NOTICE: How to Follow State Agency Rulemaking in the State Register

The State Register is the official source, and only complete listing, for all state agency rulemaking in its various stages. State agencies are required to publish notice of their rulemaking action in the State Register. Published every Monday, the State Register makes it easy to follow and participate in the important rulemaking process. Approximately 80 state agencies have the authority to issue rules. Each agency is assigned specific Minnesota Rule chapter numbers. Every odd-numbered year the Minnesota Rules are published. Supplements are published to update this set of rules. Generally speaking, proposed and adopted exempt rules do not appear in this set because of their short-term nature, but are published in the State Register.

An agency must first solicit Comments on Planned Rules or Comments on Planned Rule Amendments from the public on the subject matter of a possible rulemaking proposal under active consideration within the agency (Minnesota Statutes §§ 14.101). It does this by publishing a notice in the State Register at least 60 days before publication of a notice to adopt or a notice of hearing, or within 60 days of the effective date of any new statutory grant of required rulemaking.

When rules are first drafted, state agencies publish them as Proposed Rules, along with a notice of hearing, or a notice of intent to adopt rules without a hearing in the case of noncontroversial rules. This notice asks for comment on the rules as proposed. Proposed emergency rules, and withdrawn proposed rules, are also published in the State Register. After proposed rules have gone through the comment period, and have been rewritten into their final form, they again appear in the State Register as Adopted Rules. These final adopted rules are not printed in their entirety, but only the changes made since their publication as Proposed Rules. To see the full rule, as adopted and in effect, a person simply needs two issues of the State Register, the issue the rule appeared in as proposed, and later as adopted.

The State Register features partial and cumulative listings of rules in this section on the following schedule: issues #1-26 inclusive (issue #26 cumulative for issues #1-26); issues #27-52 inclusive (issue #52, cumulative for issues #27-52 or #53 in some years). A subject matter index is updated weekly and is available upon request from the editor. For copies or subscriptions to the State Register, contact the editor at 651-201-3204 or email at sean.plemmons@state.mn.us
Proposed Rules

Comments on Planned Rules or Rule Amendments. An agency must first solicit Comments on Planned Rules or Comments on Planned Rule Amendments from the public on the subject matter of a possible rulemaking proposal under active consideration within the agency (Minnesota Statutes §§ 14.101). It does this by publishing a notice in the State Register at least 60 days before publication of a notice to adopt or a notice of hearing, and within 60 days of the effective date of any new statutory grant of required rulemaking.

Rules to be Adopted After a Hearing. After receiving comments and deciding to hold a public hearing on the rule, an agency drafts its rule. It then publishes its rules with a notice of hearing. All persons wishing to make a statement must register at the hearing. Anyone who wishes to submit written comments may do so at the hearing, or within five working days of the close of the hearing. Administrative law judges may, during the hearing, extend the period for receiving comments up to 20 calendar days. For five business days after the submission period the agency and interested persons may respond to any new information submitted during the written submission period and the record then is closed. The administrative law judge prepares a report within 30 days, stating findings of fact, conclusions and recommendations. After receiving the report, the agency decides whether to adopt, withdraw or modify the proposed rule based on consideration of the comments made during the rule hearing procedure and the report of the administrative law judge. The agency must wait five days after receiving the report before taking any action.

Rules to be Adopted Without a Hearing. Pursuant to Minnesota Statutes § 14.22, an agency may propose to adopt, amend, suspend or repeal rules without first holding a public hearing. An agency must first solicit Comments on Planned Rules or Comments on Planned Rule Amendments from the public. The agency then publishes a notice of intent to adopt rules without a public hearing, together with the proposed rules, in the State Register. If, during the 30-day comment period, 25 or more persons submit to the agency a written request for a hearing of the proposed rules, the agency must proceed under the provisions of §§ 14.1414.20, which state that if an agency decides to hold a public hearing, it must publish a notice of intent in the State Register.

KEY: Proposed Rules - Underlining indicates additions to existing rule language. Strikeouts indicate deletions from existing rule language. If a proposed rule is totally new, it is designated “all new material.” Adopted Rules - Underlining indicates additions to proposed rule language. Executive Orders

The governor has the authority to issue written statements or orders, called Executive Orders, as well as Emergency Executive Orders. The governor's authority is specified in the Constitution of the State of Minnesota, Article V, and in Minnesota Statutes § 4.035. Emergency Executive Orders, for protection from an imminent threat to health and safety, become effective immediately, are filed with the secretary of state, and published in the State Register as soon as possible after they are issued. Other Executive Orders become effective 15 days after publication in the State Register and filing with the secretary of state. Unless otherwise specified, an executive order expires 90 days after the date the governor who issued the order vacates office.

