Minnesota Rules: Amendments and Additions

NOTICE: How to Follow State Agency Rulemaking in the State Register

The State Register is the official source, and only complete listing, for all state agency rulemaking in its various stages. State agencies are required to publish notice of their rulemaking action in the State Register. Published every Monday, the State Register makes it easy to follow and participate in the important rulemaking process. Approximately 80 state agencies have the authority to issue rules. Each agency is assigned specific Minnesota Rule chapter numbers. Every odd-numbered year the Minnesota Rules are published. Supplements are published to update this set of rules. Generally speaking, proposed and adopted exempt rules do not appear in this set because of their short-term nature, but are published in the State Register.

An agency must first solicit Comments on Planned Rules or Comments on Planned Rule Amendments from the public on the subject matter of a possible rulemaking proposal under active consideration within the agency (Minnesota Statutes §§ 14.101). It does this by publishing a notice in the State Register at least 60 days before publication of a notice to adopt or a notice of hearing, or within 60 days of the effective date of any new statutory grant of required rulemaking.

When rules are first drafted, state agencies publish them as Proposed Rules, along with a notice of hearing, or a notice of intent to adopt rules without a hearing in the case of noncontroversial rules. This notice asks for comment on the rules as proposed. Proposed emergency rules, and withdrawn proposed rules, are also published in the State Register. After proposed rules have gone through the comment period, and have been rewritten into their final form, they again appear in the State Register as Adopted Rules. These final adopted rules are not printed in their entirety, but only the changes made since their publication as Proposed Rules. To see the full rule, as adopted and in effect, a person simply needs two issues of the State Register, the issue the rule appeared in as proposed, and later as adopted.

The State Register features partial and cumulative listings of rules in this section on the following schedule: issues #1-26 inclusive (issue #26 cumulative for issues #1-26); issues #27-52 inclusive (issue #52, cumulative for issues #27-52 or #53 in some years). A subject matter index is updated weekly and is available upon request from the editor. For copies or subscriptions to the State Register, contact the editor at 651-201-3204 or email at sean.plemmons@state.mn.us

Expedited Emergency Rules

Provisions exist for the Commissioners of some state agencies to adopt expedited emergency rules when conditions exist that do not allow the Commissioner to comply with the requirements for emergency rules. The Commissioner must submit the rule to the attorney general for review and must publish a notice of adoption that includes a copy of the rule and the emergency conditions. Expedited emergency rules are effective upon publication in the *State Register*, and may be effective up to seven days before publication under certain emergency conditions.

Expedited emergency rules are effective for the period stated or up to 18 months. Specific *Minnesota Statute* citations accompanying these expedited emergency rules detail the agency's rulemaking authority.

KEY: Proposed Rules - Underlining indicates additions to existing rule language. ~~Strikeouts~~ indicate deletions from existing rule language. If a proposed rule is totally new, it is designated "all new material."

Adopted Rules - Underlining indicates additions to proposed rule language. ~~Strikeout~~ indicates deletions from proposed rule language.

Department of Natural Resources

Adopted Expedited Emergency Game and Fish Rules: 2026 Deer Seasons and Special Hunts

Notice is hereby given that the above entitled rules have been adopted through the process prescribed by *Minnesota Statutes*, section 84.027, subdivision 13(b). The statutory authority for the content of the rules is *Minnesota Statutes*, 84.027, subdivision 13; 97A.045, subdivision 11; 97A.091, subdivision 2; 97A.401, subdivision 4; 97A.535, subdivision 2; 97B.111; 97B.301; 97B.311.

The following conditions do not allow compliance with *Minnesota Statutes*, sections 97A.0451 to 97A.0459: Population data needed to set bag limits for specific deer permit areas are not available until spring of each year. Special hunts to reduce deer density in municipalities, state parks and other areas where hunting is not normally allowed are based on annual changes in local deer populations. Other special hunts are authorized to provide opportunities to special groups and for mentoring or for disease control. Changes to the Camp Ripley Game Refuge provide a more effective means of public access while maintaining an equitable distribution of harvest. Annual biological harvest data show that there is a harvestable surplus of deer in the area.

The emergency rule is also necessitated by the continuing effort to manage Chronic Wasting Disease (CWD), which has been found in wild deer harvested in multiple areas of Minnesota and captive deer in farms in western, north central, and eastern Minnesota. CWD infectious agents are extremely persistent in the environment and transmission may be both direct and indirect. The concentration of deer in certain areas increases the risk of transmission between individual deer. Disease management measures, including sampling requirements and increased harvest opportunities, are implemented to control disease spread based on discoveries of infections in both wild and farm-raised captive deer. Reducing the number of deer reduces the risk of transmission between individuals.

