

BOARD OF NURSING

Obtaining a School Nurse License

To become a licensed school nurse in Minnesota requires a two-step process. Prior to applying to the Professional Educator Licensing and Standards Board for a school nurse license, a nurse must be registered with the Minnesota Board of Nursing as a public health nurse (PHN). A PHN is not required to have a school nurse license if the nurse is not working in a school setting.

School Nurse Licensure

To be a licensed school nurse (LSN) in Minnesota, a nurse must obtain a school nurse license issued by the Minnesota Professional Educator Licensing and Standards Board. The Professional Educator Licensing and Standards Board requires submission of the nurse's PHN registration as part of the application process for a school nurse license. Application for a school nurse license may be made to the Professional Educator Licensing and Standards Board at: <https://mn.gov/pelsb/>. Review the [School Nurse Licensure Information](#) document on the Minnesota Professional Educator and Licensing Standards Board for detailed information regarding school nurse licensure:

The license is required according to Minnesota Statutes sections 122A.15 and 122A.18:
<https://www.revisor.mn.gov/statutes/?id=122A>.

Minnesota Rules Part 8710.6100 (<https://www.revisor.mn.gov/rules/?id=8710.6100>) describes the Minnesota Professional Educator Licensing and Standards Board's requirements for licensure as a school nurse. The requirements are:

- Hold a baccalaureate degree in nursing from a regionally accredited college or university;
- Be currently registered in Minnesota to practice as a licensed registered nurse under the Board of Nursing; and
- Be currently registered in Minnesota as a public health nurse under the Board of Nursing.

Registration as a Public Health Nurse

The requirements for registration as a PHN are found in Minnesota Rules Chapter 6316 and include the following:

- Must be licensed and currently registered to practice professional (registered) nursing in Minnesota.
- Must have a baccalaureate or higher degree with a major in nursing. The applicant's course work must have included theory and clinical practice in public health nursing. The theory portion of the public health nursing education must have been at least 30 hours in length. The PHN nursing content in a hospital diploma or associate degree program does not qualify.

Information on the relevant law and additional rules about PHN registration may be accessed at the Board of Nursing website: <https://mn.gov/boards/nursing>. Click on the "RN and LPN Licensure" tab for the link to access forms to apply for registration as a PHN.

Questions about PHN registration may be directed to the Board of Nursing at (612) 317-3000.

Questions about school nurse licensure may be directed to either the Professional Educator Licensing and Standards Board at (651) 539-4200 or the Board of Nursing at (612) 317-3000.

Questions about nursing practice may be directed to the Board of Nursing at (612) 317-3000.

The Minnesota Department of Health has Public Health Nurse Consultants available to the public and school personnel to assist with school health issues
