- Health and Wellness
- Dental related community service
- Instructing dental continuing education courses
- General attendance at state or national conventions (3 credits)

Elective Courses not accepted:

- Estate planning
- Financial planning
- Marketing
- Investing

Infection control

Each licensee must complete an infection control course during each biennial cycle period. The course must primarily address patient safety and health issues as referenced in part [3100.6300](#) and chapter [6950](#).

Retention of documentation

Each licensee shall establish a portfolio to record, monitor, and retain documentation of fundamental and elective professional development activities.

A licensee must keep documentation for each fundamental and elective activity as required to meet professional development requirements. The licensee must retain the documentation for the current biennial renewal cycle and the previous completed biennial cycle for purposes of an audit by the board.

See **Professional Development Rules** [3100.5100](#)
