

Minnesota BEAD Contractor Directory

Up to date as of **2/18/2026**

The Minnesota Broadband Equity, Access and Deployment (BEAD) directory is a voluntary list consisting of the names and contact information of the contractors and subcontractors that have requested to be included in the directory.

The directory is not an exhaustive list of all the contractors and subcontractors in the state of Minnesota or working in the state of Minnesota, and the Office of Broadband Development (OBD) does not endorse or vet any of the companies or individuals listed. OBD reserves the right to discontinue the directory at any time.

A marked (☒) box in the table below indicates that the organization represented to OBD that they have participated or will participate in the specified optional practices listed in the bullet points below:

- **Practice 1, Training Program:** Contractors and subcontractors of sub-grantee applicants have participated or will participate in either (a) an industry association, state, or federally recognized registered apprenticeship program or (b) a joint union/contractor training center.
- **Practice 2, Certified Drug Testing:** Operators of equipment who are in the workforce installing broadband networks around existing utilities will have passed a certified drug test.

If a cell is blank, the organization did not represent to OBD they have participated or will participate in either of the listed practices.

To be included in the Minnesota BEAD Contractor Directory, please complete the [BEAD Contractor Directory Form](#).

For questions about this directory, please email deed.broadband@state.mn.us.

For more information on BEAD in Minnesota, visit Minnesota's BEAD webpage: mn.gov/deed/programs-services/broadband/bead/.