Office of the Governor

Executive Order 22-21: Providing Relief from Regulations to Certain Motor Carriers and Drivers Responding to Avian Influenza Mitigation Efforts in Minnesota

I, Tim Walz, Governor of the State of Minnesota, by the authority vested in me by the Constitution and applicable statutes, issue the following Executive Order:

This past spring, poultry growers in Minnesota and across the country faced considerable challenges and suffered significant losses due to an outbreak of highly pathogenic H5N1 avian influenza (“HPAI”). On March 31, 2022 and April 29, 2022, I issued Executive Orders 22-05 and 22-09, respectively, which provided relief from certain regulations for drivers and carriers transporting HPAI emergency equipment and supplies to help mitigate the impacts and limit the spread of HPAI in Minnesota. The 2022 outbreak has resulted in the loss of more than 3.5 million birds in Minnesota, and 40 million nationwide.

While experts from the United States Department of Agriculture and the Minnesota Board of Animal Health were working with poultry growers to keep HPAI at bay, the month of May brought additional challenges to farmers across the state. A prolonged cold and wet spring with significant flooding delayed many farming operations. Powerful storms destroyed farm structures and damaged roads and bridges used by farmers to move commodities and supplies.

On August 30, 2022, only three months since the last known outbreak, state animal health officials confirmed a new outbreak of HPAI at a commercial turkey farm in Meeker County. Following that diagnosis, outbreaks have been confirmed at almost 20 additional sites, impacting over 500,000 birds. While HPAI typically diminishes during the hotter, drier months of summer and the outbreak ends, the virus has continued to circulate in wild populations and is once again threatening domestic flocks as wild birds migrate south. The current resurgence of cases is considered part of the same outbreak that started in late March in Minnesota.

The HPAI outbreak in Minnesota poses a high risk to poultry but a low risk to the public, and there is no food safety concern for consumers.

HPAI is a very contagious disease for poultry and can spread from flock to flock within a matter of days. Depopulating infected animals is a key part of the response, along with transporting live uninfected animals to processing facilities and ensuring that unaffected farms have adequate supplies to support healthy flocks. It is also critical to limit the number of people moving between farms and to reduce the number of trips that trucks make to or from farm sites.

Minnesota Statutes 2021, section 221.0314, subdivision 9, adopts federal safety regulations, including hours of service requirements for drivers. Minnesota Statutes 2021, section 221.0269, provides: “The governor may declare an emergency and grant relief from any of the regulations incorporated in section 221.0314 to carriers and drivers operating motor vehicles in Minnesota to provide emergency relief during the emergency.”

Poultry growers, industry associations, and animal health experts have requested immediate help to support the safe and efficient movement of commodities used in emergency response efforts. Temporary relief is needed to help mitigate the impacts and limit the spread of HPAI in Minnesota. Strict enforcement of certain hours of service requirements would prevent or hinder the efficient transportation of these important commodities.
For these reasons, I order as follows:

1. For the purposes of this Executive Order, “HPAI emergency equipment and supplies” includes poultry feed trucks, poultry load-out trailers, poultry feed, materials used exclusively for the composting process of animals that have been depopulated due to HPAI, live poultry, and animal carcasses.

2. For the purposes of this Executive Order, “emergency relief effort” means the transportation of HPAI emergency equipment and supplies.

3. For purposes of this Executive Order, and as defined in Minnesota Statutes 2021, section 221.0269, subdivision 3, paragraph (c), direct assistance to an emergency relief effort terminates when a driver or commercial motor vehicle is used to transport cargo not destined for the emergency relief effort, or when the carrier dispatches that driver or vehicle to another location to begin operations in commerce.

4. Pursuant to Minnesota Statutes 2021, section 221.0269, subdivision 1, a state of emergency exists in Minnesota that requires relief from regulations incorporated in Minnesota Statutes 2021, section 221.0314, subdivision 9, pertaining to hours of service for motor carriers and drivers of commercial motor vehicles providing direct assistance to the emergency relief efforts described in this Executive Order.

5. Motor carriers and drivers providing direct assistance to the emergency relief efforts described in this Executive Order are exempted from paragraphs (b) and (c) under the Code of Federal Regulations, title 49, part 395.3, and incorporated in Minnesota Statutes 2021, section 221.0314, subdivision 9, pertaining to hours of service.

6. Nothing in this Executive Order may be construed to relieve motor carriers and drivers providing direct assistance to the emergency relief efforts described in this Executive Order from the requirements under paragraph (a) of the Code of Federal Regulations, title 49, part 395.3, and incorporated in Minnesota Statutes 2021, section 221.0314, subdivision 9, which states, in part, that a driver may drive only 11 hours during a period of 14 consecutive hours after coming on duty following 10 consecutive hours off duty.

7. This Executive Order does not relieve motor carriers and drivers providing direct assistance to emergency relief efforts from regulations pertaining to driver qualifications; driving of commercial motor vehicles; commercial driver’s licenses; drug and alcohol testing for drivers; or equipment, parts, and accessories necessary for the safe operation of vehicles.

