Minnesota Rules: Amendments and Additions

NOTICE: How to Follow State Agency Rulemaking in the State Register

The State Register is the official source, and only complete listing, for all state agency rulemaking in its various stages. State agencies are required to publish notice of their rulemaking action in the State Register. Published every Monday, the State Register makes it easy to follow and participate in the important rulemaking process. Approximately 80 state agencies have the authority to issue rules. Each agency is assigned specific Minnesota Rule chapter numbers. Every odd-numbered year the Minnesota Rules are published. Supplements are published to update this set of rules. Generally speaking, proposed and adopted exempt rules do not appear in this set because of their short-term nature, but are published in the State Register.

An agency must first solicit Comments on Planned Rules or Comments on Planned Rule Amendments from the public on the subject matter of a possible rulemaking proposal under active consideration within the agency (Minnesota Statutes §§ 14.101). It does this by publishing a notice in the State Register at least 60 days before publication of a notice to adopt or a notice of hearing, or within 60 days of the effective date of any new statutory grant of required rulemaking.

When rules are first drafted, state agencies publish them as Proposed Rules, along with a notice of hearing, or a notice of intent to adopt rules without a hearing in the case of noncontroversial rules. This notice asks for comment on the rules as proposed. Proposed emergency rules, and withdrawn proposed rules, are also published in the State Register. After proposed rules have gone through the comment period, and have been rewritten into their final form, they again appear in the State Register as Adopted Rules. These final adopted rules are not printed in their entirety, but only the changes made since their publication as Proposed Rules. To see the full rule, as adopted and in effect, a person simply needs two issues of the State Register, the issue the rule appeared in as proposed, and later as adopted.

The State Register features partial and cumulative listings of rules in this section on the following schedule: issues #1-26 inclusive (issue #26 cumulative for issues #1-26); issues #27-52 inclusive (issue #52, cumulative for issues #27-52 or #53 in some years). A subject matter index is updated weekly and is available upon request from the editor. For copies or subscriptions to the State Register, contact the editor at 651-201-3204 or email at sean.plemmons@state.mn.us

Executive Orders

The governor has the authority to issue written statements or orders, called Executive Orders, as well as Emergency Executive Orders. The governor's authority is specified in the Constitution of the State of Minnesota, Article V, and in *Minnesota Statutes* § 4.035. Emergency Executive Orders, for protection from an imminent threat to health and safety, become effective immediately, are filed with the secretary of state, and published in the *State Register* as soon as possible after they are issued. Other Executive Orders become effective 15 days after publication in the *State Register* and filing with the secretary of state. Unless otherwise specified, an executive order expires 90 days after the date the governor who issued the order vacates office.

Office of the Governor

Executive Order 26-09: Prohibiting State Employees from Using Nonpublic Information on Prediction Markets

I, Tim Walz, Governor of the State of Minnesota, by the authority vested in me by the Constitution and applicable statutes, issue the following Executive Order.

Online prediction markets have surged in popularity in recent years, allowing people to place wagers on the future outcome of specific events including sports, elections, and world affairs through so-called event contracts.

These prediction markets are highly susceptible to insider trading, allowing people with access to nonpublic or confidential information to manipulate markets to their advantage. There are dozens of examples of insiders cashing in, including federal employees and White House staff. An individual's position in government should not and cannot give them an unfair financial advantage.

Ethical and transparent government is vital to maintaining trust and confidence in the integrity of our public institutions. I have been a longtime advocate for strong ethical standards in government because the public trust should never be exploited for personal profit. As Governor, I have held public servants to the highest ethical standards through the State of Minnesota Code of Ethical Conduct, which includes conflict of interest rules prohibiting state employees from using confidential information obtained during their employment to further private interests.

It is important to set clear standards that guide ethical behavior, establish consequences, and build public trust.

For these reasons, I order as follows:

1. Definitions. For the purposes of this Executive Order, the terms below are defined as follows:
 - a. "State agencies" means the departments and agencies listed in Minnesota Statutes, section 15.06, subdivision 1, in addition to the Office of Higher Education, the Department of Military Affairs, and the Office of Cannabis Management.
 - b. "Prediction market" means a system that allows consumers to place a wager on the future outcome of a specified event that is not determined or affected by the performance of the parties to the contract, including but not limited to election results, games, declaration or cessation of war, official government actions, legal proceedings, actions or speeches of individuals, or the rise or fall of individual economic indicators.
 - c. "Not public data" has the same meaning as Minn. Stat. § 13.02, subd. 8a.
 - d. "Confidential information" has the same meaning as Minn. Stat. § 43A.38, subd. 1(b).
2. Employees of state agencies, including the Governor, Lieutenant Governor, and agency commissioners, are prohibited from using not public data or confidential information obtained in the course of their state agency employment to further their private interest, or the private interest of another person or organization, through participation in a prediction market. This restriction applies regardless of whether an employee profits from,

Executive Orders

derives any benefit, or prevents a loss based on a prediction market transaction.

