

Helpful Hints for Successful Studying and Testing

Below are some helpful hints we have heard from our testing company and schools.

To schedule an exam, visit:
www.psiexams.com

Check Out the Exam Content Outlines

Our testing vendor, PSI, produces a [Candidate Information Bulletin \(CIB\)](#)  which contains a content outline for each exam. You will also find a list of the resources used in each exam if you are seeking an appropriate textbook to study from.

Pay Attention to the Weights of Each Topic

Every exam contains a weighted amount of questions from each category outlined within the CIB which can help you focus your studies. Additionally, a failing exam score report provides a breakdown of exam categories and shows the number of items the candidate got correct in each category. You can use the score report to further target your studying to the areas in which you were least successful.

Take One Exam at a Time

It can be overwhelming to take two or more exams in the same day. You may find it helpful to focus your studies and maximize your success by scheduling one exam at a time.

Seek Outside Resources

If you feel you are struggling with the exams, it may be helpful to seek outside assistance from a school or other training resource.

Good luck! You've got this!
