

April 8, 2020

Governor Walz will do a daily update at 2 pm today to discuss the stay-at-home order and other modifications to the Peacetime Emergency.

- The Governor's most recent EO related to dentistry allows us to waive late fees for individuals on renewals

The Board of Dentistry met yesterday and last week and has made decisions on the following in order to assist licensees at this unprecedented time:

- Postpone CE auditing until the next cycle
- Postpone terminations for individuals that report a financial hardship and cannot renew their license

We are also developing solutions for students regarding examinations and the current postponement of many dental exams. This update page will also be the place in which you will find further information every few days.

Last month and currently, the Board of Dentistry has been working with stakeholders from the UMN Dental School, HealthPartners, Delta Dental, MN Dental Association, Private Practice, Public Health, and Allied Dental Programs to work on solutions to phase back into practice. We will all find solutions together and we need you too! If you have inventive ideas that you have been doing or want to share please reach out!

Best,

Bridgett Anderson LDA, MBA
Executive Director
