

Attachment 2: Eligible Federal Funding Opportunities

The below list contains federal funding opportunities currently eligible for [State Competitiveness Fund \(SCF\) Matching Funds program](#) awards.

Previously, only programs funded through the Inflation Reduction Act (IRA) or the Infrastructure Investment and Jobs Act (IIJA – also known as the Bipartisan Infrastructure Law (IIJA)) were eligible; all future rounds will include other pre-approved federal programs. If an opportunity is not currently listed, but you believe it may qualify, [please complete this form](#). The process for adding federal funding opportunities to the list will be the same process as used to create past lists, with a review to verify the eligible energy-related projects for which the federal funding program can be used and confirmation that submissions will help to reach State of Minnesota Clean Energy and energy-related Climate Action Framework Goals. An updated list will be also be posted on Commerce’s website and an email notice will be sent to the contact-of-record for the entities that have downloaded the RFP. Please send any questions to SCFMatchProgram.COMM@state.mn.us.
