-----
NR Reference Number

**National Register of Historic Places**  
**Continuation Sheet**

**Name of Property:** Stordahl Building (NRIS 80002120)

**Address:** 119 W. Wall Street (current - 121 Wall Street West)

**City/Township:** Jasper

**County:** Pipestone

**Reason for Removal:** The property has ceased to meet the criteria for listing because the qualities which caused it to be listed have been lost or destroyed (36 CFR 60.15 (a)).

**Dates and Nature of Change:** Demolished, in part, Prior to 2007

**Comments:**

Listed March 3, 1980, the Stordahl Building is significant as “one of the earliest and least altered quartzite buildings on Jasper’s main street.”<sup>1</sup> The property is listed under Criterion A and C in the areas of commerce and architecture.

The Stordahl Building was constructed in 1894 of jasper quartzite a distinctive local stone. The 1980 nomination mentions that “Many of the stone buildings date from after the turn of the century, and most have lost much of their original integrity” supporting the property’s eligibility as a distinct local example of a commercial building.<sup>2</sup> When listed the property was described as a “a two-story, rectangular commercial building constructed of locally quarried quartzite stone” where the second story consisted of “three evenly spaced arched windows” with “bracketed finials at the corners of the roof line.”<sup>3</sup> Sometime prior to 2007 the second story was removed, and the parcel was combined with the one immediately to its west (121 Wall Street West). Primary source information determining the date of demolition is, thus far, unavailable.

When it was added to the National Register, the Stordahl Building retained the seven aspects of integrity (location, setting, design, workmanship, materials, feeling, and association). The property retains the integrity of *location* and *setting*. However, the loss of the second story diminishes the *design, workmanship, materials, feeling, and association* of the property.