8. A motor carrier operating under the terms of this Executive Order must not require or allow a fatigued or ill driver to operate a commercial motor vehicle. A driver who informs a carrier that he or she needs immediate rest must be given at least 10 consecutive hours off duty before the driver is required to return to service.

9. Upon the expiration of this Executive Order, or when a driver or motor carrier has been relieved of all duty and responsibility to provide direct assistance to the emergency relief efforts, a driver must take at least 34 consecutive hours off duty. This requirement does not apply if a driver has already had a 34-hour restart period during the 30 days covered by this Executive Order.

This Executive Order is effective immediately under Minnesota Statutes 2021, section 4.035, subdivision 2, and it will remain in effect until it is rescinded by proper authority or October 28, 2022, whichever occurs first.

A determination that any provision of this Executive Order is invalid will not affect the enforceability of any other provision of this Executive Order. Rather, the invalid provision will be modified to the extent necessary so that it is enforceable.

Signed on September 28, 2022.

State Grants & Loans

In addition to requests by state agencies for technical/professional services (published in the State Contracts Section), the State Register also publishes notices about grants and loans available through any agency or branch of state government. Although some grant and loan programs specifically require printing in a statewide publication such as the State Register, there is no requirement for publication in the State Register itself. Agencies are encouraged to publish grant and loan notices, and to provide financial estimates as well as sufficient time for interested parties to respond.

**Minnesota State Lottery**

**Request for Proposals for Sponsorship Agreements**

**Description of Opportunity**

The Minnesota State Lottery develops sponsorship agreements throughout the year with organizations, events, and sports teams to create excitement for lottery players, to interest new players and increase the visibility of lottery games. The Lottery encourages and continually seeks new sponsorship agreements to help achieve current Lottery marketing goals.

**Proposal Content**

A sponsorship proposal presented to the Lottery should meet the following three criteria:

1. **Maximize Lottery Visibility** – the event, sports or tie-in proposal should draw a large number of desired participants (typically 50,000 or more) whose demographics match the Lottery player profile. The Lottery is interested in effectively delivering its message of fun and entertainment to Minnesota adults whose demographics skew primarily towards those aged 25-64, with a household income of $35,000-$75,000, and having an educational background of some college or higher. The Lottery does not market to those under the age of 18, and family events with high levels of children present are generally not accepted. Attendance, on-site signage visibility and paid media exposure will be
critical components that will be evaluated.

2. **Enhance Lottery Image** – the event, sports or tie-in proposal should inherently project the attitude that the Lottery is a fun and socially acceptable part of the community. The Lottery’s presence should fit well within the lineup of other sponsors. The Lottery is interested in creating opportunities whereby the sponsorship can translate into sales revenue, either via on-site sales from a Lottery booth, from sales-generating promotions with Lottery retailers or from joint programs with the sponsor’s media partners.

3. **Provide Promotional Extensions** – the event, sports or tie-in proposal should offer exciting, value-added ways to interact with our players and have opportunities to motivate attendees, listeners and viewers to participate in and purchase Lottery games. The proposal must include proper staffing availability or other considerations to help the Lottery implement any appropriate promotional extension ideas.

Proposals should address all pertinent elements of the sponsorship and how the Lottery criteria as stated above and on the Evaluation Form are to be met. To view or print copies of the Request for Proposal go to [http://www.mnlottery.com/vendorops.html](http://www.mnlottery.com/vendorops.html)

Twin Cities Regional Fair Housing Implementation Council
Request For Proposals for Fair Housing Activities

The Twin Cities Regional Fair Housing Implementation Council (FHIC) of Minnesota, which covers the seven-county metro area that includes Anoka, Carver, Dakota, Hennepin, Ramsey, Scott, and Washington counties, has completed its 2020 Analysis of Impediments to Fair Housing Choice (AI). The AI is a thorough examination of structural barriers to fair housing choice and access to opportunity for members of historically marginalized groups protected from discrimination by the federal Fair Housing Act (FHA). Further, the AI is a blueprint for the FHIC to affirmatively further fair housing and increase housing choice for protected classes of Minnesotans.

On September 21, 2022, the FHIC issued a Request for Proposals (RFP) asking for proposals from any qualified agency, nonprofit or community organization. The proposed fair housing activities should work to address at least one or both of the following fair housing goals listed in the 2020 Analysis of Impediments to Fair Housing Choice:

- Goal 3: Support homeownership for households of color.
- Goal 6: Ensure equal access to housing for persons with protected characteristics, lower-income, and homeless.

An Informational Session was recorded to provide more information about this RFP and is posted along with a FAQ and the online application on the Ramsey County FHIC website: www.ramseycounty.us/FHIC.

Applicants must submit all requested materials by Wednesday, October 19, 2022.
