¹ **Protocol for Considering a Group Rating**

Section 8B(4) of the NAIC *Credit for Reinsurance Model Regulation* (#786) provides, in relevant part: “Each certified reinsurer shall be rated on a legal entity basis, **with due consideration being given to the group rating where appropriate...**” Understanding the rating agency basis for utilizing a group rating is a key factor in determining whether an applicant’s group rating may be considered appropriate. The recommended protocol for understanding the rationale involves one or more of the following protocol steps:

- For reasons set forth in the rating agency report or its published ratings standards or guidelines, the rating agency utilizes the group rating as a consequence of finding that the company had sufficient interconnectivity with the group;
- For reasons set forth in the rating agency report or its published ratings standards or guidelines, the rating agency enhances the group rating due to the subsidiary’s potential benefit of capital support from one or more affiliated companies;
- The group rating was utilized because the subsidiary derives benefit from its inclusion within a financially strong and well-capitalized insurance group;
- The lead state has contacted the rating agency and was provided a written explanation for the use of the group rating;
- Other factors deemed appropriate by the Reinsurance Financial Analysis (E) Working Group; or
- To assist the Lead State in the assessment of the appropriateness of the use of a group rating, applicants are encouraged to provide their rationale for the use of a group rating.
