

Dashboard Reports

There are now six dashboards reflecting different aspects of our three main employment and training programs in Minnesota:

- Workforce Investment Act (WIA)
- Wagner-Peyser (WP) Program
- State-funded Dislocated Worker Program

In all reports, you are able to drill down to local Workforce Service Areas or WorkForce Centers (in the provider drop-down menu). All official performance measures are contained in a drop-down menu which is below the provider drop-down menu. Dashboards are updated monthly.

- *Workforce Performance* dashboard shows all of the above programs plus American Recovery and Reinvestment Act (ARRA). It is a composite report reflecting all of the most important employment and training programs in Minnesota.
- *Workforce Benchmarking* dashboard shows percent-of-plan performance. Total Dislocated Worker includes WIA Dislocated Worker and State Dislocated Worker performance.
- *WP Performance* dashboard shows Wagner-Peyser performance by WorkForce Center. This data includes walk-ins to the WorkForce Center as well as users who access MinnesotaWorks.net.
- *WIA Performance* dashboard shows WIA Adult, WIA Dislocated Worker and WIA Youth as well as State Dislocated Workers as standalone programs.
- *WIA Flow* dashboard shows program participants (new registrants, served, in-program, and exited) over time by program.
- *National Benchmarking* dashboard shows Minnesota compared with other states for various performance measures for the most recent program year in which national data is available.

Accessing the Dashboards

Follow these instructions for accessing Minnesota's dashboards:

- Visit www.futureworksdashboard.org
- Use the following login information:
 - Username: mndashboards
 - Password: mn4512

To access the national dashboards, see [WIA Dashboards](#).
