

RN AND LPN REVIEW COURSE REQUIREMENT INFORMATION

If it has been five years or more since an applicant completed either a professional or practical nursing program, or if the applicant has not successfully passed the licensing examination within 5 years of completing their professional or practical nursing program, the applicant is required to complete a Review Course before taking the NCLEX-RN[®] or NCLEX-PN[®] licensure examination.

A review course is a planned program of study that reviews basic nursing knowledge and the context of care delivery within the scope of practice for a professional or practical nurse. The Board of Nursing does not endorse or require completion of any specific review course. Courses vary in delivery format, length and cost. The program from which you graduated may offer a review course; you may wish to contact them to determine availability. The applicant may select and complete any Review Course as long as the course:

- Reviews basic nursing knowledge
- Addresses the context of care delivery
- Focuses on either the professional or the practical nurse scope of practice
- Provides a certificate of completion/written verification of completion and the date of completion that affirms the above elements were met (and/or) submit the completed *Affidavit of Successful Completion of Review Course for Licensure* form.

For your convenience, below is a list of several Review Courses that meet these requirements. This list is not all inclusive:

- [ATI Comprehensive Review Course \(Virtual or Live\)](#)
- [Capscare NCLEX Review](#)
- [CIC NCLEX Review](#)
- [Excell NCLEX Review Course](#)
- [Feuer Nursing Review](#)
- [Hurst Review](#)
- [IPASS Processing](#) (RN Review Course)
- [Kaplan Review](#)
- [Judy Miller NCLEX Review/NTC Nursing Tutorial and Consulting Services](#)
- [NCLEX Education Canada](#)
- [Rachell Allen's NCLEX Review/Boot Camp](#)
- [Ready to Pass Review Course](#) (Virtual or Live; Must complete all five modules for credit)
- [ReMar NCLEX Review Course](#)

The review course must be completed after the Board has received your most recent licensure by exam or exam retake application.
