2025-2026 Biennial Legislative Agenda

Each even number year of the biennium, the Council deploys a biennial survey to identify and understand the most pressing issues in our communities across the state. In continuing methods first implemented during the pandemic, we deployed the survey using a hybrid online and in-person model to capture a wide range of feedback from our diverse APM communities. In recognizing that communities experience unique barriers, the Council partnered with our nonprofit organizations to disseminate the survey via online through social media channels, email distribution lists, and community events. The results of this survey help to inform the Council’s legislative work over the coming biennium.
