MINNESOTA
PUBLIC FACILITIES AUTHORITY

Recipient: City of Windom

Project: Advanced treatment and facilty rehab

Award Date: January 2, 2019

Total Project Cost: $18,941,979

Description: The project consists of advanced treatment improvements to meet nutrient limits, rehabilitation of existing treatment facility components, and CIPP lining of sanitary sewer lines.

Project Funding:

Entity	Funding Source	PFA Funding ID	Amount
PFA:	Point Source Implementation-Grant	MPFA-PSIG-G-054-FY19	$ 6,317,646
	Clean Water SRF-Loan	MPFA-CWRF-L-054-FY19	$ 9,624,333
	(20 years at 1.000%, estimated savings to recipient is $1,213,886)		
	SPAP 2018 Windom - WW Treatment Facility	MPFA-SPAP-G-047-FY19	$ 3,000,000
	Note: the SPAP was awarded previously, on 10/30/18		
total project costs:			$ 18,941,979

More about the Minnesota Public Facilities Authority and its Programs:

The Minnesota Public Facilities Authority (PFA) provides financing and technical assistance to help communities build public infrastructure that protects public health and the environment and promotes economic growth.

Clean Water Revolving Fund (also known as the Clean Water State Revolving Fund or CWSRF):

The CWSRF is supported by federal capitalization grants from the U.S. Environmental Protection Agency and state matching funds. These funds, together with PFA revenue bond proceeds, are used to make low interest loans to cities throughout the state for wastewater and stormwater infrastructure projects. Loan repayments revolve back to make new loans, providing a permanent source of low-interest capital to help cities finance clean water infrastructure projects. Since its start in 1990,Minnesota's CWSRF has awarded more than 530 loans for over $3 billion, providing over $667 million in interest savings to local governments and their taxpayers.

Point Source Implementation Grants (PSIG):

The PSIG program provides grants to help cities upgrade water treatment facilities to reduce their discharge of specific pollutants to meet water quality restoration and protection goals.
