STATE AGENCIES AND OTHER RESOURCES ..............44
Export and Trade Counseling and Assistance

Our Trade Managers in the Minnesota Trade Office (MTO) guide companies through the challenges of conducting international business and have answers for their most pressing questions.

The trade managers provide:

☑ Basic guidance for companies new to exporting
☑ Technical, regulatory and logistical information for more experienced companies
☑ Market intelligence and research
☑ Help with the art of conducting business across borders and cultures

The MTO offers educational seminars, workshops and export events. See page 38 for details.

Minnesota-based companies interested in exporting may also use the services of our foreign offices — consultations must be arranged through our Minnesota-based staff.

In addition, the MTO serves as the Minnesota Office of Protocol, ensuring the State’s appropriate diplomatic etiquette and practices, and serving as the State’s liaison with the diplomatic community – the Minnesota Consular Corps.

Eligibility

The Trade Office provides the training and expertise that small and midsized companies need to export goods and services successfully worldwide.

For more information

mn.gov/deed/business/exporting
Location and Expansion Assistance
If you’re looking to expand an existing business, relocate from another state, or need guidance for a complex startup, expansion or relocation, the Department of Employment and Economic Development (DEED) can help. DEED consultants have the right background, information and connections to other state and local agencies to help turn your plans to reality.

Consultants include:

✓ DEED business development managers who are stationed in the Twin Cities metro area and key regions throughout the state. They work closely with companies of all types to help them locate and expand in communities throughout Minnesota. These services may include:
  » Industry specialist initiatives
  » Comprehensives site selection
  » Project management

✓ International investment assistance is available to facilitate and expedite the location and operational process for businesses originating outside of the U.S. In addition to DEED staff, the State has foreign offices to assist businesses considering investments in Minnesota

For more information

mn.gov/deed/business/help/location-assist
Made in Minnesota Directory
The Made in Minnesota (MIM) Directory of manufacturers is a free online directory of products and supplies manufactured right here in Minnesota. It makes it easy for companies to find — and be found — by home state suppliers. Working with local suppliers can save time, money and promote the local economy.

Manufacturers and other consumers can find components and final goods, from bakeries, breweries, food, jewelry and shoes to electronics, fabricated metal components, machinery, pharmaceuticals and renewable energy products. Search by product, company name, county, industry, quality certification and renewable energy. Contact information, top products and number of employees are accessible with a few clicks.

Eligibility
Businesses that have manufacturing operations in Minnesota are eligible to register in the directory. The directory is available to virtually anyone from anywhere who wishes to use it.

For more information
mn.gov/deed/madeinmn
Minnesota Business First Stop

Minnesota Business First Stop streamlines the development process for complex business startups, expansions or relocations that involve financing, licensing, permitting and regulatory issues that overlap multiple state agencies.

The Right People, the Right Answers, the Right Time

We take the confusion out of starting, expanding or relocating a complex business in Minnesota by helping to coordinate all state agencies that have a role in the development process.

Licensing, permitting and regulatory matters. Financial assistance. Site selection and more. The First Stop Team cuts through the thicket of state agencies, programs and services to find the right answers and the right resources to make your project happen quickly and successfully.

First Stop Team Partners

Minnesota Business First Stop is managed by DEED and includes representatives from these state agencies:

- Department of Commerce, Division of Energy Resources
- Department of Natural Resources
- Department of Transportation
- Department of Labor and Industry
- Department of Revenue
- Minnesota Pollution Control Agency
- Department of Agriculture
- Iron Range Resources & Rehabilitation Board

Minnesota Marketing Partnership
This public-private partnership works together to develop a broad-based marketing initiative to promote Minnesota and its business economy at local, regional and national venues. Your input helps influence and shape Minnesota’s economic development marketing strategy.

As a Minnesota Marketing Partnership partner, you can leverage your marketing dollars and help increase Minnesota’s visibility to site selectors and corporate real estate managers statewide, regionally and nationally.

You also increase the visibility of your community, organization or region by participating as a sponsor in the various events and activities offered throughout the year.

The Business Development Office administers the partnership.

Join the Minnesota Marketing Partnership
The Minnesota Marketing Partnership is an annual membership effective Jan. 1 to Dec. 31 of each calendar year.

