

Pharmacy Application - *Instructions***For Resident and Non-Resident Pharmacies**

A Pharmacy is a place of business in which prescription drugs are prepared, compounded, or dispensed by or under the supervision of a pharmacist and from which related clinical pharmacy services are delivered. Any establishment that falls under this definition needs to be licensed by the state of Minnesota as a pharmacy. To successfully apply for a pharmacy license, the applicant must follow the instructions and submit all the required documents with payment. Failure to do so will result in a delay of licensure.

Use this application for a new pharmacy, change of ownership, and/or relocation.

Checklist of Requirements to Be Followed to License a Pharmacy**Resident Pharmacy**

The following must be submitted to the Board **at least 60 days prior to the planned opening date or relocation:**

The information must also be submitted for changes of ownership, prior to the effective date of change. Upon a change of ownership, the licensee can continue operation of the pharmacy under the original license for 14 days after the effective date of the change or until the Board issues a new license, whichever is earlier. After the 14-day period, the original license issued is void and must be surrendered by the licensee to the director of the Board.

- A completed pharmacy application.** Make sure that you check all categories of licensure or services that apply to your pharmacy and indicate whether you prepare sterile or non-sterile compounded preparations.
- Fee.** A \$450.00 fee made payable to the "Minnesota Board of Pharmacy." NOTE: Fees are nonrefundable.
- Proof of Federal Tax ID.**
- Blueprint or sketch of new pharmacy.** (Not needed for change of ownership only) The following must be clearly shown on the document:
 - Dimensions of proposed licensed space. Include a diagram to establish the location of the licensed space within the building, as applicable.
 - The layout, physical security, and access parameters; including confirmation that the exterior walls extend to the permanent ceiling, patient counseling area indicating the dimensions, elevations, and sound dulling material specifications/properties to meet rule 6800.0700, subpart 1 E.
 - The location of the refrigerator and sink.
 - Confirmation that the lighting will be a minimum of 75-foot candles in all major work areas.
 - The location of the non-sterile compounding area with an indication of the types of materials within the space, if applicable. Provide the types of primary and secondary engineering controls if engaging in hazardous, non-sterile compounding.

For sterile compounding provide an enlarged floorplan of the compounding spaces, including:

- Type of primary engineering controls (PECs).
- Locations of the PECs.
- Whether the PEC is vented to the outside.
- Location and ISO classification of all secondary engineering controls (e.g., ante, buffer/clean rooms).
- Location of pressure monitors and pressure differentials between ISO classified spaces.
- Indication and location of any pass-through(s) with specifications (e.g., interlocking, HEPA filtered).
- Types of material on floors, ceilings, and doors in all classified space.

- DEA Requirement.** Once you have completed all of the Board of Pharmacy's requirements, please contact the Minneapolis DEA office at either www.deadiversion.usdoj.gov or call (612) 344-4136 for their requirements.
- Make certain** no prescription drugs are received on the premises before the pharmacy license is issued. Once a license is issued and prescription drugs are received, other individuals are not allowed in the pharmacy unless a pharmacist is present.
- Ownership forms and supporting documents.** Provide information about the applicant licensee's ownership. NOTE: The applicant licensee is legally responsible for the operation of the pharmacy, and it must match any and all Secretary of State and IRS filings and must be identified on the application.
- Organizational Chart.** Provide an organizational chart that shows the ownership of the licensee and the percentages owned. Individual shareholders, members or parent entity of applicant licensee must be disclosed in

full. If the business is a non-profit corporation or is publicly traded on any securities exchange, indicate so in the organizational chart.

