Minnesota Rules: Amendments and Additions

NOTICE: How to Follow State Agency Rulemaking in the State Register

The State Register is the official source, and only complete listing, for all state agency rulemaking in its various stages. State agencies are required to publish notice of their rulemaking action in the State Register. Published every Monday, the State Register makes it easy to follow and participate in the important rulemaking process. Approximately 80 state agencies have the authority to issue rules. Each agency is assigned specific Minnesota Rule chapter numbers. Every odd-numbered year the Minnesota Rules are published. Supplements are published to update this set of rules. Generally speaking, proposed and adopted exempt rules do not appear in this set because of their short-term nature, but are published in the State Register.

An agency must first solicit Comments on Planned Rules or Comments on Planned Rule Amendments from the public on the subject matter of a possible rulemaking proposal under active consideration within the agency (Minnesota Statutes §§ 14.101). It does this by publishing a notice in the State Register at least 60 days before publication of a notice to adopt or a notice of hearing, or within 60 days of the effective date of any new statutory grant of required rulemaking.

When rules are first drafted, state agencies publish them as Proposed Rules, along with a notice of hearing, or a notice of intent to adopt rules without a hearing in the case of noncontroversial rules. This notice asks for comment on the rules as proposed. Proposed emergency rules, and withdrawn proposed rules, are also published in the State Register. After proposed rules have gone through the comment period, and have been rewritten into their final form, they again appear in the State Register as Adopted Rules. These final adopted rules are not printed in their entirety, but only the changes made since their publication as Proposed Rules. To see the full rule, as adopted and in effect, a person simply needs two issues of the State Register, the issue the rule appeared in as proposed, and later as adopted.

The State Register features partial and cumulative listings of rules in this section on the following schedule: issues #1-26 inclusive (issue #26 cumulative for issues #1-26); issues #27-52 inclusive (issue #52, cumulative for issues #27-52 or #53 in some years). A subject matter index is updated weekly and is available upon request from the editor. For copies or subscriptions to the State Register, contact the editor at 651-201-3204 or email at sean.plemmons@state.mn.us

Expedited Rules

Provisions exist for the Commissioners of some state agencies to adopt expedited rules when conditions exist that do not allow the Commissioner to comply with the requirements for normal rules. The Commissioner must submit the rule to the attorney general for review and must publish a notice of adoption that includes a copy of the rule and the conditions. Expedited rules are effective upon publication in the State Register, and may be effective up to seven days before
publication under certain conditions.

Expedited rules are effective for the period stated or up to 18 months. Specific *Minnesota Statute* citations accompanying these expedited rules detail the agency's rulemaking authority.

KEY: Proposed Rules - Underlining indicates additions to existing rule language. ~~Strikeouts~~ indicate deletions from existing rule language. If a proposed rule is totally new, it is designated "all new material." **Adopted Rules** - Underlining indicates additions to proposed rule language. ~~Strikeout~~ indicates deletions from proposed rule language.

Proposed Expedited Permanent Rules Modifying Certification Criteria, Notice Posting Requirements, And Holiday Pay Rules For Nursing Home Workers; Notice Of Intent To Adopt Expedited Permanent Rules Without A Public Hearing

Proposed Rules Governing Holiday Pay, Certification of Worker Organizations, and Notice Posting Requirements; *Minnesota Rules*, Part 5200.2000 – 5200.2050, Revisor's ID Number R-04870.

Introduction. The Minnesota Nursing Home Workforce Standards Board ("Board") intends to adopt rules under the expedited rulemaking process following the rules of the Office of Administrative Hearings, *Minnesota Rules*, part 1400.2410, and the Administrative Procedure Act, *Minnesota Statutes*, section 14.389. You may submit written comments on the proposed expedited rules until September 25, 2024.

Contact Person. Submit comments or questions on the rules to: Leah Solo at the Department of Labor and Industry, 443 Lafayette Rd. N., St. Paul, MN 55155, phone (651) 284-5076, and email to ***dli.rules@state.mn.us***. Comments must be in writing. **You may also review the proposed rule and submit written comments via the Office of Administrative Hearings Rulemaking eComments website at *https://minnesotaoah.granicusideas.com/discussions***.

Subject of the Expedited Rules and Statutory Authority. The proposed expedited rules establish holiday pay provisions for nursing home workers; certification criteria for worker organizations; and minimum notice posting requirements for nursing home employers.

As to holiday pay, the proposed rules establish minimum nursing home worker pay of time-and-one-half for all hours worked on certain holidays. The proposed rules also allow for some modification to the dates and times of prescribed holidays.

