Minnesota Rules: Amendments and Additions

NOTICE: How to Follow State Agency Rulemaking in the State Register

The State Register is the official source, and only complete listing, for all state agency rulemaking in its various stages. State agencies are required to publish notice of their rulemaking action in the State Register. Published every Monday, the State Register makes it easy to follow and participate in the important rulemaking process. Approximately 80 state agencies have the authority to issue rules. Each agency is assigned specific Minnesota Rule chapter numbers. Every odd-numbered year the Minnesota Rules are published. Supplements are published to update this set of rules. Generally speaking, proposed and adopted exempt rules do not appear in this set because of their short-term nature, but are published in the State Register.

An agency must first solicit Comments on Planned Rules or Comments on Planned Rule Amendments from the public on the subject matter of a possible rulemaking proposal under active consideration within the agency (Minnesota Statutes §§ 14.101). It does this by publishing a notice in the State Register at least 60 days before publication of a notice to adopt or a notice of hearing, or within 60 days of the effective date of any new statutory grant of required rulemaking.

When rules are first drafted, state agencies publish them as Proposed Rules, along with a notice of hearing, or a notice of intent to adopt rules without a hearing in the case of noncontroversial rules. This notice asks for comment on the rules as proposed. Proposed emergency rules, and withdrawn proposed rules, are also published in the State Register. After proposed rules have gone through the comment period, and have been rewritten into their final form, they again appear in the State Register as Adopted Rules. These final adopted rules are not printed in their entirety, but only the changes made since their publication as Proposed Rules. To see the full rule, as adopted and in effect, a person simply needs two issues of the State Register, the issue the rule appeared in as proposed, and later as adopted.

The State Register features partial and cumulative listings of rules in this section on the following schedule: issues #1-26 inclusive (issue #26 cumulative for issues #1-26); issues #27-52 inclusive (issue #52, cumulative for issues #27-52 or #53 in some years). A subject matter index is updated weekly and is available upon request from the editor. For copies or subscriptions to the State Register, contact Minnesota's Bookstore, 660 Olive Street (one block east of I-35E and one block north of University Ave), St. Paul, MN 55155, phone: (612) 297-3000, or toll-free 1-800-657-3757. Proposed Rules

Comments on Planned Rules or Rule Amendments. An agency must first solicit Comments on Planned Rules or Comments on Planned Rule Amendments from the public on the subject matter of a possible rulemaking proposal under active consideration within the agency (*Minnesota Statutes* §§ 14.101). It does this by publishing a notice in the *State Register* at least 60 days before publication of a notice to adopt or a notice of hearing, and within 60 days of the effective date of any new statutory grant of required rulemaking.

Rules to be Adopted After a Hearing. After receiving comments and deciding to hold a public hearing on the rule, an agency drafts its rule. It then publishes its rules with a notice of hearing. All persons wishing to make a statement must register at the hearing. Anyone who wishes to submit written comments may do so at the hearing, or within five working days of the close of the hearing. Administrative law judges may, during the hearing, extend the period for receiving comments up to 20 calendar days. For five business days after the submission period the agency and interested persons may respond to any new information submitted during the written submission period and the record then is closed. The administrative law judge prepares a report within 30 days, stating findings of fact, conclusions and recommendations. After receiving the report, the agency decides whether to adopt, withdraw or modify the proposed rule based on consideration of the comments made during the rule hearing procedure and the report of the administrative law judge. The agency must wait five days after receiving the report before taking any action.

Rules to be Adopted Without a Hearing. Pursuant to *Minnesota Statutes* § 14.22, an agency may propose to adopt, amend, suspend or repeal rules without first holding a public hearing. An agency must first solicit **Comments on Planned Rules** or **Comments on Planned Rule Amendments** from the public. The agency then publishes a notice of intent to adopt rules without a public hearing, together with the proposed rules, in the *State Register*. If, during the 30-day comment period, 25 or more persons submit to the agency a written request for a hearing of the proposed rules, the agency must proceed under the provisions of §§ 14.1414.20, which state that if an agency decides to hold a public hearing, it must publish a notice of intent in the *State Register*.