The DNR will also hold a special hunt in mid-December 2026 in deer permit areas where CWD has been classified as a persistent infection in accordance with the DNR's CWD Response Plan. Late hunts offer additional opportunities to harvest deer in known CWD areas and reduce deer densities.

Department of Natural Resources

Adopted Expedited Emergency Game and Fish Rules: Upland Bird and Wild Turkey Seasons, Wildlife Management Areas, State Game Refuges, and Common Crow Season

Notice is hereby given that the above entitled rules have been adopted through the process prescribed by *Minnesota Statutes*, section 84.027, subdivision 13(b). The statutory authority for the content of the rules is *Minnesota Statutes*, sections 84.027, subdivision 13(a); section 97A.045, subdivisions 3 and 5; 97A.091, subdivisions 1 and 2; section 97A.137, subdivisions 1 and 2; 97A.434, subdivisions 1 through 4; section 97A.435, subdivisions 1 and 2; section 97B.111; 97B.605; 97B.716 subdivisions 1 through 3; section 97B.721; section 97B.723 and section 97B.731, subdivision 3.

The following conditions do not allow compliance with *Minnesota Statutes*, sections 97A.0451 to 97A.0459: i) upland bird and turkey hunting seasons are subject to adjustment on an annual basis based upon current biological and harvest data; ii) distribution of licenses for hunting on major wildlife management units is subject to modification on an annual basis as the Department of Natural Resources refines the manner by which the season is conducted to provide high-quality hunting opportunities and assure equitable distribution of harvest; and iii) adjustments to season variables, including permit area boundaries, are based on annual and long-term population data as well as input from the public.

Changes to wildlife management areas are compatible with their intended purpose. Where harvestable populations of species exist, rule changes have expanded public hunting opportunities safely and sustainably.

The crow season is being amended to continue to meet the maximum federal crow season specified in *Minnesota Statutes*, section 97B.731, subdivision 3.

Adopted Expedited Emergency Game and Fish Rules: 2026 Youth and Adult Special Deer Hunts and Seasons

Notice is hereby given that the above-entitled rules have been adopted through the process prescribed by *Minnesota Statutes*, section 84.027, subdivision 13(b). The statutory authority for the content of the rules is *Minnesota Statutes*, sections 84.027, subdivision 13; 97B.112; and 97B.311.

The following conditions do not allow compliance with *Minnesota Statutes*, sections 97A.0451 to 97A.0459: Youth and adult special deer hunts are subject to adjustment on an annual basis based upon resource management objectives, as well as current biological and harvest data. Deer population and harvest data used for setting quotas and determining areas is gathered annually and analyzed each winter. Adjustments to areas and quotas are based on annual and long-term population data as well as input from the public.

Dated: July 8, 2026

Sarah Strommen
Commissioner of Natural Resources

6232.2550 YOUTH AND ADULT SPECIAL DEER HUNTS.

[For text of subpart 1, see Minnesota Rules]

Subp. 2. Application requirements.

Upon issuance of a youth special hunt permit, all accumulated preference is lost. The application deadline is the Friday nearest August 17.

B. Adult learn-to-deer-hunt participants are selected on a first-come, first-served basis.

Subp. 3. Restrictions on taking.

A. In addition to complying with this part, hunters who are hunting under a special deer hunt permit must meet all requirements of the municipality, park, or area in which the special hunt occurs and those of the sponsoring organization. Hunt participants must stay within any boundaries prescribed by the hunt sponsor, on maps provided during a prehunt orientation session, or by posting.

B. While participating in a special hunt in a state park, individuals may possess only nontoxic ammunition on their person while taking wild animals, as defined in Minnesota Statutes, section 97A.015, subdivision 47. For purposes of this item, "nontoxic ammunition" means:

(1) steel shot or projectile;

Expedited Rules

The Minnesota Legislature allows for some agencies to use an expedited rulemaking process. Expedited rulemaking allows state agencies to adopt, amend or repeal rules faster than the standard process, generally without a public hearing. The agency must publish notice of the proposed rule in the *State Register* and must mail the notice by United States mail or electronic mail to persons who have registered with the agency to receive mailed notices (*Minnesota Statutes §14.389*). There must be a 30-day comment period after the notice is published in the *State Register*.

