Minnesota Rules: Amendments and Additions

NOTICE: How to Follow State Agency Rulemaking in the State Register

The State Register is the official source, and only complete listing, for all state agency rulemaking in its various stages. State agencies are required to publish notice of their rulemaking action in the State Register. Published every Monday, the State Register makes it easy to follow and participate in the important rulemaking process. Approximately 80 state agencies have the authority to issue rules. Each agency is assigned specific Minnesota Rule chapter numbers. Every odd-numbered year the Minnesota Rules are published. Supplements are published to update this set of rules. Generally speaking, proposed and adopted exempt rules do not appear in this set because of their short-term nature, but are published in the State Register.

An agency must first solicit Comments on Planned Rules or Comments on Planned Rule Amendments from the public on the subject matter of a possible rulemaking proposal under active consideration within the agency (Minnesota Statutes §§ 14.101). It does this by publishing a notice in the State Register at least 60 days before publication of a notice to adopt or a notice of hearing, or within 60 days of the effective date of any new statutory grant of required rulemaking.

When rules are first drafted, state agencies publish them as Proposed Rules, along with a notice of hearing, or a notice of intent to adopt rules without a hearing in the case of noncontroversial rules. This notice asks for comment on the rules as proposed. Proposed emergency rules, and withdrawn proposed rules, are also published in the State Register. After proposed rules have gone through the comment period, and have been rewritten into their final form, they again appear in the State Register as Adopted Rules. These final adopted rules are not printed in their entirety, but only the changes made since their publication as Proposed Rules. To see the full rule, as adopted and in effect, a person simply needs two issues of the State Register, the issue the rule appeared in as proposed, and later as adopted.

The State Register features partial and cumulative listings of rules in this section on the following schedule: issues #1-26 inclusive (issue #26 cumulative for issues #1-26); issues #27-52 inclusive (issue #52, cumulative for issues #27-52 or #53 in some years). A subject matter index is updated weekly and is available upon request from the editor. For copies or subscriptions to the State Register, contact the editor at 651-201-3204 or email at sean.plemmons@state.mn.us

Commissioner's Orders

Various agency commissioners are authorized to issue "commissioner's orders" on specified activities governed by their agency's enabling laws. See the *Minnesota Statutes* governing each agency to determine the specific applicable statutes. Commissioners' orders are approved by assistant attorneys general as to form and execution and published in the *State Register*. These commissioners orders are compiled in the year-end subject matter index for each volume of the *State Register*.

FACTUAL BACKGROUND AND LEGAL AUTHORITY

WHEREAS Minn. Stat. § 84.033, subd. 1 authorizes the commissioner of natural resources ("commissioner") to "acquire by gift, lease, easement, exchange, or purchase, . . . in the name of the state, lands or any interest in lands suitable and desirable for establishing and maintaining scientific and natural areas" (herein after "SNA").

WHEREAS Minn. Stat. § 84.033, subdivision 3 provides that when acquiring land for designation as an SNA "the commissioner must follow the procedures under section 97A.145, subd. 2".

WHEREAS Minn. Stat. § 97A.145, subd. 2 provides that prior to acquiring or leasing land the "commissioner must notify the county board and the town officers where the land is located and furnish them with a description of the land to be acquired."

WHEREAS in accordance with Minn. Stat. § 97A.145, subd. 2 and subject to an extension of time granted by the commissioner, "the county board must approve or disapprove the proposed acquisition within 90 days after being notified" of the proposed acquisition. If the county board approves the acquisition the commissioner may acquire the land.

WHEREAS if the county board disapproves the acquisition, the county board must state a valid reason for disapproving and the commissioner may not purchase or lease the land. The commissioner may, however, appeal the disapproval to the district court with jurisdiction where the land is located. Alternatively, the commissioner may submit the matter to the Land Exchange Board for hearing and decision. *Id.*

WHEREAS SNAs are part of the State's outdoor recreation system and are "established to protect and perpetuate in an undisturbed natural state those natural features which possess exceptional scientific or education value." Minn. Stat. § 86A.05, subd. 5(a).

WHEREAS to qualify as an SNA the land area must have "natural features or exceptional scientific and education value"¹ and must be "large enough to permit effective research or educational functions and to preserve the inherent natural values of the area." Minn. Stat. § 86A.05, subd. 5(b)(1) and (b)(2).

WHEREAS each SNA must be designated as either a research unit, an educational unit, or a public use unit. Minn. Stat. § 86A.05, subd. 5 (e).

¹ Minnesota Statute § 86A.05, subd. 5(b)(1) lists 7 examples of natural features that evidence "exceptional scientific and educational value" although the list is not intended to be inclusive.

LABORATORY AND X-RAY FEES

The subheadings are self-explanatory. The CURRENT PROCEDURAL TERMINOLOGY CODE corresponds to the American Medical Association's Current Procedural Terminology (CPT) codes, which are used by most sources providing medical services. These may also be used for easy in-agency identification of a particular procedure. When ordering and authorizing a particular laboratory or x-ray study, however, describe the test or x-ray to be done. Do not authorize only by the CPT code.

X-ray charges may be presented in two possible formats: one combines the technical (the x-ray itself) and professional (the physician's interpretation) components when these are provided by the same facility; the other format separates the technical and professional components when these services are provided by separate facilities.

For example: For a PA Chest X-ray, single view, one would find:

71010	Chest single view, PA	\$ 55.00
-------	-----------------------	----------

This would be the acceptable maximum for an x-ray and interpretation at a single facility; however, when the **professional component** is billed separately, the procedure may be identified by adding the modifier **-26** to the usual CPT code. When the **technical component** is billed separately, the procedure may be identified by adding the modifier **-TC** to the usual CPT code.

For example:

71010-26	Chest single view, PA --PROF COMP ONLY	\$ 20.00
71010-TC	Chest single view, PA --TECH COMP ONLY	\$ 35.00

Although some grant and loan programs specifically require printing in a statewide publication such as the *State Register*, there is no requirement for publication in the *State Register* itself. Agencies are encouraged to publish grant and loan notices, and to provide financial estimates as well as sufficient time for interested parties to respond.