Introduction. The Board of Cosmetologist Examiners intends to adopt rules without a public hearing following the procedures in the rules of the Office of Administrative Hearings, *Minnesota Rules*, parts 1400.2300 to 1400.2310, and the Administrative Procedure Act, *Minnesota Statutes*, sections 14.22 to 14.28. If, however, 25 or more persons submit a written request for a hearing on the rules by **4:30 p.m. on September 26, 2019,** the Board will hold a public hearing in the boardroom at the Board offices at 1000 University Avenue West, Suite 100, St. Paul, Minnesota 55104 starting at **9:30 a.m. on Friday, November 15, 2019**. To find out whether the Board will adopt the rules without a hearing or if it

will hold the hearing, you should contact the agency contact person after September 27, 2019, and before November 15, 2019.

Agency Contact Person. Submit any comments or questions on the rules or written requests for a public hearing to Rebecca Gaspard at ***rebecca.gaspard@state.mn.us***, phone 651-201-2751; or Board of Cosmetologist Examiners, 1000 University Avenue West, Suite 100, St. Paul, Minnesota, 55104, or faxed to 612-617-2601. TTY users may call 1-800-627-3529.

Subject of Rules. The proposed new rules, rules amendments, and repeals of rules are about licensure, practice, application requirements, scope of practice; salons; skills courses; advertising; designated licensed salon managers, salon physical requirements, infection control, salons in nursing homes and assisted living facilities, and housekeeping changes. The proposed changes will affect all licensees and applicants, nursing homes and assisted living facilities.

Statutory Authority. The Board's statutory authority to adopt rules is stated in Minnesota Statutes, section 155A as follows:

§155A.26, which states: The board may develop and adopt rules according to chapter 14 that the board considers necessary to carry out sections 155A.21 to 155A.36.

§155A.27 Subd. 2., which states: Qualifications for licensing in each classification shall be determined by the board and established by rule, and shall include educational and experiential prerequisites. The rules shall require a demonstrated knowledge of procedures necessary to protect the health of the practitioner and the consumer of cosmetology services, including but not limited to chemical applications

§155A.29 Subd. 3., which states: Minimum infection control standards for the operation of a salon shall be established by rule.

§155A.30 Subd. 2., which states: The board shall by rule establish minimum standards of course content and length specific to the educational preparation prerequisite to testing and licensing as cosmetologist, esthetician, and manicurist.

Copies of rule drafts. The rules drafts are available on the Board's website at ***https://mn.gov/boards/cosmetology/*** and at the Board's offices. Links to the rules draft are also included in the email notification of licensees and parties on the Board's rulemaking email list. A free copy may be requested by emailing ***cosmetology@state.mn.us*** or by calling the agency contact person listed above. A copy of the proposed rules is published in the *State Register* on August 26, 2019.

Comments. You have until **4:30 p.m. on Wednesday, September 26, 2019**, to submit written comment in support of, or in opposition to, the proposed rules or any part or subpart of the rules. Your comment must be in writing and received by the agency contact person by the due date. Comment is encouraged. Your comments should identify the portion of the proposed rules addressed, the reason for the comment, and any change proposed. You are encouraged to propose any change that you desire. Any comments that you have about the legality of the proposed rules must also be made during this comment period.

Request for a Hearing. In addition to submitting comments, you may also request that the Board hold a hearing on the rules. You must make your request for a public hearing in writing, which the agency contact person must receive by **4:30 p.m. on Wednesday, September 26, 2019.** You must include your name and address in your written request. In addition, you must identify the portion of the proposed rules that you object to or state that you oppose the entire set of rules. Any request that does not comply with these requirements is not valid and the agency cannot count it when determining whether it must hold a public hearing. You are also encouraged to state the reason for the request and any changes you want made to the proposed rules.

Withdrawal of Requests. If 25 or more persons submit a valid written request for a hearing, the Board will hold a public hearing unless a sufficient number of persons withdraw their requests in writing. If enough requests for hearing are withdrawn to reduce the number below 25, the Board must give written notice of this to all persons who requested a hearing, explain the actions the Board took to effect the withdrawal, and ask for written comments on this action. If a public hearing is required, the Board will follow the procedures in *Minnesota Statutes*, sections 14.131 to 14.20.

Alternative Format/Accommodation. Upon request, this information can be made available in an alternative format, such as large print, braille, or audio. To make such a request or if you need an accommodation to make this hearing

accessible, please contact the agency contact person at the address or telephone number listed above.

Modifications. The Board might modify the proposed rules, either as a result of public comment or as a result of the rule hearing process. It must support modifications by data and views submitted to the agency or presented at the hearing. The adopted rules may not be substantially different than these proposed rules unless the agency follows the procedure under *Minnesota Rules*, part 1400.2110. If the proposed rules affect you in any way, the Board encourages you to participate in the rulemaking process.

