Updates from the February 16th Sedation Committee meeting

Staff will obtain a copy of the minutes from the ADA’s April 20th Hearing.

1 An email has been sent out to all Board inspectors regarding review of at least three emergency
2 scenarios during an on-site sedation inspection. A team outline/protocol of these three
3 emergency scenarios should be incorporated into the Self-Inspection form checklist.

4
5 **Continued discussion regarding rulemaking recordkeeping revisions**

6 The Committee will bring forth two motions at their May 17th meeting for review and then bring
7 the two motions to the full board in July. The first motion created will be a recordkeeping rule
8 that would require obtaining Baseline BP/Pulse in patient chart as recommended by the provider.
9 The second motion created will be recordkeeping under the sedation rules for Nitrous Oxide
10 analgesia, which would include more detailed time oriented pre/post vitals.

11
12 **Review question of CE requirements specific to sedation providers**

13 Suggestions were made to put more emphasis on CE courses relating to sedation by reaching out
14 to the Continuing Education department of the schools, implementing discussion of CE into the
15 inspection process, and putting out information on the availability of sedation courses.

16
17 **Solicit questions for 2017/2018 Self-Assessment**

18 Dr. Benjamin will construct three questions on diagnosis/treatment planning and three questions
19 relating to Nitrous Oxide analgesia for the 2017-2018 Self-Assessment.

20
21 **Variance requests from 3 Dentists taking Nitrous Course from Herzing**

22 Three dentists took a nitrous course from Herzing University and are requesting a variance to the
23 Rule which requires dentists to only take a nitrous course through either a CODA dental school
24 or post-graduate dental course.

25
26 **Motion made to grant the variance.**

31 **Other - Doc's Education Invite**

32 The Board received an invitation from DOCS Education to attend one of their courses. Bridgett
33 will follow-up with Dr. Walker to see if he will be attending the course.

34
35 **Discharge Recommendation from Dr. Marlow**

36 Dr. Marlow presented discharge criteria's that he uses in his office. Dr. Marlow will create a
37 discharge criteria sample document to be included in the sedation inspection checklist.

38
39 Recommendations were made to add monitoring temperature and emergency medication,
40 AndroLean, to the sedation inspection form. Dr. Marlow will type up the correct language and
41 will forward it to staff to make the changes on the sedation inspection form.
