B. Based on the findings of the PERCA submission and recommendations of the PRP as applicable, the board shall make one of the program approval decisions in subitems (1) to (4).

(1) The board shall grant continuing approval for two years when the program report provides evidence that the program meets adopted performance standards, statutory and rule requirements, and evidences that candidates have attained competency of licensure standards.

(2) The board may grant continuing approval with continuous improvement focus for two years when the program report revealed that one or more standards, rules, or candidate performance measures were not in compliance with board criteria.
program approval status is granted with board-identified areas of focus for continuous improvement. The continuous improvement portion of the PERCA report must include evidence of progress in the identified focus areas in the subsequent reporting cycle. Based on evidence of progress specific to the focus areas, the board may grant an additional two years of continuing approval with continuous improvement focus.

(3) The board may grant probationary approval for up to two years when a program does not demonstrate acceptable progress on focused continuous improvement plans. Probationary approval authorizes the program to continue with one year to demonstrate progress on identified unmet standards, rules, or candidate performance measures. After one year, and based on a written progress report, the board may grant a second one-year extension of probationary approval prior to discontinuing the identified program. Students enrolled in a formerly approved program that is placed on probationary approval must be notified of the program's status. Probationary status may result in federal reporting or financial aid implications or may impact other accreditations.

(4) The board may grant discontinued program status when the board determines that required standards for program approval are unmet. The program will be discontinued and the board will establish a timeline to accommodate candidates enrolled in the program. No new students may be admitted into a discontinued program after the date the board acts to discontinue the program. The provider must submit to the board a list of candidates enrolled in the program and their expected graduation dates. The provider must individually notify those candidates in writing of the program's discontinuation and their program completion options.

Subp. 4. **Voluntary discontinuation.**

A. For a unit to voluntarily discontinue an approved licensure program, the unit leader must submit a letter signed by the unit or program provider's administration to the executive director of the board, including:
(1) a brief rationale for dropping the program;

(2) the last date when new candidates will be allowed to enter the program;

and

(3) a list of candidates presently enrolled with expected completion dates.

B. Reapproval of a licensure program in item A at any point in the future will require the submission of a request for initial program approval application.