Cancellation of Hearing. The Board will cancel the hearing scheduled for 9:30 a.m. on Friday, November 17, 2019, if the board does not receive requests for a hearing from 25 or more persons. If you requested a public hearing, the agency will notify you before the scheduled hearing whether the hearing will be held. You may also check the Board's website at ***www.bceboard@state.mn.us*** or call the board contact person at 651-201-2751 after Thursday, September 27, 2019, to find out whether the hearing will be held. On the scheduled day, you may check for whether the hearing will be held by going on-line at ***https://mn.gov/boards/cosmetology/***.

Notice of Hearing. If 25 or more persons submit valid written requests for a public hearing on the rules, the Board will hold a hearing following the procedures in *Minnesota Statutes*, sections 14.131 to 14.20. The Board will hold the hearing in the boardroom at the board offices at 1000 University Avenue West, Suite 100, St. Paul, Minnesota 55104 starting at **9:30 a.m. on Friday, November 15, 2019**. The hearing will continue until all interested persons have been heard. Administrative Law Judge Jessica A. Palmer-Denig is assigned to conduct the hearing. Judge Palmer-Denig's Legal Assistant Carah FaggéTt can be reached at the Office of Administrative Hearings, 600 North Robert Street, P.O. Box 64620, Saint Paul, Minnesota 55164-0620, telephone (651) 361-7841, and fax (651) 539-0310 or ***carah.faggett@state.mn.us***.

Hearing Procedure. If the Board holds a hearing, you and all interested or affected persons, including representatives of associations or other interested groups, will have an opportunity to participate. You may present your views either orally at the hearing or in writing at any time before the hearing record closes. All evidence presented should relate to the proposed rules. You may also submit written material to the Administrative Law Judge to be recorded in the hearing record for five working days after the public hearing ends. At the hearing the Administrative Law Judge may order that this five-day comment period is extended for a longer period but not more than 20 calendar days. Following the comment period, there is a five working-day rebuttal period when the agency and any interested person may respond in writing to any new information submitted. No one may submit new evidence during the five-day rebuttal period.

All post-hearing comments and responses must be submitted to the Administrative Law Judge no later than 4:30 p.m. on the due date. The Office of Administrative Hearings strongly encourages all persons submitting comments and responses to do so by way of the Office of Administrative Hearings' Rulemaking eComments website at ***https://minnesotaoah.granicusideas.com/discussions***. If it is not possible to use the eComments website, post-hearing comments may be submitted in person, via United States mail, or by facsimile addressed to Judge Palmer-Denig at the address or facsimile number listed in the section above. All comments or responses received will be available for review at the Office of Administrative Hearings' eComments website and at the offices of the Board or the Board's website at: ***https://mn.gov/boards/cosmetology/***. This rule hearing procedure is governed by Minnesota Rules, parts 1400.2000 to 1400.2240 (2017), and Minnesota Statutes, sections 14.131to 14.20 (2018). You may direct questions about the procedure to the Administrative Law Judge.

Statement of Need and Reasonableness. The statement of need and reasonableness summarizes the justification for the proposed rules, including a description of who will be affected by the proposed rules and an estimate of the probable cost of the proposed rules. It explains the Board's reasoning behind each of the proposed changes. It is now available on the Board's website at ***https://mn.gov/boards/cosmetology/,*** at the Board's offices, and can be requested by emailing ***cosmetology@state.mn.us*** or from the agency contact person. You may review or obtain copies for the cost of reproduction by contacting the agency contact person.

Lobbyist Registration. *Minnesota Statutes*, chapter 10A, requires each lobbyist to register with the State Campaign Finance and Public Disclosure Board. Ask any questions about this requirement of the Campaign Finance and Public

Disclosure Board at: Suite #190, Centennial Building, 658 Cedar Street, St. Paul, Minnesota 55155, telephone (651) 539-1180 or 1-800-657-3889.

Adoption Procedure if No Hearing. If no hearing is required, the agency may adopt the rules after the end of the comment period. The Board will submit the rules and supporting documents to the Office of Administrative Hearings for a legal review. You may ask to be notified of the date the rules are submitted to the office. If you want either to receive notice of this, to receive a copy of the adopted rules, or to register with the agency to receive notice of future rule proceedings, submit your request to the agency contact person listed above.

