that is governed by a 15 member Board of Trustees. The law creating the system was passed by the Minnesota Legislature in 1991 and went into effect July 1, 1995. The law merged the state's community colleges, technical colleges and state universities into one system, other than the University of Minnesota campuses. For more information about Minnesota State Colleges and Universities, please view its website at www.minnstate.edu.

Nature of RFP:

Minnesota State System Office is requesting proposals for the purchase and implementation of a cloud-based data integration and integration management solution. This RFP is undertaken by Minnesota State System Office pursuant to the authority contained in provisions of Minnesota Statutes § 136F.581 and other applicable laws.

Purpose:

The ability to effectively create and manage integrations across numerous SaaS and homegrown systems and services is foundational in supporting core business capabilities.

The purpose of this RFP is to choose a fully-developed, cloud-based data integration platform and integration management solution that will support Minnesota State in creating integrations between premise-to-premise, premise-to-cloud and cloud-to-cloud applications, data sources, databases, and API's.

Problem Statement:

Minnesota State has hundreds of integrations between its ERP systems and satellite, vendor, and shadow systems. In addition, we have multiple integrations across teaching and learning systems, registration systems, campus systems and others. To date all integrations are coded manually and specifically for each integration need.

The existing highly customized, ad hoc data integration environment is not sufficient to meet future business needs. Continuation of the current integration practices is no longer sustainable.

The Minnesota State Architecture team has been charged with implementing a standardized, centralized, secure, cloud-based data integration solution that will provide discoverable, reusable data integrations across a broad variety of cloud-based and on-premise technologies, platforms, applications and services.

General Selection Criteria:

The solution will be selected based on criteria that include, but are not limited to:

The proposed solution is a Software as a Service (SaaS, iPaaS) solution, capable of integrating data to and from on premise and cloud databases, storage providers, ERP applications, RESTful API's and Message Queues.

The RFP respondent is the publisher or an authorized reseller of the solution. The vendor of proposed solution has had a commercially available SaaS/IPaaS product with sales for a minimum of three years in public sector or Higher Education.

The proposed solution substantially complies with current national accessibility specifications and standards, including Section 508 of the 1973 Rehabilitation Act and the World Wide Web Consortium's (W3C) Web Content Accessibility Guidelines (WCAG) 2.0 AA.
