COMM Report: Station Summary Report

Dear Retailer:

The 2023 Minnesota Legislature amended **Minnesota Statutes 239.791, Subd. 8. Disclosure; reporting** to read:

> (c) On or before the 23rd day of each month, a person responsible for the product must report to the department, in the form prescribed by the commissioner, the gross number of gallons of intermediate blends sold at retail by the person during the preceding calendar month. The report must identify the number of gallons by blend type. For purposes of this subdivision, "intermediate blends" means blends of gasoline and biofuel in which the biofuel content, exclusive of denaturants and other permitted components, is greater than ten percent and no more than 50 percent by volume. This paragraph only applies to a person who is responsible for selling intermediate blends at retail at more than ten locations. A person responsible for the product at fewer than ten locations is not precluded from reporting the gross number of intermediate blends if a report is available.
> (d) All reports provided pursuant to paragraph (c) are nonpublic data, as defined in section 13.02, subdivision 9.

This statute was effective July 1, 2023. This is the form, prescribed by the commissioner, for you to provide the data to Commerce.

Station Name: _____

Address, City: _____

Responding to this request helps identify E85 and mid-blend trends in Minnesota. As station reporting increases, we have more accurate sales data for analysis and reporting. By submitting the information requested above, either on this form or in another format, you consent to the release of this information to the American Lung Association of Minnesota (ALA). ALA will not release any data specific to your company, and will only use the data on this request to prepare de-identified aggregated information reports for purposes of analysis, ethanol promotion and maintenance of E85 station maps. See Commerce Website for historical data and resources: https://mn.gov/commerce/business/weights-measures/fuel/biodiesel/ethanol.jsp

Thank you for taking the time to respond.
