NOTICE: How to Follow State Agency Rulermaking in the State Register

The State Register is the official source, and only complete listing, for all state agency rulemaking in its various stages. State agencies are required to publish notice of their rulemaking action in the State Register. Published every Monday, the State Register makes it easy to follow and participate in the important rulemaking process. Approximately 80 state agencies have the authority to issue rules. Each agency is assigned specific Minnesota Rule chapter numbers. Every odd-numbered year the Minnesota Rules are published. Supplements are published to update this set of rules. Generally speaking, proposed and adopted exempt rules do not appear in this set because of their short-term nature, but are published in the State Register.

An agency must first solicit Comments on Planned Rules or Comments on Planned Rule Amendments from the public on the subject matter of a possible rulemaking proposal under active consideration within the agency (Minnesota Statutes §§ 14.101). It does this by publishing a notice in the State Register at least 60 days before publication of a notice to adopt or a notice of hearing, or within 60 days of the effective date of any new statutory grant of required rulemaking.

When rules are first drafted, state agencies publish them as Proposed Rules, along with a notice of hearing, or a notice of intent to adopt rules without a hearing in the case of noncontroversial rules. This notice asks for comment on the rules as proposed. Proposed emergency rules, and withdrawn proposed rules, are also published in the State Register. After proposed rules have gone through the comment period, and have been rewritten into their final form, they again appear in the State Register as Adopted Rules. These final adopted rules are not printed in their entirety, but only the changes made since their publication as Proposed Rules. To see the full rule, as adopted and in effect, a person simply needs two issues of the State Register, the issue the rule appeared in as proposed, and later as adopted.

The State Register features partial and cumulative listings of rules in this section on the following schedule: issues #1-26 inclusive (issue #26 cumulative for issues #1-26); issues #27-52 inclusive (issue #52, cumulative for issues #27-52 or #53 in some years). A subject matter index is updated weekly and is available upon request from the editor. For copies or subscriptions to the State Register, contact the editor at 651-201-3204 or email at sean.plemmons@state.mn.us.

Professional Educator Licensing and Standards Board

REQUEST FOR COMMENTS for Possible Permanent Rules Relating to Licensure Standards for Teachers of Special Education: Early Childhood, Minnesota Rules, 8710.5500; Revisor’s ID Number RD4745

Subject of Rules. The Professional Educator Licensing and Standards Board requests comments on its possible amendments to the rule governing the licensure standards for teachers of early childhood special education (ECSE) in Minnesota. The Board is proposing rule amendments to replace the existing standards with the practice-based standards for ECSE teachers released by the Council for Exceptional Children (CEC), in partnership with the CEC’s Division for Early Childhood in 2020. Additionally, the Board is proposing to expand the scope of the ECSE license from “birth through age 6” to “birth through grade 3.”

Persons Affected. The amendment to and repeal of existing rules would likely affect all ECSE teacher licensure programs in Minnesota and the candidates completing those programs, as well as the students and schools those candidates will eventually serve.

**Executive Orders**

The governor has the authority to issue written statements or orders, called Executive Orders, as well as Emergency Executive Orders. The governor's authority is specified in the Constitution of the State of Minnesota, Article V, and in *Minnesota Statutes* § 4.035. Emergency Executive Orders, for protection from an imminent threat to health and safety, become effective immediately, are filed with the secretary of state, and published in the *State Register* as soon as possible after they are issued. Other Executive Orders become effective 15 days after publication in the *State Register* and filing with the secretary of state. Unless otherwise specified, an executive order expires 90 days after the date the governor who issued the order vacates office.

**Office of the Governor**

**Emergency Executive Order 22-04: Providing for Relief from Regulations to Certain Motor Carriers and Drivers Operating in Minnesota**

I, Tim Walz, Governor of the State of Minnesota, by the authority vested in me by the Constitution and applicable statutes, issue the following Executive Order:
More than 600,000 homes and businesses in Minnesota rely on septic systems, which treat an estimated 42.3 billion gallons of wastewater per year. Properly functioning septic systems are critical to protecting our water quality, environment, and public health.

Extreme winter conditions, including the sub-zero temperatures experienced in January and February, pose potential problems for septic systems. According to data collected by the Minnesota State Climatology Office, January 2022 was the coldest January on record since 2014, with below-normal temperatures continuing through February and into March. The combination of cold weather, along with the lack of snow cover that typically serves as insulation for septic tanks, has caused septic systems to freeze throughout Minnesota. The Minnesota Onsite Wastewater Association has reported that septic service companies have been receiving a high volume of calls from homeowners in need of emergency pumping services and some companies are operating with waiting lists several weeks long.

We must take action to protect the health and safety of Minnesotans who rely on septic systems to process wastewater from daily and essential household activities and to avoid further damage to frozen septic systems.

The seasonal load restrictions, as described in Minnesota Statutes 2021, section 169.87, subdivisions 1 and 2, will go into effect on March 14, 2022 in the south and southeast zones, and on March 16, 2022 in the metro zone. Restrictions will go into effect soon in the other parts of the state. These seasonal weight restrictions on Minnesota roads will hinder the efficient removal of sewage from septic systems and increase the risk of harm caused by failing or overused septic systems.

For these reasons, I order as follows:

1. A state of emergency exists in Minnesota, and vehicles used to pump or transport sewage from septic systems are exempted from the seasonal load restrictions on local and state roads imposed by Minnesota Statutes 2021, section 169.87, subdivisions 1 and 2, while providing emergency septic system pumping services.

This Executive Order is effective immediately under Minnesota Statutes 2021, section 4.035, subdivision 2. It will remain in effect until June 1, 2022.

A determination that any provision of this Executive Order is invalid will not affect the enforceability of any other provision of this Executive Order. Rather, the invalid provision will be modified to the extent necessary so that it is enforceable.

Signed on March 11, 2022.

Tim Walz
Governor