- Minnesota Secretary of State – Resident Pharmacies.** For resident pharmacies operating under an assumed name, submit a Certificate of Assumed Name Registration. Also submit a Certificate of Good Standing from the Minnesota Secretary of State. This document shows that the applicant licensee is filed and authorized to conduct business in Minnesota.
- Prescription Monitoring Program.** Review Minnesota Statutes Section 152.126, which requires dispensers (pharmacies) licensed by the MN Board of Pharmacy to report daily to the Prescription Monitoring Program (PMP) the dispensing of all schedule II-V controlled substances, butalbital, and gabapentin. Information regarding the submission of data can be found on the PMP website under "PMP Data Uploader" section.
- Workman Compensation Requirements.** Minnesota Statute 176.182 requires the applicant to provide acceptable proof of compliance with the workers' compensation coverage provisions before the Board of Pharmacy will issue a license. Submit this certification with the application.
- List of Current Pharmacists and Technicians.** Attach a list of current pharmacists and technicians with their full name, license or registration number, and whether they are full or part-time. **See Attachment A**

Checklist of Requirements to Be Followed to License a Pharmacy

Non-resident Pharmacy

The following must be submitted to the Board ONLY AFTER the home state regulatory agency has issued a license and an inspection has been conducted at the location. The completed application, supporting documentation, and correct payment must be submitted as one complete submission. For an existing license holder that undergoes a relocation, a new pharmacy application must be submitted no later than 30 days after the change has occurred. The information must also be submitted for changes of ownership, prior to the effective date of change. Upon a change of ownership, the licensee can continue operation of the pharmacy under the original license for 14 days after the effective date of the change, or until the board issues a new license, whichever is earlier. After the 14-day period, the original license issued is void and must be surrendered by the licensee to the director of the board.

- A completed pharmacy application.** Make sure that you check all categories of licensure or service(s) that apply to your pharmacy and indicate whether you prepare sterile or non-sterile compounded preparations.
- Fee.** A \$450.00 fee made payable to the "Minnesota Board of Pharmacy." NOTE: Fees are nonrefundable.
- Blueprint or sketch of new pharmacy.** (Not needed for change of ownership only)The following must be clearly shown on the document:
 - Dimensions and layout of the proposed licensed space. Include a diagram to establish the location of the licensed space within the building, as applicable.
 - The location of the refrigerator and sink.
 - The location of the compounding area.

For sterile compounding provide an enlarged floorplan of the compounding spaces, including:

- Type of primary engineering controls (PECs).
- Locations of the PECs.
- Whether the PEC is vented to the outside.
- Location and ISO classification of all secondary engineering controls (e.g., ante, buffer/clean rooms).
- Location of pressure monitors and pressure differentials between ISO classified spaces.
- Indication and location of any pass-through(s) with specifications (e.g., interlocking, HEPA filtered).
- Types of material on floors, ceilings, and doors in all classified space.

- Proof of Federal Tax ID.**
- Certificate of Good Standing** from the state in which the pharmacy is located, obtained within the last 24 months.
- Current Home State License.** A copy of your current license/registration from the state your facility is located.
- Pharmacists.** A list of all pharmacists involved in dispensing drugs. **See attachment B**

