Minnesota Rules: Amendments and Additions

NOTICE: How to Follow State Agency Rulemaking in the State Register

The State Register is the official source, and only complete listing, for all state agency rulemaking in its various stages. State agencies are required to publish notice of their rulemaking action in the State Register. Published every Monday, the State Register makes it easy to follow and participate in the important rulemaking process. Approximately 80 state agencies have the authority to issue rules. Each agency is assigned specific Minnesota Rule chapter numbers. Every odd-numbered year the Minnesota Rules are published. Supplements are published to update this set of rules. Generally speaking, proposed and adopted exempt rules do not appear in this set because of their short-term nature, but are published in the State Register.

An agency must first solicit Comments on Planned Rules or Comments on Planned Rule Amendments from the public on the subject matter of a possible rulemaking proposal under active consideration within the agency (Minnesota Statutes §§ 14.101). It does this by publishing a notice in the State Register at least 60 days before publication of a notice to adopt or a notice of hearing, or within 60 days of the effective date of any new statutory grant of required rulemaking.

When rules are first drafted, state agencies publish them as Proposed Rules, along with a notice of hearing, or a notice of intent to adopt rules without a hearing in the case of noncontroversial rules. This notice asks for comment on the rules as proposed. Proposed emergency rules, and withdrawn proposed rules, are also published in the State Register. After proposed rules have gone through the comment period, and have been rewritten into their final form, they again appear in the State Register as Adopted Rules. These final adopted rules are not printed in their entirety, but only the changes made since their publication as Proposed Rules. To see the full rule, as adopted and in effect, a person simply needs two issues of the State Register, the issue the rule appeared in as proposed, and later as adopted.

The State Register features partial and cumulative listings of rules in this section on the following schedule: issues #1-26 inclusive (issue #26 cumulative for issues #1-26); issues #27-52 inclusive (issue #52, cumulative for issues #27-52 or #53 in some years). A subject matter index is updated weekly and is available upon request from the editor. For copies or subscriptions to the State Register, contact the editor at 651-201-3204 or email at sean.plemmons@state.mn.us

Exempt Rules

Exempt rules are excluded from the normal rulemaking procedures (*Minnesota Statutes* §§ 14.386 and 14.388). They are most often of two kinds. One kind is specifically exempted by the Legislature from rulemaking procedures, but approved for form by the Revisor of Statutes, reviewed for legality by the Office of Administrative Hearings, and then published in the State Register. These exempt rules are effective for two years only.

The second kind of exempt rule is one adopted where an agency for good cause finds that the rulemaking provisions of *Minnesota Statutes*, Chapter 14 are unnecessary, impracticable, or contrary to the public interest. This exemption can be used only where the rules:

- (1) address a serious and immediate threat to the public health, safety, or welfare, or
- (2) comply with a court order or a requirement in federal law in a manner that does not allow for compliance with *Minnesota Statutes* Sections 14.14-14.28, or
- (3) incorporate specific changes set forth in applicable statutes when no interpretation of law is required, or
- (4) make changes that do not alter the sense, meaning, or effect of the rules.

These exempt rules are also reviewed for form by the Revisor of Statutes, for legality by the Office of Administrative Hearings and then published in the *State Register*. In addition, the Office of Administrative Hearings must determine whether the agency has provided adequate justification for the use of this exemption. Rules adopted under clauses (1) or (2) above are effective for two years only. The Legislature may also exempt an agency from the normal rulemaking procedures and establish other procedural and substantive requirements unique to that exemption.

KEY: Proposed Rules - Underlining indicates additions to existing rule language. ~~Strikeouts~~ indicate deletions from existing rule language. If a proposed rule is totally new, it is designated "all new material."

Adopted Rules - Underlining indicates additions to proposed rule language. ~~Strikeout~~ indicates deletions from proposed rule language.