Adoption Procedure after a Hearing. If a hearing is held, after the close of the hearing record, the Administrative Law Judge will issue a report on the proposed rules. You may ask to be notified of the date that the Administrative Law Judge's report will become available, and can make this request at the hearing or in writing to the Administrative Law Judge. You may also ask to be notified of the date that the agency adopts the rules and the rules are filed with the Secretary of State by requesting this at the hearing or by writing to the agency contact person stated above.

different than these proposed rules, unless the agency follows the procedure under *Minnesota Rules*, part 1400.2110. If the proposed rules affect you in any way, the Lottery encourages you to participate in the rulemaking process.

Statement of Need and Reasonableness. The statement of need and reasonableness statement contains a summary of the justification for the proposed rules, including a description of who will be affected by the proposed rules and an estimate of the probable cost of the proposed rules. It is now available from the agency contact person. You may review it or obtain copies for the cost of reproduction by contacting the agency contact person.

Expedited Emergency Rules

Provisions exist for the Commissioners of some state agencies to adopt expedited emergency rules when conditions exist that do not allow the Commissioner to comply with the requirements for emergency rules. Expedited emergency rules are effective upon publication in the *State Register*, and may be effective up to seven days before publication under certain emergency conditions.

Expedited emergency rules are effective for the period stated or up to 18 months. Specific *Minnesota Statute* citations accompanying these expedited emergency rules detail the agency's rulemaking authority.

Department of Natural Resources

Adopted Expedited Emergency Game and Fish Rules: 2019 Deer Seasons and Special Hunts

Notice is hereby given that the above entitled rules have been adopted through the process prescribed by *Minnesota Statutes*, section 84.027, subdivision 13(b). The statutory authority for the content of the rules is *Minnesota Statutes*, 97A.045, subd 11; 97A.091 subd. 2; 97A.401 subd. 4; 97A.535 subd. 2; 97B.111; 97B.301; 97B.311.

The following conditions do not allow compliance with *Minnesota Statutes*, sections 97A.0451 to 97A.0459: Population data needed to set bag limits for specific deer permit areas are not available until spring of each year. Special hunts to reduce deer density in municipalities, state parks and other areas where hunting is not normally allowed are opened to hunting are based on annual changes in local deer populations. Other special hunts are authorized to provide opportunities to special groups and for mentoring or for disease control.

The emergency rule is also necessitated by the continuing effort to manage Chronic Wasting Disease (CWD), which has been found in wild deer harvested in southeast and north central Minnesota and in captive deer at farms in central, north central and southeast Minnesota. CWD infectious agents are extremely persistent in the environment and transmission may be both direct and indirect. The concentration of deer in certain areas likely increases the risk of transmission between individual deer. Disease management measures are implemented to control disease spread based on discoveries of infections in both wild and farm-raised captive deer. Reducing the number of deer reduces the risk of transmission between individuals.

To provide as much hunter access as possible to areas where the disease has been detected, the DNR is opening three Scientific and Natural Areas that would normally be closed to hunting. Allowing hunting on the Pin Oak Prairie and Cherry Grove Blind Valley Scientific and Natural Areas in Fillmore County as well as the South Unit of Mound Prairie Scientific and Natural Area in Houston County decreases the possibility that deer will become concentrated in these areas to avoid hunters. This increases the likelihood of achieving the overall goal of reducing the risk of CWD transmission between wild deer. Because the hunt occurs at a time of year when public use and agency operations on the SNAs are reduced, it will not interfere with their normal function. Hunters must be qualified for this hunt by being legally eligible to purchase a deer hunting license and must meet any firearms safety requirements (based on their age).

Adopted Expedited Emergency Game and Fish Rules: 2019 Youth and Adult Special Deer Hunts and Seasons

Notice is hereby given that the above referenced rules have been adopted through the process prescribed by *Minnesota Statutes*, section 84.027, subdivision 13(b). The statutory authority for the content of the rules is *Minnesota Statutes*, sections 97B.112, 97B.311.

Deer population and harvest data used for selecting hunters and setting quotas and areas is gathered annually and analyzed each winter. Adjustments to areas and quotas are based on annual and long-term population data as well as input from the public.

Dated: July 12, 2019

Department of Natural Resources

Adopted Expedited Emergency Game and Fish Rules: Prohibition on Feeding Deer

Notice is hereby given that the following rules are being adopted through the process prescribed by *Minnesota Statutes*, section 84.027, subdivision 13(b), which authorizes the Commissioner to adopt emergency rules to control wildlife disease. Additional authority for the content of the rule is found in *Minnesota Statutes*, section 97A.045, subdivision 11.