- Ownership forms and supporting documents.** Provide information about the applicant licensee's ownership. NOTE: The applicant licensee is legally responsible for the operation of the pharmacy, and it must match any and all Secretary of State and IRS filings and must be identified on the application.
- Organizational Chart.** Provide an organizational chart that shows ownership of the licensee and the percentages owned. Individual shareholders, members or parent entity of applicant licensee must be disclosed in full.
- Prescription Monitoring Program.** Review Minnesota Statutes Section 152.126, which requires dispensers (pharmacies) licensed by the MN Board of Pharmacy to report daily to the Prescription Monitoring Program (PMP) the dispensing of all schedule II-V controlled substances, butalbital, and gabapentin. Information regarding the submission of data can be found on the PRESCRIPTION MONITORING PROGRAM website.
 - Prescription Monitoring Program – EXEMPTION FORM.** A dispenser is not required to submit data for those controlled substance prescriptions distributed through the use of an automated drug distribution system according to section 151.58 or dispensed for inpatient hospital care only. If this applies to your pharmacy, you are required to request an exemption from reporting. This form is found on the Board's Website under pharmacy licensing.
- For Central Service and Limited Service Categories.** Pharmacies that are providing central services for a Minnesota resident pharmacy or limited services for residents of Minnesota need Board approval **prior to** engaging in these services:
 - Variances.** Obtain board approval of any variance(s) related to the services offered.
 - Technicians.** For those employees engaged in central service or limited service, provide a list of technicians along with their Minnesota issued license or registration number. **See attachment C**
 - Central Service Pharmacies ONLY.** Provide a list of the pharmacies located in Minnesota that central services are performed on behalf of.
- Copy of Current Inspection Report(s).** Provide copies of all inspections conducted by your home state and/or the U.S. Food and Drug Administration within the 24 months immediately preceding the application submission. A full operational inspection report that covers all of the services (i.e. community, hospital, sterile compounding, non-sterile compounding, and hazardous compounding) the pharmacy engages in is required for licensure. Corrective actions on any deficiencies or observations made during the inspections, with all related documents must also be provided. Per MN Statutes §151.19, the Board may not issue a license unless the facility passes an inspection conducted by an authorized representative of the board. The inspection must have occurred within the 24 months immediately preceding receipt of the application. All applicants must submit evidence that any deficiencies noted in any inspection or investigatory report have been corrected, including any documents that you have provided to state agencies or the FDA in response to inspections or investigations. The Minnesota Board of Pharmacy determines if a facility has passed an inspection conducted.

Note: Some states do not conduct inspections within the necessary time frame. In this case a nonresident pharmacy must work with its home state regulatory body or a board approved third-party inspection program to get an inspection conducted.

The Board shall not issue an initial license for a pharmacy located outside of the state unless the applicant discloses and certifies:

- The location, names, and titles of all principal corporate officers (**Attachment E**) and all pharmacists who are involved in dispensing drugs to residents of this state.
- That it maintains its records of drugs dispensed to residents of this state so that the records are readily retrievable from the records of other drugs dispensed.
- That it agrees to cooperate with, and provide information to, the board concerning matters related to dispensing drugs to residents of this state.
- That, during its regular hours of operation, but no less than six days per week, for a minimum of 40 hours per week, a toll-free telephone service is provided to facilitate communication between patients in this state and a pharmacist at the pharmacy who has access to the patients' records; the toll-free number must be disclosed on the label affixed to each container of drugs dispensed to residents of this state.
- That, upon request of a resident of a long-term care facility located in this state, the resident's authorized representative, or a contract pharmacy or licensed health care facility acting on behalf of the resident, the pharmacy will dispense medications prescribed for the resident in unit-dose packaging or, alternatively, comply with section 151.415, subdivision 5.

Pharmacies also Operating as an Outsourcing Facility

A pharmacy also operating an outsourcing facility must have the outsourcing facility separately licensed as a manufacturer and a wholesaler. An outsourcing facility may not ship drug products into Minnesota before obtaining a Minnesota manufacturer license and Minnesota wholesaler license.

Tennessee Warning. The Board of Pharmacy is seeking data from you which may be considered private or confidential under the Minnesota Government Data Practices Act, Minn. Stat. § 13.01 et seq. Minn. Stat. § 13.04, subd. 2 which requires the Board to notify you of the following four matters before you are asked to supply such information about yourself: (1) This data is being collected to determine whether you meet the requirements for licensure as well as whether you have violated any statutes or rules the Board is empowered to enforce; (2) You are not legally required to complete and return this application, but failure to do so may result in the denial of this licensure application; (3) If you supply the data requested and it shows a violation of any of the statutes or rules enforced by the Board, you may be subject to disciplinary or other action by the Board. If you refuse to supply the data requested, your licensure application may be denied. In addition, falsification or omission of information may be used by the Board as a basis for disciplinary action; and (4) The data which you supply will be accessible to Board staff. The data you supply may also be released to other persons and/or governmental entities who have statutory authority to review the data, investigate specific conduct, and/or take appropriate legal action. If the Board institutes a formal disciplinary action against you, the information you supply could become public.