Executive Orders

The governor has the authority to issue written statements or orders, called Executive Orders, as well as Emergency Executive Orders. The governor's authority is specified in the Constitution of the State of Minnesota, Article V, and in *Minnesota Statutes* § 4.035. Emergency Executive Orders, for protection from an imminent threat to health and safety, become effective immediately, are filed with the secretary of state, and published in the *State Register* as soon as possible after they are issued. Other Executive Orders become effective 15 days after publication in the *State Register* and filing with the secretary of state. Unless otherwise specified, an executive order expires 90 days after the date the governor who issued the order vacates office.

Office of the Governor

Executive Order 25-10: Empowering State Agencies to Continue Combatting Fraud

I, Tim Walz, Governor of the State of Minnesota, by the authority vested in me by the Constitution and applicable statutes, issue the following executive order:

Fraud perpetrated against the State is unacceptable and my administration will not tolerate the abuse or misuse of public funds. The State oversees a number of public programs intended to help our most vulnerable populations, including people with disabilities, those with housing insecurity, and children who need medical assistance services. We have seen ever-evolving criminal schemes focused on taking advantage of Minnesota's programs and our culture of generosity. These criminal activities erode public trust and take from those who need the most support.

Executive Orders

Fraud committed against the State has several root causes. The legislature created programs that prioritized access, but did not always include the safeguards necessary to protect programs against predatory or fraudulent providers. Similarly, the federal government approved programs that were novel but did not have the internal controls needed to prevent fraud. All the while, leaders in communities where fraud is prevalent stayed silent.

My administration has made numerous advances in response to these evolving scams and fraudulent schemes. We have created new inspector general positions, like at the Minnesota Department of Education. We have increased agency authority to stop fraudulent payments and allow for better data sharing. We have added new criminal statutes, like those barring kickbacks. And we created a new Financial Crimes and Fraud Section at the Bureau of Criminal Apprehension (“BCA”), creating a centralized fraud investigative unit operated by law enforcement.

More recently, I have installed new leadership at the Department of Human Services (“DHS”) with an emphasis on fraud prevention, including Temporary Commissioner Shireen Gandhi and Inspector General James Clark. My administration continues to assist the Minnesota Attorney General’s Office, the United States Attorney’s Office, and other law enforcement and prosecution agencies to ensure that fraudsters are brought to justice. But there is more to do, and State agencies need the resources and clear direction to continue the fight against fraud.

Fraud is never acceptable and my administration will continue to bring everyone to the table to help solve this problem. As financial stewards of public funds, I am ordering agencies to show the public all the efforts they have taken and continue to take to stop and prevent fraud. I am ordering agencies to use their new data sharing abilities to create a Statewide Office of Inspector General (“OIG”) Coordinating Council to collaborate and stop fraud across the enterprise. And, I’m ordering agencies to take an even harder look at programs and end the ones that pose too much risk.

We have always taken a zero-tolerance approach on this issue and will continue to root out those individuals who use the most vulnerable as a shield to enrich themselves. We must ensure that agencies have the ability to make necessary administrative changes to stop fraud, organize across the enterprise effectively to root out fraud, and have all possible tools to refer criminal behavior for future prosecution.

For these reasons, I order as follows:

1. DHS will, to the maximum extent allowed by law:
 - a. Publish information about program integrity actions taken by the agency so that the public can know of the efforts to prevent fraud, waste, and abuse.
 - b. Direct the DHS Inspector General to:
 - i. Establish a proactive, data-driven post-payment review program for Medicaid providers and claims and deploy advanced analytics and risk-scoring models to identify high-risk providers, claims, and service patterns for targeted review.
 - ii. Identify DHS programs that present a high risk of fraud, waste, and abuse and:
 1. Recommend programmatic changes, up to and including terminating high-risk programs. The recommendation to terminate a program shall include consideration of whether there are alternative services available to meet the needs of vulnerable Minnesotans;
 2. Implement a temporary licensing moratorium, both directly under Minnesota Statutes, section 245A.03, subdivision 7a, and by requesting that the Centers for Medicare & Medicaid Services (“CMS”) allow DHS to implement moratoria; and
 3. Ensure that all providers in these programs have a unique identifier that will allow the agency to better track funds across agency programs.
 - c. Subject providers who present identified risk factors to prepayment review.