Conditions exist that do not allow compliance with *Minnesota Statutes*, sections 97A.0451 to 97A.0459. Chronic Wasting Disease (CWD) has been detected at multiple cervid farms in central and southeast Minnesota. Because infectious agents related to this disease are extremely resistant in the environment, transmission may be both direct and indirect. Concentrating deer through the use of deer feed and attractants increases the risk of transmission between individuals. Because efforts to manage CWD are ongoing, and may end or require modification depending on additional detections of the disease, the 18-month effective time of rules adopted under *Minnesota Statutes*, section 84.027, subdivision 13(b) best accommodates this situation.

To further reduce the transmission of CWD, the placement or distribution of deer feed and deer attractants is prohibited in Aitkin, Cass, Crow Wing, Dodge, Fillmore, Freeborn, Goodhue, Houston, Hubbard, Mille Lacs, Morrison, Mower, Olmsted, Steele, Todd, Wabasha, Wadena, and Winona Counties. In addition, the placement or distribution of deer feed is prohibited in Kandiyohi, McLeod, Meeker, Stearns, and Wright Counties, and that portion of Renville County lying north of U.S. Highway 212.

Expedited rules are effective upon publication in the State Register, and may be effective up to seven days before
publication under certain conditions.

Expedited rules are effective for the period stated or up to 18 months. Specific *Minnesota Statute* citations accompanying these expedited rules detail the agency's rulemaking authority.

Proposed Expedited Permanent Game and Fish Rules: Taking Fish on Minnesota-Wisconsin Boundary Waters; Notice of Intent to Adopt Expedited Rules without a Public Hearing

Proposed Amendment to Game and Fish Rules Governing Taking Fish on Minnesota-Wisconsin Boundary Waters, *Minnesota Rules*, chapter 6266;
Revisor's ID Number R-04603

Introduction. The Department of Natural Resources intends to adopt rules under the expedited rulemaking process following the rules of the Office of Administrative Hearings, *Minnesota Rules*, part 1400.2410, and the Administrative Procedure Act, *Minnesota Statutes*, section 14.389. You may submit written comments on the proposed expedited rules until October 4, 2019.

Department Contact Person. You must submit comments or questions on the rules to Shannon Fisher at Minnesota Department of Natural Resources, 500 Lafayette Road, St. Paul, Minnesota 55155-4020, phone 651-259-5239, and ***shannon.fisher@state.mn.us***.

Subject of the Expedited Rules and Statutory Authority. The proposed expedited rules are about adjusting Minnesota's fishing on the boundary waters shared with Wisconsin to ensure consistent regulations for all anglers. The department is using the expedited permanent rulemaking procedure process instead of regular rulemaking so that we can complete the rulemaking by the opening of Minnesota's spring fishing season on March 1, 2020. Wisconsin plans to adopt a similar rule by March 1, 2020.

The rule amendments modify possession limits for taking walleye and sauger, northern pike, channel and flathead catfish, shovelnose sturgeon, crappie, sunfish, yellow perch, and white and yellow bass in the Mississippi River, including Lake Pepin. The rule amendments also modify length limits for walleye, sauger, northern pike, channel catfish, and flathead catfish.

With few exceptions, regulations on possession and size restrictions for gamefish on the Minnesota and Wisconsin border waters of the Mississippi River have been largely unchanged since the 1940s and 1950s. The most recent changes were in 1990, when minimum size limits for bass (14 inches) and walleye (15 inches) were implemented. Over the last 20 years, however, regulations for gamefish in inland waters of both states have undergone substantial changes, and regulations on the border waters are now very different than those in either state.

In addition, aquatic habitat loss in backwaters and side channels due to sedimentation, chemical and hydrologic changes due to land use practices and climate change, and increasing abundance of invasive species all have the potential to significantly impact the long term health of fish populations on the Mississippi River. The proposed changes are intended to be a proactive measure that will allow the river to sustain high quality fish populations into future decades.

The statutory authority to adopt the rules is *Minnesota Statutes*, section 97A.045, subd. 4. The statutory authority to adopt the rules under the expedited rulemaking process is *Minnesota Statutes*, sections 84.027, subd. 13a (b).

