

DRAFT 8-13-2025

Minnesota Prescription Drug Affordability Board

Mission and Vision Statement

The Minnesota Prescription Drug Affordability Board is committed to advancing the health and well-being of all Minnesotans by ensuring access to affordable prescription medications.

Our Vision is a future Minnesota where all patients can afford and access the prescription drugs they need and where the overall cost of prescription drugs is sustainable for the health care system as a whole.

DRAFT 8-13-2025

Minnesota Prescription Drug Affordability Board Values Statement

The Minnesota Prescription Drug Affordability Board members and staff are committed to:

Promoting affordability and access to prescription drugs for all Minnesota patients, including patient communities disproportionately impacted by high prescription drug costs

Soliciting and encouraging patient engagement through listening sessions and direct outreach to a broad and inclusive range of patient communities

Carefully considering and incorporating patient and stakeholder feedback in all our work

Ensuring open and transparent deliberations and letting data drive our decision making

Always focusing on the impact our decisions will have on patients' access to the medications they need

Conducting our work with integrity and accountability

Being responsible stewards of the data and information that we collect and use in our work