Executive Orders

- d. Immediately disenroll all Minnesota Health Care Program enrolled providers who have not billed Medicaid in the last 12 months.
 - e. Submit a request for funds from any available state accounts to modernize systems to better prevent and detect fraud, waste, and abuse.
 - f. Request any and all assistance from CMS and other federal partners to ensure that DHS' program integrity measures are in line with national program integrity standards.
 - g. Hire an external consultant to assess DHS and make recommendations on reorganization to more effectively serve as the State's Medicaid agency. The consultant's review should focus on program integrity and anti-fraud efforts, including suggested policies, procedures, system changes, organizational structure changes, staffing levels, and program integrity considerations that should be part of any state legislation that proposes to expand or create new covered Medicaid services. The consultant should also provide guidance how to best utilize partnerships with counties, Tribal Nations, and managed care organizations to minimize fraud and optimize efficient service delivery.
2. The Department of Public Safety ("DPS") will:
 - a. Convene and lead a Statewide OIG Coordinating Council made up of the Superintendent of the BCA (or designee), representatives from offices of each agency's inspector general's office, representatives of the Financial Crimes and Fraud Section of the BCA, the Internal Controls and Accountability Unit at Minnesota Management and Budget ("MMB"), the Grants Management team at the Minnesota Department of Administration, and other agency representatives who bring expertise in program integrity, audit, or internal controls. The Statewide OIG Coordinating Council will:
 - i. Meet monthly to use the new data sharing provisions set out in the recently adopted Minn. Laws 2025, Ch. 39, Art. 2, Sec. 16 to share investigative data and trends that could improve outcomes at other agencies;
 - ii. Develop data sharing, investigative best practices, and program integrity review processes for all new publicly funded programs; and
 - iii. Assist agencies in securing specialized audit, inspector, or other skillsets as needed.
 - b. Enter into interagency agreements with state agencies that do not have an existing OIG to provide additional criminal investigative support as needed.
 - c. Collaborate with the Minnesota Attorney General's Office to provide additional criminal investigative support for Medicaid programs upon request if resources are available.
3. MMB will:
 - a. Coordinate an interagency workgroup to combat fraud through prevention, early identification, mitigation, culture and learning.
 - b. Conduct a comprehensive review of existing state job classifications and create a job class family to establish a clear career pathway for state roles dedicated to program integrity, accountability, and fraud detection.
 - c. Lead an enterprise agency work group to create job specific training and education standards for state employees whose jobs are dedicated to preventing fraud waste and abuse.
 - d. Create required training for all state employees on the topic of ethical conduct, and preventing fraud, waste, and abuse.
4. Minnesota IT Services will assist DHS and other requesting agencies with technological support, including available financial support, to improve data analysis and fraud detection technological capabilities.

Executive Orders

5. All state agencies, meaning the departments and agencies listed in Minnesota Statutes, section 15.06, subdivision 1, in addition to the Office of Higher Education, Office of Cannabis Management, Direct Care and Treatment, and the Department of Military Affairs, will:
 - a. Gather, combine, and analyze data to identify, prevent, or eliminate the fraudulent use of State funds, resources, or programs.

Notice of Request for Proposals for the 2026 Building Official Training Municipal Grant Program

The Minnesota Department of Labor and Industry announces the availability of approximately \$750,000 in grant funding for the implementation and coordination of the Building Official Training Municipal Grant Program in the State of Minnesota. The performance period for up to ten (10) grants of up to \$75,000 each will be from the date the contract is executed to December 31, 2026.

I. Background

The Building Official Training Municipal Grant program (referred to as the BOT Grant or BOT) from the Construction Codes and Licensing Division (CCLD) of the Minnesota Department of Labor and Industry (DLI) was created to offer competitive grants to qualified municipalities that want to establish a training program, in their municipality's building code department, to train an individual toward becoming a Minnesota certified building official. This will be achieved through a competitive grant process and the implementation and coordination of partnerships between the State of Minnesota and those qualified municipalities.

Funding for the BOT Grant program is provided by the Construction Codes and Licensing Division (CCLD) permit surcharge surplus as allowed in MN. Statute 326B.148 subdivision 1.