3. Employees of state agencies, including the Governor, Lieutenant Governor, and agency commissioners, who use not public data or confidential information to further a private interest, including participation in a prediction market, may be subject to discipline, up to and including discharge. Consistent with Minn. Stat. § 43A.39, violations also may be subject to criminal penalties.
4. Public entities not covered by this Executive Order, including but not limited to independent elected officials, the Minnesota legislature, the Minnesota judicial branch, and state boards, commissions, taskforces, and workgroups are strongly encouraged to review their existing policies and adopt similar measures to prevent the use of not public data or confidential information in prediction markets and to preserve and enhance public trust.

This Executive Order is effective fifteen days after publication in the State Register and filing with the Secretary of State. It will remain in effect until rescinded by proper authority or until it expires in accordance with Minnesota Statutes 2025, section 4.035, subd. 3.

A determination that any provision of this Executive Order is invalid will not affect the enforceability of any other provision of this Executive Order. Rather, the invalid provision will be modified to the extent necessary so that it is enforceable.

Signed on July 28, 2026

Tim Walz, GOVERNOR

Filed According to Law:

Steve Simon, SECRETARY OF STATE

Official Notices

Pursuant to *Minnesota Statutes* §§ 14.101, an agency must first solicit comments from the public on the subject matter of a possible rulemaking proposal under active consideration within the agency by publishing a notice in the *State Register* at least 60 days before publication of a notice to adopt or a notice of hearing, and within 60 days of the effective date of any new statutory grant of required rulemaking.

The *State Register* also publishes other official notices of state agencies and non-state agencies, including notices of meetings and matters of public interest.

State Grants & Loans

In addition to requests by state agencies for technical/professional services (published in the State Contracts Section), the *State Register* also publishes notices about grants and loans available through any agency or branch of state government. Although some grant and loan programs specifically require printing in a statewide publication such as the State Register, there is no requirement for publication in the *State Register* itself. Agencies are encouraged to publish grant and loan notices, and to provide financial estimates as well as sufficient time for interested parties to respond.

Applications are due to Minnesota Housing by **5 p.m. Central Time, Wednesday, September 30, 2026**, to be considered for funding.

Information about the Lead Safe Homes Program, including eligibility criteria, application materials, and instructions are available on *Minnesota Housing's website*.

This request does not obligate Minnesota Housing to award a contract or complete the proposed program, and Minnesota Housing reserves the right to cancel this solicitation if it is considered in its best interest. Minnesota Lottery

Request for Proposals for Minnesota State Lottery Sponsorship Agreements

Description of Opportunity

The Minnesota State Lottery (“Lottery”) develops sponsorship agreements throughout the year with organizations, events, and sports teams to create excitement for lottery players, to interest new players and increase the visibility of lottery games. The Lottery encourages and continually seeks new sponsorship agreements to help achieve current Lottery marketing goals.

The Minnesota Lottery finds sponsorship opportunities in two ways. First, the Minnesota Lottery marketing staff locates and approaches potential sponsors to negotiate directly. Second, the Minnesota Lottery accepts incoming potential sponsors through this proposal process. Employing both strategies allows the Minnesota Lottery to find the best sponsorship opportunities, including opportunities that are not already known by staff. Both strategies are evaluated using the same criteria.

If you feel your organization, event, sports team, or other opportunity is a good fit for the Minnesota Lottery to sponsor, we encourage you to prepare and submit a proposal.

Proposal Content

A sponsorship proposal presented to the Lottery should meet the following three criteria:

1. **Maximize Lottery Visibility** - the event, sports team, or venue sponsorship proposal should draw a large number of attendees (typically 20,000 or more) whose demographics match the Lottery’s target audience. The Lottery is interested in effectively delivering its message of fun and entertainment to Minnesota adults, ages 25-64, with a household income of \$75,000+ and an educational background of some college or higher. The Lottery does not market to those under the age of 18, and events with large numbers of children present are generally not accepted. Attendance numbers, on-site signage availability, sales and engagement opportunities, and media exposure are critical components that will be evaluated in the proposal. List and define all assets, value, and benefits that the Lottery would receive as part of the sponsorship, such as PR inclusions, social media posts, prize support, promotional activities, and signage.
2. **Enhance Lottery Image** - the event, sports team, or venue should be a reputable, safe, and well-run event and organization that enhances the Lottery’s brand. The Lottery’s presence should fit well within the lineup of other sponsors and participants. The Lottery is interested in sponsorships that can promote Lottery products, either via on-site sales from a Lottery booth, from sales-generating promotions with Lottery retailers, or from joint programs with the sponsor’s media or other sponsorship partners.
3. **Provide Promotional Extensions** - the event, sports team, or venue proposal should offer exciting, value-added ways to interact with attendees and have opportunities to motivate attendees, listeners, and viewers to participate in and purchase Lottery games. The proposal must include staffing support, or other considerations to help the Lottery implement any appropriate promotional extension ideas.

Proposals should address all pertinent elements of the sponsorship and how the Lottery criteria, as stated above and on the RFP Evaluation Form, are to be met. To view or print copies of the Request for Proposal go to

<https://www.mnlottery.com/vendors/>

This Solicitation does not obligate the state to award a contract or pursue a proposed sponsorship opportunity, and the state reserves the right to cancel the solicitation if it is considered to be in its best interest.
