NOTICE OF COLLECTION OF PRIVATE DATA

In accordance with the Minnesota Government Data Practices Act (Minnesota Statutes §13.04, Subd. 2), the Board is required to inform you of your rights as they pertain to private data collected from you on this application for licensure. The data you furnish on the application will be used by the Board to assess your qualifications for licensure. The collection of your social security number by the Board is required by both federal and state laws. You are not legally required to provide this data; however, if you fail to do so, the Board may be unable to approve your application or issue your license.

Federal law (42 U.S.C. 666(a)(13)) requires each state to collect social security numbers at the time of application for a professional or occupational license in order to improve effectiveness of child support enforcement.

Additionally, pursuant to Minnesota Statutes §270C.72, Subd. 4 (2022) the Board must provide the Commissioner of the Minnesota Department of Revenue a list of all applicants, including name, address and social security number or Individual Tax Identification Number (ITIN), each calendar year for the purpose of identifying individuals owing delinquent taxes. Pursuant to Minnesota Statutes §13.41, Subd. 2 (2022), all application data, except name and designated address, are private data until licensure is granted. When licensure is granted, all data, except social security number, become public record.

The Board will not share your private data with other persons or agencies unless it is required by law.

Part D: Experience Verifications (Qualifying Experience)

The amount of experience required is based on your degree type and the requirements in [Minnesota Rules 1800.1500 at the time of your original licensure](#). Your landscape architecture experience **must be obtained under and verified by a licensed landscape architect**, unless an exception is noted in the rules in place in Minnesota at the time of your initial licensure in another state.

“Qualifying experience” consists of varied, progressive, nonrepetitive, practical experience at landscape architectural work that develops the applicant’s ability to apply the knowledge gained during academic training to make sound judgments in solving landscape architectural problems and prepares the applicant to assume responsible charge of the work involved in the practice of landscape architecture. The experience must include elements of research, codes and standards, site and environmental analysis, landscape architectural programming, planning, economics, schematic design, design development documents, construction documents, specifications, project management, and observation of construction.

1. List below the information for the supervisor(s) who will verify your experience. You may list as few as one supervisor and as many as necessary to verify all the required experience.

Supervisor Name (List in Chronological Order)	Business Name & Address	Employment Dates Under Supervisor	Licensed Profession