A copy of the proposed rules is published in the State Register and attached to this notice as mailed. A free copy of the rules is available upon request from the department contact person listed above. The proposed expedited rules may be viewed on the **DNR Public Input Rulemaking webpage** at ***www.dnr.state.mn.us/input/rules/index.html.***

Comments. You have until 4:30 p.m. on Friday, October 4, 2019, to submit written comment in support of or in opposition to the proposed expedited rules and any part or subpart of the rules:

- Your comment must be in writing and received by the department contact person by the due date. Comment is encouraged.
- Your comment should identify the portion of the proposed expedited rules addressed and the reason for the comment. You are encouraged to propose any change desired.
- Any comments that you would like to make on the legality of the proposed rule must also be made during this comment period.

The department encourages you to participate in the rulemaking process if the proposed expedited rules interest you in any way.

Request for Hearing. In addition to submitting comments, you may also request that a hearing be held on the rules:

- You must make your request in writing and the department contact person must receive it by 4:30 p.m. on October 4, 2019.
- Your written request for a public hearing must include your name and address.
- You must identify the portion of the proposed rules to which you object or state that you oppose the entire set of rules.
- You are also encouraged to state the reason for the request and any changes you want made to the proposed rules.

Any request that does not comply with these requirements is not valid and the department cannot count it for determining whether it must hold a public hearing.

If 100 or more persons submit a valid written request for a hearing, a public hearing will be held unless a sufficient number subsequently withdraw their requests in writing. If the department is required to hold a public hearing, it will follow the procedures in *Minnesota Statutes*, section 14.131 to 14.20.

Withdrawal of Requests. If enough requests for hearing are withdrawn to reduce the number below 100, the department must give written notice of this to all persons who requested a hearing, explain the action the department took to effect the withdrawal, and ask for written comments on this action.

Modifications. The department may modify the proposed expedited rules using either of two avenues:

- The department may modify the proposed rules directly so long as the modifications do not make them "substantially different" as defined in *Minnesota Statutes*, section 14.05, subdivision 2, paragraphs (b) and (c).
- Or the department may adopt substantially different rules if it follows the procedure under *Minnesota Rules*, part 1400.2110.

If the final rules are identical to the rules originally published in the State Register, the department will publish a notice of adoption in the State Register. Minnesota State Colleges and Universities (Minnesota State)

Request for Proposal (RFP) FOR Enterprise Resource Planning (ERP) Solution

Background

Minnesota State Colleges and Universities (Minnesota State) is the fourth-largest system of higher education in the United States. Minnesota State services approximately 375,000 students each year, and is comprised of 37 state colleges and universities with 54 campuses located in 47 Minnesota communities. Minnesota State is an independent state entity that is governed by a 15-member Board of Trustees.

For more information about Minnesota State's strategic plans, mission, and vision, please view its website at ***http://www.minnstate.edu/***

Minnesota State's Integrated Statewide Records System (ISRS) was created 25 years ago to implement a single, common accounting system to support the merging of public state universities, community colleges, and technical colleges. Minnesota State leveraged this opportunity to implement the technology not only to meet the minimum standard of consolidating accounting systems, but also to consolidate human resources functionality, financial reporting, and core student functionality (e.g., registration, student housing, financial aid, and student services). The original vision was based on the desire to create a single integrated data system that would serve the needs of all institutions (system office, colleges, and universities) and their students, faculty, and staff – all while providing flexibility to support autonomy and individuality of each institution. Minnesota State has enforced many high-level, student-based policy regulations adopted by the State of Minnesota which are designed to provide equitable experiences across the state. Beyond these regulations, Minnesota State institutions have been allowed to exercise autonomy, which has resulted in various business processes. In addition, institutions have developed or purchased auxiliary solutions to augment ISRS system functionality.

Nature of the RFP

Minnesota State is seeking a next generation ERP solution with the following integrated suite of applications to provide a world-class student experience, while serving business operations and managing academic programs: Student Information System (SIS), Financial Information System (FIS), Human Resource Information System (HRIS), Reporting and Analytics. In addition, Minnesota State would like to explore options for replacing or integrating with existing auxiliary solutions noted within the functional requirements.

Proposals must be submitted by the primary software vendor who is expected to be the long-term vendor contracted with Minnesota State. In cases where implementation services are provided by an external certified partner, the primary software vendor must select one service partner and present one single unified proposal.

Included in the proposal should be a dedicated implementation services team to ensure the proposed solution(s)

deliver on the requirements and needs of Minnesota State. The implementation services team will be responsible for the implementation of the proposed ERP solutions(s), including but not limited to project oversight, integrations, data migrations, documentation, and training materials. The implementation services team must demonstrate experience and success in implementing cloud-based or hosted enterprise solutions in a statewide environment, while successfully guiding the organization through the change.