Before publication of the final rule in the *State Register*, the agency must submit the rule to an administrative law judge in the Court of Administrative Hearings. The administrative law judge shall within 14 days approve or disapprove the rule as to its legality and its form to the extent the form relates to legality. If the final rule is approved by the administrative law judge, it can then be published in the *State Register*. The rule is effective upon publication in the *State Register* (*Minnesota Statutes §14.389*).

Minnesota Pollution Control Agency (MPCA) Division of Resource Management and Assistance Adopted Expedited Rule on Reimbursement Rates for Dry Cleaner Environmental Response; Order Adopting Rules

Adoption of Rules Relating to the Dry Cleaner Environmental Response and Reimbursement Account (Dry Cleaner Account Rules), Minnesota Rules, Chapter 7152; Revisor’s ID Number 4959, CAH Docket Number 5-9003-41437

BACKGROUND INFORMATION

1. All notice and procedural requirements in Minnesota Statutes, chapter 14, Minnesota Rules, chapter 1400, and other applicable law have been complied with.
2. The agency received no written comments and submissions on the rule. Zero persons requested a public hearing. Therefore, there are not 25 or more outstanding requests for a public hearing. The agency received 0 requests for notice of submission to the Court of Administrative Hearings.
3. Minnesota Statutes, section 115B.50, subdivision 4, authorizes the commissioner of the Pollution Control Agency to make the following rule changes:
 - A. Amend Minnesota Rules, part 7152.0500, subpart C, to delete existing maximum hourly rates and replace them with updated rates.
 - B. Amend Minnesota Rules, part 7152.0600, subpart C, to delete existing maximum per diem cost and replace it with an updated rate.
4. Minnesota Statutes, section 115B.50, subdivision 4, authorizes the use of the expedited rulemaking process for these rule changes.
5. The rules are needed and reasonable. The adjustment in rates to allow for economic inflation or deflation creates a means to reimburse owners and operators for the cost of response actions, such as the cleanup of soil, groundwater, and soil vapor contamination, resulting from dry cleaning facilities as intended in Minnesota Statutes, section 115B.50.

Subject of Rules. The Minnesota Racing Commission requests comments on its possible amendments to the rules governing Horse Racing, Minnesota Rules Chapters 7869-7897. Each year the MRC reviews its rules in cooperation with interested industry participants in order to modify, update, and clarify the rules. We may also seek to repeal obsolete rules. The public is welcomed and encouraged to comment and make proposals for this year's amendments.

- Horse Owners
- Trainers
- Drivers
- Veterinarians

- Judges
- Association staff

Statutory Authority. The Racing Commission's statutory authority to adopt rules is set forth in Minnesota Statutes Section 240.03, 240.23 and 240.24.

Minnesota Statutes section 240.03 specifies Racing Commission power and duties which include regulating horse racing in Minnesota to ensure that it is conducted in the public interest and to take all necessary steps to ensure the integrity of racing in Minnesota.

Minnesota Statutes 240.23 provides the racing commission statutory authority to adopt the rules, as follows:

The Commission has the authority, in addition to all other rulemaking authority granted elsewhere in this chapter to promulgate and adopt rules governing: a) the conduct of horse races held at licensed racetracks in Minnesota, including but not limited to the rules of racing, standards of entry, operation of claiming races, filing and handling of objections, carrying of weights, and declaration of official results, b) wire and wireless communications between the premises of a licensed racetrack and any place outside the premises, c) information on horse races which is sold on the premises of a licensed racetrack, d) liability insurance which it may require of all racetrack licensees, e) the auditing of the books and records of a licensee by an auditor employed or appointed by the Commission, f) emergency action plans maintained by licensed racetracks and their periodic review, g) safety, security, and sanitation of stabling facilities at licensed racetracks, h) entry fees and other funds received by a licensee in the course of conducting racing which the Commission determines must be placed in an escrow account, i) affirmative action in employment and contracting by licensed racetracks, and j) procedures for the sampling and testing of any horse that is eligible to race in Minnesota for substances or practices that are prohibited by law or rule; and k) any other aspect of horse racing or pari-mutuel betting which in its opinion affects the integrity of racing or the public health, welfare, or safety.

Minnesota Statutes section 240.24 authorizes the Racing Commission to “make and enforce rules governing medication and medical testing for horses running at licensed racetracks.”