As to certification criteria, the proposed rules establish the criteria worker organizations must meet to become certified to conduct nursing home worker trainings under Minnesota Statutes, section 181.214. The proposed rules also establish the application and renewal process for certification, and prescribe processes for the revocation of certification and cessation of certification.

As to minimum notice posting requirements, Minnesota Statutes, section 181.215, subdivision 1, requires nursing home employers to post notices informing nursing home workers of the minimum nursing home employment standards and local minimum standards. The proposed rules outline the posting obligations for nursing home employers, including minimum content and posting requirements.

The statutory authority to adopt the proposed rules under the expedited rulemaking process is Minnesota Statutes,

section 181.213, subdivision 1 (granting authority to adopt rules on the compensation of nursing home workers); Minnesota Statutes, section 181.213, subdivision 3 (granting authority to adopt new rules for minimum nursing home employment standards); Minnesota Statutes, section 181.214, subdivision 1 (granting authority to adopt rules for certification of worker organizations); and Minnesota Statutes, section 181.215, subdivision 2 (granting authority to adopt notice posting requirements).

A copy of the proposed rules is published in the State Register and attached to this notice as mailed. The proposed expedited rules may be viewed at ***https://www.dli.mn.gov/about-department/rulemaking/nhwsb-rulemaking-expedited-rules-holiday-pay***

Comments. You have until 4:30 p.m. on September 25, 2024, to submit written comment in support of or in opposition to the proposed expedited rules and any part or subpart of the rules. Your comment must be in writing and received by the agency contact person or submitted on the Office of Administrative Hearings Rulemaking eComments website by the due date. The Board encourages comment. Your comment should identify the portion of the proposed expedited rules addressed and the reason for the comment. In addition, you are encouraged to propose any change proposed. You should also make any comments that you have on the legality of the proposed rules during this comment period. Important: Comments will be made available to the public. Please only submit information that you wish to make available publicly.

Modifications. The Board may modify the proposed expedited rules using either of two avenues: The agency may modify the rules directly so long as the modifications do not make them "substantially different" as defined in Minnesota Statutes, section 14.05, subdivision 2, paragraphs (b) and (c): or the agency may adopt substantially different rules if it follows the procedure under Minnesota Rules, part 1400.2110. If the final rules are identical to the rules originally published in the State Register, the agency will publish a notice of adoption in the State Register. If the final rules are different from the rules originally published in the State Register, the agency must publish a copy of the changes in the State Register. If the proposed expedited rules affect you in any way, the Board encourages you to participate in the rulemaking process.

Alternative Format. Upon request, this information can be made available in an alternative format, such as large print, braille, or audio. To make such a request, please contact the Board contact person at the address or telephone number listed above.

Lobbyist Registration. *Minnesota Statutes*, chapter 10A, requires each lobbyist to register with the State Campaign Finance and Public Disclosure Board. You may direct questions regarding this requirement to the Campaign Finance and Public Disclosure Board at: Suite #190, Centennial Building, 658 Cedar Street, St. Paul, Minnesota 55155, telephone (651) 539-1180 or 18006573889.

Adoption and Review of Expedited Rules. The Board may adopt the rules at the end of the comment period. The Board will then submit rules and supporting documents to the Office of Administrative Hearings for review for legality. You may ask to be notified of the date that the Board submits the rules. If you want to be so notified or want to receive a copy of the adopted rules, or want to register with the Board to receive notice of future rule proceedings, submit your request to the Board contact person listed above.

Expedited Emergency Rules

Provisions exist for the Commissioners of some state agencies to adopt expedited emergency rules when conditions exist that do not allow the Commissioner to comply with the requirements for emergency rules. The Commissioner must submit the rule to the attorney general for review and must publish a notice of adoption that includes a copy of the rule and the emergency conditions. Expedited emergency rules are effective upon publication in the *State Register*, and may be effective up to seven days before publication under certain emergency conditions.

Expedited emergency rules are effective for the period stated or up to 18 months. Specific *Minnesota Statute* citations accompanying these expedited emergency rules detail the agency's rulemaking authority.

Department of Natural Resources

Adopted Expedited Emergency Game and Fish Rules: 2024 Deer Seasons and Special Hunts

Notice is hereby given that the above entitled rules have been adopted through the process prescribed by *Minnesota Statutes*, section 84.027, subdivision 13(b). The statutory authority for the content of the rules is *Minnesota Statutes*, 84.027, subdivision 13; 97A.045, subdivision 11; 97A.091 subdivision 2; 97A.401 subdivision 4; 97A.535 subdivision 2; 97B. ll 1; 97B.301; 978.311.

