Minnesota Rules: Amendments and Additions

NOTICE: How to Follow State Agency Rulemaking in the State Register

The State Register is the official source, and only complete listing, for all state agency rulemaking in its various stages. State agencies are required to publish notice of their rulemaking action in the State Register. Published every Monday, the State Register makes it easy to follow and participate in the important rulemaking process. Approximately 80 state agencies have the authority to issue rules. Each agency is assigned specific Minnesota Rule chapter numbers. Every odd-numbered year the Minnesota Rules are published. Supplements are published to update this set of rules. Generally speaking, proposed and adopted exempt rules do not appear in this set because of their short-term nature, but are published in the State Register.

An agency must first solicit Comments on Planned Rules or Comments on Planned Rule Amendments from the public on the subject matter of a possible rulemaking proposal under active consideration within the agency (Minnesota Statutes §§ 14.101). It does this by publishing a notice in the State Register at least 60 days before publication of a notice to adopt or a notice of hearing, or within 60 days of the effective date of any new statutory grant of required rulemaking.

When rules are first drafted, state agencies publish them as Proposed Rules, along with a notice of hearing, or a notice of intent to adopt rules without a hearing in the case of noncontroversial rules. This notice asks for comment on the rules as proposed. Proposed emergency rules, and withdrawn proposed rules, are also published in the State Register. After proposed rules have gone through the comment period, and have been rewritten into their final form, they again appear in the State Register as Adopted Rules. These final adopted rules are not printed in their entirety, but only the changes made since their publication as Proposed Rules. To see the full rule, as adopted and in effect, a person simply needs two issues of the State Register, the issue the rule appeared in as proposed, and later as adopted.

The State Register features partial and cumulative listings of rules in this section on the following schedule: issues #1-26 inclusive (issue #26 cumulative for issues #1-26); issues #27-52 inclusive (issue #52, cumulative for issues #27-52 or #53 in some years). A subject matter index is updated weekly and is available upon request from the editor. For copies or subscriptions to the State Register, contact Minnesota's Bookstore, 660 Olive Street (one block east of I-35E and one block north of University Ave), St. Paul, MN 55155, phone: (612) 297-3000, or toll-free 1-800-657-3757. Expedited Emergency Rules

Provisions exist for the Commissioners of some state agencies to adopt expedited emergency rules when conditions exist that do not allow the Commissioner to comply with the requirements for emergency rules. The Commissioner must submit the rule to the attorney general for review and must publish a notice of adoption that includes a copy of the rule and the emergency conditions. Expedited emergency rules are effective upon publication in the *State Register*, and may be effective up to seven days before publication under certain emergency conditions.

Expedited emergency rules are effective for the period stated or up to 18 months. Specific *Minnesota Statute* citations accompanying these expedited emergency rules detail the agency's rulemaking authority.

KEY: Proposed Rules - Underlining indicates additions to existing rule language. ~~Strikeouts~~ indicate deletions from existing rule language. If a proposed rule is totally new, it is designated "all new material."

Adopted Rules - Underlining indicates additions to proposed rule language. ~~Strikeout~~ indicates deletions from proposed rule language.

Department of Natural Resources

Adopted Expedited Emergency Game and Fish Rules: Temporary Prohibition on the Movement of Farmed White-Tailed Deer

Notice is hereby given that, pursuant to the Commissioner's authority set forth in Minn. Stat. § 97A.045, subd. 1(b) to control domestic animals that are posing a threat to wildlife, together with her authority in Minn. Stat. § 97A.045, subd. 1(a) to do all things necessary to preserve, protect, and propagate desirable species of wild animals; Minn. Stat. § 97A.045, subd. 11 to undertake action necessary to prevent or control a wildlife disease; and Minn. Stat. § 97A.025 to retain ownership of the wild animals of the state in the state's sovereign capacity for the benefit of all the people of the state, the Commissioner is adopting the following rule to prevent the spread of chronic wasting disease (CWD) among the wild deer population by temporarily prohibiting the movement of all farmed white-tailed deer within the state. Because of extensive and irreversible damage that CWD could do to the wild deer population in the time it would take to use the Chapter 14 rulemaking process to adopt this rule, the DNR is using its expedited emergency rulemaking authority pursuant to Minn. Stat. § 84.027, subd. 13(b).

This rule is adopted as an expedited emergency rule pursuant to the authority granted to the commissioner to adopt emergency rules in Minn. Stat. § 84.027, subd. 13(b). The emergency rule is necessitated by the recent discovery of CWD in farmed white-tailed deer in Douglas County. The presence of CWD in farmed white-tailed deer herds poses a significant risk to surrounding wild herds. Prions, the infectious agent causing the disease, are found in urine, saliva, blood, feces, muscle and antler velvet of infected deer. Disease transmission can occur via direct contact between farmed deer and wild deer through farm fences or following farmed deer escape. Moreover, anthropogenic movement of live cervids is widely recognized to be one of the greatest risk factors in spreading CWD. See AFWA TECHNICAL REPORT ON BEST MANAGEMENT PRACTICES FOR SURVEILLANCE, MANAGEMENT AND CONTROL OF CHRONIC WASTING DISEASE 15-19 (Colin M. Gillin & Johnathan R. Mawdsley eds., 2018). A temporary prohibition on all movement of farmed white-tailed deer would help control and contain the current spread of CWD, while allowing the Department of Natural Resources time to evaluate the outbreak, generate potential solutions to containing and eliminating the disease, and protect the wild deer herd.

Dated: December 19, 2019

Non-State Public Bids, Contracts & Grants

The State Register also serves as a central marketplace for contracts let out on bid by the public sector. The *State Register* meets state and federal guidelines for statewide circulation of public notices. Any tax-supported institution or government jurisdiction may advertise contracts and requests for proposals from the private sector. It is recommended that contracts and RFPs include the following: 1) name of contact person; 2) institution name, address, and telephone number; 3) brief description of commodity, project or tasks; 4) cost estimate; and 5) final submission date of completed contract proposal. Allow at least three weeks from publication date (four weeks from the date article is submitted for publication). Surveys show that subscribers are interested in hearing about contracts for estimates as low as \$1,000. Contact editor for further details.
