Requesting Entity Name Human Services Department

Request Title Minnesota Provider Screening and Enrollment (MPSE) Applicati

Request Description The Minnesota Department of Human Services (DHS) is one of the largest payers of health care in Minnesota. DHS provides health care services to approximately 862,000 Minnesotans through a combination of federal and state health care programs, including Minnesota's Medicaid program, Medical Assistance (MA), and MinnesotaCare (a subsidized health care program for people who live in Minnesota and do not have access to health insurance). These combined health care programs are jointly referred to as Minnesota Health Care Programs (MHCP). Federal provider screening regulations require all health care providers who enroll in federal health care programs, including Medicaid, to undergo a "Risk-Based Provider Screening" process. Enrolled providers must be "revalidated" at least once every five years and must also go through the same "Risk-Based Provider Screening" process as new enrollees.

MN-DHS estimates it will need to perform approximately 50,000 provider enrollment screenings annually. Current staff and systems cannot process this high volume of screenings.

To solve this problem and process provider enrollment and renewals in compliance with the federal provider screening regulations, DHS has launched a large IT project to build a system called the Minnesota Provider Screening and Enrollment (MPSE) portal.