II. Objective of the RFP

The BOT Grant Program Request for Proposal (RFP) details information about this grant offering including application/proposal process and requirements, timeline, required documents, purpose, funding, reporting, eligibility, and legal aspects. The RFP can be obtained at the BOT grant website: www.dli.mn.gov/bot.

III. Eligibility

Proposals will be accepted from qualified municipalities and funding will be allocated through a competitive grant process. Consult the RFP for more information. The deadline to submit a grant proposal to the Minnesota Department of Labor and Industry is 4 p.m. October 17, 2025. DLI staff will review all applications for eligibility. The grant review committee will evaluate and score eligible grant applications and proposals.

IV. Application Process

For information about the grant application process consult the RFP and other documents available at www.dli.mn.gov/bot. Email requests for help obtaining these documents to: bot.dli@state.mn.us.

Request for Qualifications for Outside Counsel Services Relating to: Representing the Minnesota Multistate Contracting Alliance for Pharmacy (“MMCAP”), A Group Purchasing Organization for Government Within the Minnesota Department Of Administration, Seeking Comprehensive Analysis and Legal Advice Related To Compliance In Its Purchasing Operations

SUBMITTALS DUE BY 4:00 P.M. (Central time) on October 22, 2025.

Please email submittals to RFQ.response@ag.state.mn.us

I. INTRODUCTION

This Request for Qualification (RFQ) has been prepared and released by the State of Minnesota Office of the Attorney General for the purpose of creating a list of qualified counsel to provide legal services to the Minnesota Multistate Contracting Alliance for Pharmacy (“MMCAP”) under the supervision of the Minnesota Attorney General’s Office (AGO).

Work for MMCAP will include a full review of MMCAP business practice and compliance with applicable law, including but not limited to, the Anti-Kickback Statute (Section 1128B(b) of the Social Security Act (the “Act”), 42 U.S.C. § 1320a-7b(b)) and related Safe Harbor Rule (42 CFR §1001.952). The work product will be formal written guidance to MMCAP. The work will also include answering questions for MMCAP as needed related to business structure, systems, and compliance. This project is advisory in nature and no litigation assistance is anticipated. The ideal candidate will have extensive experience advising healthcare businesses, especially group purchasing organizations and similar structures (“identified matters”).

The AGO seeks to review responses from law firms and qualify counsel for engagement. All services contemplated in this RFQ would be provided on an hourly fee basis.

The AGO has full-time lawyers who handle the majority of legal work for the State. Occasionally, the AGO seeks to engage attorneys with expertise in particular types of legal matters to supplement AGO resources and assist in representing the State and its agencies. In order to ensure that the State is getting the highest quality legal service at the most reasonable rates, and that all law firms who wish to perform this work are able to compete for it, the AGO is issuing this RFQ as an open solicitation.

State Contracts

The review of qualifications and the possible engagement resulting from this RFQ may not be exclusive and the AGO reserves the right to assign litigation of the identified matter work to more than one firm. In responding to this solicitation, it is understood by all proposers that the AGO reserves the right to select none, any, or all proposers whom the AGO deems to be in the State's best interest. The AGO is not required to submit this work to a competitive bidding process. Any possible engagement letter following this RFQ will depend on the proposals received in response to this RFQ.

The anticipated engagement will be for two years, or until all work is complete, whichever is sooner.

II. AGO CONTACT INFORMATION

This RFQ is being released by the AGO, which is also the sole point of contact during the review process. Any Special Attorney appointment[s] resulting from this RFQ will be administered by the AGO. The contract administrators are Assistant Attorney General Anne Kealing and Liz Kramer, Solicitor General. If additional information is necessary to interpret the requirements of this RFQ, please direct questions to RFQ.response@ag.state.mn.us.

III. CONDITIONS OF SUBMITTING RESPONSES

Proposers responding to this RFQ understand that the following conditions apply to any proposal:

If all proposals are rejected, the AGO reserves the right to re-solicit proposals. Nothing in this RFQ is intended to limit or constrain the discretion of the AGO in exercising any authority, duty, prerogative, or power established or recognized by the Constitution, statutes, executive orders, regulations, case law, or other applicable law.
