Minnesota Rules: Amendments and Additions

NOTICE: How to Follow State Agency Rulemaking in the State Register

The State Register is the official source, and only complete listing, for all state agency rulemaking in its various stages. State agencies are required to publish notice of their rulemaking action in the State Register. Published every Monday, the State Register makes it easy to follow and participate in the important rulemaking process. Approximately 80 state agencies have the authority to issue rules. Each agency is assigned specific Minnesota Rule chapter numbers. Every odd-numbered year the Minnesota Rules are published. Supplements are published to update this set of rules. Generally speaking, proposed and adopted exempt rules do not appear in this set because of their short-term nature, but are published in the State Register.

An agency must first solicit Comments on Planned Rules or Comments on Planned Rule Amendments from the public on the subject matter of a possible rulemaking proposal under active consideration within the agency (Minnesota Statutes §§ 14.101). It does this by publishing a notice in the State Register at least 60 days before publication of a notice to adopt or a notice of hearing, or within 60 days of the effective date of any new statutory grant of required rulemaking.

When rules are first drafted, state agencies publish them as Proposed Rules, along with a notice of hearing, or a notice of intent to adopt rules without a hearing in the case of noncontroversial rules. This notice asks for comment on the rules as proposed. Proposed emergency rules, and withdrawn proposed rules, are also published in the State Register. After proposed rules have gone through the comment period, and have been rewritten into their final form, they again appear in the State Register as Adopted Rules. These final adopted rules are not printed in their entirety, but only the changes made since their publication as Proposed Rules. To see the full rule, as adopted and in effect, a person simply needs two issues of the State Register, the issue the rule appeared in as proposed, and later as adopted.

The State Register features partial and cumulative listings of rules in this section on the following schedule: issues #1-26 inclusive (issue #26 cumulative for issues #1-26); issues #27-52 inclusive (issue #52, cumulative for issues #27-52 or #53 in some years). A subject matter index is updated weekly and is available upon request from the editor. For copies or subscriptions to the State Register, contact the editor at 651-201-3204 or email at sean.plemmons@state.mn.us

Adopted Rules

A rule becomes effective after the requirements of *Minnesota Statutes* §§ 14.05-14.28 have been met and five working days after the rule is published in the *State Register*, unless a later date is required by statutes or specified in the rule. If an adopted rule is identical to its proposed form as previously published, a notice of adoption and a citation to its previous *State Register* publication will be printed. If an adopted rule differs from its proposed form, language which has been deleted will be printed with strikeouts and new language will be underlined. The rule's previous *State Register* publication will be cited.

KEY: Proposed Rules - Underlining indicates additions to existing rule language. ~~Strikeouts~~ indicate deletions from existing rule language. If a proposed rule is totally new, it is designated "all new material." **Adopted Rules** - Underlining indicates additions to proposed rule language. Strikeout indicates deletions from proposed rule language.

Department of Education

Adopted Permanent Rules Relating to Individualized Education Program Plans

The rules proposed and published at State Register, Volume 45, Number 21, pages 483-486, November 23, 2020 (45 SR 483), are adopted as proposed.

Executive Orders

The governor has the authority to issue written statements or orders, called Executive Orders. as well as Emergency Executive Orders. The governor's authority is specified in the Constitution of the State of Minnesota, Article V, and in *Minnesota Statutes* § 4.035. Emergency Executive Orders, for protection from an imminent threat to health and safety, become effective immediately, are filed with the secretary of state, and published in the *State Register* as soon as possible after they are issued. Other Executive Orders become effective 15 days after publication in the *State Register* and filing with the secretary of state. Unless otherwise specified, an executive order expires 90 days after the date the governor who issued the order vacates office.

Office of the Governor

Emergency Executive Order 21-10: Providing for Relief from Regulations to Certain Motor Carriers and Drivers Operating in Minnesota

I, Tim Walz, Governor of the State of Minnesota, by the authority vested in me by the Constitution and applicable statutes, issue the following Executive Order:

To help slow the community spread of COVID-19, Minnesotans have been spending more time at home, including teleworking and engaging in distance learning. Many residential septic systems are failing to keep up with the increased usage. During the COVID-19 pandemic, septic companies have been servicing residential properties at a rate 50 percent higher than other years.

Extreme winter conditions, specifically sub-zero temperatures beginning in early February and lasting several weeks, have caused freezing of septic systems over much of Minnesota. Septic service companies have been receiving a high volume of calls from homeowners in need of emergency pumping services.

We must take action to protect the health and safety of Minnesotans who rely on septic systems to process wastewater from daily and essential household activities and to avoid further damage to frozen septic systems.

The seasonal load restrictions, as described in Minnesota Statutes 2020, section 169.87, subdivisions 1 and 2, will go into effect on March 4, 2021 in the south, southeast, and metro zones, and on March 5, 2021 in the central zone.

Restrictions will go into effect soon in the other portions of the state. These seasonal weight restrictions on Minnesota roads will hinder the efficient removal of sewage from septic systems and increase the risk of harm caused by failing or overused septic systems.

For these reasons, I order as follows:

1. A state of emergency exists in Minnesota, and vehicles used to pump or transport sewage from septic systems are exempted from the seasonal load restrictions on local and state roads imposed by Minnesota Statutes 2020, section 169.87, subdivisions 1 and 2, while providing emergency septic system pumping services.

This Executive Order is effective immediately under Minnesota Statutes 2020, section 4.035, subdivision 2. It will remain in effect until June 1, 2021.

A determination that any provision of this Executive Order is invalid will not affect the enforceability of any other provision of this Executive Order. Rather, the invalid provision will be modified to the extent necessary so that it is enforceable.

Signed on March 4, 2021.

Tim Walz
Governor

Filed According to Law:

Steve Simon
Secretary of State

Official Notices

Non-State Public Bids, Contracts & Grants

The State Register also serves as a central marketplace for contracts let out on bid by the public sector. The *State Register* meets state and federal guidelines for statewide circulation of public notices. Any tax-supported institution or government jurisdiction may advertise contracts and requests for proposals from the private sector. It is recommended that contracts and RFPs include the following: 1) name of contact person; 2) institution name, address, and telephone number; 3) brief description of commodity, project or tasks; 4) cost estimate; and 5) final submission date of completed contract proposal. Allow at least three weeks from publication date (four weeks from the date article is submitted for publication). Surveys show that subscribers are interested in hearing about contracts for estimates as low as $1,000. Contact editor for further details.