The following conditions do not allow compliance with *Minnesota Statutes*, sections 97A.0451 to 97A.0459: Population data needed to set bag limits for specific deer permit areas are not available until spring of each year. Special hunts to reduce deer density in municipalities, state parks and other areas where hunting is not normally allowed are

based on annual changes in local deer populations. Other special hunts are authorized to provide opportunities to special groups, for mentoring, or for disease control. Changes to the Camp Ripley Game Refuge provide a more effective means of public access while maintaining an equitable distribution of harvest. Annual biological harvest data shows that there is a harvestable surplus of deer in the area.

The emergency rule is also necessitated by the continuing effort to manage Chronic Wasting Disease (CWD), which has been found in wild deer harvested in multiple areas of Minnesota and captive deer in farms in western, north central, and eastern Minnesota. CWD infectious agents are extremely persistent in the environment and transmission may be both direct and indirect. The concentration of deer in certain areas increases the risk of transmission between individual deer. Disease management measures are implemented to control disease spread based on discoveries of infections in both wild and farm-raised captive deer. Reducing the number of deer reduces the risk of transmission between individuals.

The DNR will also hold a special hunt in mid-December 2024 in deer permit areas where the disease has been classified as a persistent infection in accordance with the DNR's CWD Response Plan. All hunters must submit samples from deer taken during this late CWD hunt to the DNR for testing. By testing harvested deer, the DNR tracks the spread of the disease and determines whether the risk to the wild deer herd is increasing and whether further action may be necessary.

Minnesota Department of Health

Division of Health Regulation

REQUEST FOR COMMENTS for Possible Rules Governing Disposition of the Dead, Natural Organic Reduction, and Transfer Care Specialists; *Minnesota Rules*, Chapter 4610, Revisor's ID Number R-4882

Subject of Rules. The Minnesota Department of Health requests comments on its possible rules governing the disposition of the dead, transfer care specialists, and natural organic reduction. The Department is considering rules that give greater technical guidance for licensed morticians who are interested in creating a natural organic reduction facility to offer natural organic reduction as a service, and details for licensed morticians and family members about how reduced remains can be distributed after the natural organic reduction process. The Department is also considering rules around the registration requirements of transfer care specialists. Finally, the Department is considering minor rules around technical guidance for funeral homes and cremation facilities, as well as licensing.

Persons Affected. The rules would likely affect all licensed morticians, all current and prospective transfer care specialists, interested parties who are interested in offering natural organic reduction as a final disposition of the dead, and prospective consumers and family members, including those who are interested in natural organic reduction.

Statutory Authority. *Minnesota Statutes*, section 149A.03 authorizes the Department to adopt rules related to the disposition of dead bodies, transfer care specialists, and natural organic reduction.

Public Comment. Interested persons or groups may submit comments or information on these possible rules in writing until 4:30 p.m. on October 28, 2024. The Department will not publish a notice of intent to adopt the rules until more than 60 days have elapsed from the date of this request for comments. The Department does not plan to appoint an advisory committee to comment on the possible rules.

The Health Department is also interested in whether local governments might be required to adopt or amend an ordinance or other regulation to implement these rules and therefore requests that local governments provide us with relevant information about their ordinances.

Rules Drafts. The Department does not anticipate that a draft of the rules will be available before the publication of

the proposed rules.

Agency Contact Person. Written comments, questions, requests to receive a draft of the rules, and requests for more information on these possible rules should be directed to the comment portal at the Office of Administrative Hearings Rulemaking eComments website at ***https://minnesotaoah.granicusideas.com/discussions***.

For questions related to this rulemaking project, you may contact Celeste Marin at ***celeste.marin@state.mn.us*** or 651-201-4849.

Alternative Format. Upon request, this information can be made available in an alternative format, such as large print, braille, or audio. To make such a request, please contact the agency contact person at the address or telephone number listed above.

NOTE: Comments received in response to this notice will not necessarily be included in the formal rulemaking record submitted to the administrative law judge if and when a proceeding to adopt rules is started. The agency is required to submit to the judge only those written comments received in response to the rules after they are proposed. If you submitted comments during the development of the rules and you want to ensure that the Administrative Law Judge reviews the comments, you should resubmit the comments after the rules are formally proposed.

Although some grant and loan programs specifically require printing in a statewide publication such as the State Register, there is no requirement for publication in the *State Register* itself. Agencies are encouraged to publish grant and loan notices, and to provide financial estimates as well as sufficient time for interested parties to respond.
