

Select Five Number SF0026
Requesting Entity Name Office of MN.IT Services
Request Title Drainage Records Modernization and Statewide GIS Database Project
Request Description Contractor to help MnGeo (Minnesota Geospatial Information Office) and BWSR (Board of Water and Soil Resources) with the deliverables: (1) to develop a GIS database template to contain Minnesota public drainage system records and (2) update the 2008 Drainage Records Modernization Guidelines document. First, the work entails working alongside MnGeo, BWSR and a Project Advisory Committee (PAC) composed of various members of the public drainage community such as representatives of drainage authorities, hydrologists, land planners and others to define objectives, business requirements and data standards for the two project deliverables. Then the contractor will be required to develop preliminary, prototype and final versions of the database template (including metadata) and updated guidelines document. Both deliverables will be reviewed/tested by MnGeo, BWSR and the PAC. Finally, the contractor will help MnGeo and BWSR make the final two project deliverables available through the Minnesota Geospatial Commons and disseminate information about them to the broader public. Contractor work status reporting will be required at regular intervals and on an as-needed basis.

Contract(s) Awarded

Contract ID 89189

Entity Type

State Agency

Information on contracts executed by an entity type of State Agency can be found using the contract ID in the MN Open CheckBook under TransparencyMN located at <http://mn.gov/mmb/transparency-mn/>.

For information on contracts executed by an entity type other than State Agency you will need to contact that entity directly using the contact information that was provided in the Select Five.
