

**COLLABORATIVE PRACTICE VERIFICATION FOR PHYSICIAN ASSISTANTS**

**Minnesota Statutes, section 147A.02(c) states the following:**

A physician assistant who qualifies for licensure must practice for at least 2,080 hours, within the context of a collaborative agreement, **within a hospital or integrated clinical setting** where physician assistants and physicians work together to provide patient care. The physician assistant shall submit written evidence to the board with the application, or upon completion of the required collaborative practice experience. For purposes of this paragraph, a collaborative agreement is a mutually agreed upon plan for the overall working relationship and collaborative arrangement between a physician assistant, and one or more **physicians licensed under chapter 147**, that designates the scope of services that can be provided to manage the care of patients. The physician assistant and one of the collaborative physicians must have experience in providing care to patients with the same or similar medical conditions. The collaborating physician is not required to be physically present so long as the collaborating physician and physician assistant are or can be easily in contact with each other by radio, telephone, or other telecommunication device.
