NOTICE: How to Follow State Agency Rulemaking in the State Register

The State Register is the official source, and only complete listing, for all state agency rulemaking in its various stages. State agencies are required to publish notice of their rulemaking action in the State Register. Published every Monday, the State Register makes it easy to follow and participate in the important rulemaking process. Approximately 80 state agencies have the authority to issue rules. Each agency is assigned specific Minnesota Rule chapter numbers. Every odd-numbered year the Minnesota Rules are published. Supplements are published to update this set of rules. Generally speaking, proposed and adopted exempt rules do not appear in this set because of their short-term nature, but are published in the State Register.

An agency must first solicit Comments on Planned Rules or Comments on Planned Rule Amendments from the public on the subject matter of a possible rulemaking proposal under active consideration within the agency (Minnesota Statutes §§ 14.101). It does this by publishing a notice in the State Register at least 60 days before publication of a notice to adopt or a notice of hearing, or within 60 days of the effective date of any new statutory grant of required rulemaking.

When rules are first drafted, state agencies publish them as Proposed Rules, along with a notice of hearing, or a notice of intent to adopt rules without a hearing in the case of noncontroversial rules. This notice asks for comment on the rules as proposed. Proposed emergency rules, and withdrawn proposed rules, are also published in the State Register. After proposed rules have gone through the comment period, and have been rewritten into their final form, they again appear in the State Register as Adopted Rules. These final adopted rules are not printed in their entirety, but only the changes made since their publication as Proposed Rules. To see the full rule, as adopted and in effect, a person simply needs two issues of the State Register, the issue the rule appeared in as proposed, and later as adopted.

The State Register features partial and cumulative listings of rules in this section on the following schedule: issues #1-26 inclusive (issue #26 cumulative for issues #1-26); issues #27-52 inclusive (issue #52, cumulative for issues #27-52 or #53 in some years). A subject matter index is updated weekly and is available upon request from the editor. For copies or subscriptions to the State Register, contact the editor at 651-201-3204 or email at sean.plemmons@state.mn.us

State Grants & Loans

In addition to requests by state agencies for technical/professional services (published in the State Contracts Section), the *State Register* also publishes notices about grants and loans available through any agency or branch of state government. Although some grant and loan programs specifically require printing in a statewide publication such as the *State Register*, there is no requirement for publication in the *State Register* itself. Agencies are encouraged to publish grant and loan notices, and to provide financial estimates as well as sufficient time for interested parties to respond.

Minnesota Department of Health Request for Proposals for Exceptions to the Nursing Home Moratorium

Purpose

The commissioner of health is accepting written proposals from nursing homes and certified boarding care homes requesting funding through the moratorium exception process, according to Minn. Stat. § 144A.073. The commissioner of health, in coordination with the commissioner of human services, may approve such requests under conditions listed in the Minnesota Statutes. These conditions refer to categories of exceptions which are defined as:

- (a) “Conversion” means the relocation of a nursing home bed from a nursing home to an attached hospital.
- (b) “Relocation” means the movement of licensed nursing home beds or certified boarding care beds as permitted by state statute to promote equitable access across the state or to move the beds to another site.
- (c) “Renovation” means extensive remodeling of an existing facility with a total cost exceeding ten percent of the appraised value of the facility or \$200,000, whichever is less. A renovation may include the replacement or upgrade of existing mechanical or electrical systems.
- (d) “Replacement” means the construction of a completely new facility.
- (e) “Addition” means the construction of new space to an existing facility.
- (f) “Upgrading” means a change in the level of licensure of a bed from a boarding care bed to a nursing home bed in a certified boarding care facility.
- (g) “Phased project” means a proposal that identifies construction occurring with more than one distinct completion date. To be considered a distinct completion, each phase must have construction that is ready for resident use, as determined by the commissioner, which is not dependent on similar commissioner approval for future phases of construction. The commissioner of human services shall only allow rate adjustments for construction projects in phases if the proposal from a facility identifies construction in phases and each phase can be approved for use independent of the other phases.
- (h) “Consolidation” means a project that meets the criteria for “consolidation of nursing facilities” as outlined in 144A.071, Subd. 4d.

Appropriation Available

The amount of the legislative appropriation available for the total additional biennial costs to the Medical Assistance program for this Request for Proposals (RFP) is approximately **\$1,962,177**

Note: As of October 1, 2021, Minn. stat. § 256B.434, Subd. 4f, allows projects with costs less than \$1,832,410 to proceed without applying for a moratorium exception under this process.

Eligibility to Submit a Proposal

A proposal for an exception to the nursing home moratorium may be submitted by an organization or individual authorized by a facility’s governing board or management to prepare and submit a proposal to the commissioner of health.

Method for Estimating Proposal Cost

The method that the commissioner will use in evaluating proposals for approval or disapproval for estimating the cost of a proposal is detailed in the application materials.

Criteria for Review

Minn. Stat. § 144A.073, Subd. 4a, states the criteria the commissioner of health is to consider in reviewing moratorium exception proposals:

Subd. 4a. **Criteria for review.** In reviewing the application materials and submitted costs by an applicant to the moratorium process, the review panel shall consider the following criteria in recommending proposals:

- (1) the extent to which the proposed nursing home project is integrated with other health and long-term care services for older adults;
- (2) the extent to which the project provides for the complete replacement of an outdated physical plant;
- (3) the extent to which the project results in a reduction of nursing facility beds in an area that has a relatively high number of beds per thousand occupied by persons age 85 and over;
- (4) the extent to which the project produces improvements in health; safety, including life safety code corrections; quality of life; and privacy of residents;
- (5) the extent to which, under the current facility ownership and management, the provider has shown the ability to provide good quality of care based on health-related findings on certification surveys, quality indicator scores, and quality-of-life scores, including those from the Minnesota nursing home report card;
- (6) the extent to which the project integrates the latest technology and design features in a way that improves the resident experience and improves the working environment for employees;

State Grants & Loans

- (7) the extent to which the sustainability of the nursing facility can be demonstrated based on the need for services in the area and the proposed financing of the project; and
- (8) the extent to which the project provides or maintains access to nursing facility services needed in the community.

Details on this *virtual meeting*, including date, time will be made available to the contact person listed in each moratorium exception proposal. The commissioner of health will approve or disapprove project proposals based on criteria established in law and rule. The commissioner will make the final decision no later than **April 6, 2023**.
