| SW Mn PIC | 5 | 4 | 4 | 2 | 3 | 3 | \$ 26.58 | 2 |

Data Observations

- Participants are being enrolled in the program (completing intake) but do not have a credentialed training activity open.
- Be mindful that participants are eligible to receive a limited amount of support services upon enrollment but should become enrolled in a training activity due to that initial assistance.
- Exiting to employment is the primary focus of this program, more specifically those exiting the program to employment within the industry trained. Data shows that 21% of those that exit the program to employment, exit for an industry other than the one they trained for.
- The average wage at exit is good and well aligned with the number of participants exiting to employment in other industries.
- Are participants enrolled in training begin accurately reflected in WF1? Are the correct activities being opened?
- Are participants exiting from the program accurately?
- Running reports being run and reviewed for accuracy on a regular basis, such as submitting quarterly reports, is the data being double checked for accuracy.

Individual Part 2 Provider Performance Data

| 7/1/2023-4/1/2025 | Total Number of Employees Completing Diversity, Inclusion, & Retention Training | Total Employers Connected to Sector Training Programs | Total Number of Placements Facilitated | Total Number of Direct Placements |
|--|--|--|---|--|