For more information
mn.gov/deed/business/help/mn-marketing
Small Business Assistance
The Small Business Assistance Office provides the in-depth information that is so crucial to business success yet too costly for many business people to obtain on their own.

The office offers individual consultation services along with a comprehensive series of business guidebooks.

Consultants field all kinds of inquiries, ranging from complex tax, regulatory, financial, managerial and business structure to basic questions, such as:

- What form do I need to file?
- Where do I get the form?
- With whom do I file it?

Eligibility
In general these services are available to any business with fewer than 500 employees.

For more information

mn.gov/deed/sbao
Small Business Development Centers

The statewide network of Small Business Development Centers (SBDCs) provides the professional expertise and guidance that every small business owner needs to flourish in today’s competitive and ever-changing business world.

SBDCs provide:

✓ One-on-one professional and confidential business consulting at no-cost
  » Pre-venture businesses — Entrepreneurship readiness assessments, business planning assistance, buying or selling a business
  » Startup businesses — Getting started, bookkeeping and accounting help, marketing assistance, website development and using social media, financial analysis
  » Established businesses — Managing business expansion and growth, improving cash flow, succession planning, international trade, turnaround assistance for struggling businesses

✓ Assistance in accessing capital. We can help to identify and secure financing from traditional and non-traditional sources

✓ Training programs. We provide training programs at a nominal cost on every subject pertinent to owning and operating a business

Eligibility

In general these services are available to any business with fewer than 500 employees.

For more information

mnsbdc.com
Angel Loan Fund Program
The Angel Loan Fund (ALF) Program provides an additional funding option for businesses that are certified to participate in Minnesota’s Angel Tax Credit Program.

The program provides a direct loan for 10 percent of the total amount of new equity investment that the business raises from one or more investors. Only one loan may be issued to each business. At least one equity investment must be made by an investor that has been both certified by the Minnesota Angel Tax Credit Program and qualified as an accredited investor per the U.S. Securities and Exchange Commission. The maximum loan cannot be more than $250,000; the minimum loan available is $20,000.

ALF provides loans at zero-percent interest and a seven-year term. Payments are deferred, with a balloon payment in seven years. If the business is sold during the term, the business will submit risk mitigation fee compensation equal to 30 percent of the original loan principal.

Eligibility
Businesses certified to participate in the Angel Tax Credit Program in any of the program years and currently with fewer than 500 employees are eligible applicants.

For more information
mn.gov/deed/business/financing-business/deed-programs/alf
Emerging Entrepreneur Loan Program

The program supports the growth of businesses owned and operated by minorities, low-income persons, women, veterans and/or persons with disabilities.

DEED provides funding to certified nonprofit partners to make loans to these Minnesota businesses throughout the state. The program is designed to encourage private investment, provide jobs for minority and low-income persons, create and strengthen minority business enterprises, and promote economic development in low-income areas.

Eligibility

Startup and expansion costs, including normal expenses such as machinery and equipment, inventory and receivables, working capital, new construction, renovation and site acquisition, are eligible for the program. Finance of existing debt is not permitted. Private match of programs funds is required.

Businesses in most industries are eligible. However, a retail business is only eligible if it is a beginning microenterprise, defined as businesses that have fewer than five employees and has generated sales revenue for two years or less.

Businesses should apply directly with a certified lender. Once the lender approves the loan, they will forward the loan package to DEED for approval by the commissioner and disbursement of funds for the project.

For more information

mn.gov/deed/business/financing-business/deed-programs/elp
Indian Business Loan Program
This program supports the development of Indian-owned and operated businesses and promotes economic opportunities for Indian people throughout Minnesota.

Loan proceeds may cover startup and expansion costs, including normal expenses such as machinery and equipment, inventory and receivables, working capital, new construction, renovation and site acquisition.

Eligibility
Applicants must be enrolled members of a federally recognized Minnesota-based band or tribe. Businesses must be wholly owned by an enrolled member and can be located anywhere in the state, although the bulk of the loans are made to businesses on a reservation.

 Owners must provide a portion of the financing needed to undertake the project. Financing of existing debt is not permitted.

For more information
mn.gov/deed/business/financing-business/deed-programs/indian
Innovation Voucher Program
This program helps connect small businesses developing innovative new products or services with the highly technical resources and services they need to fully commercialize their products. Vouchers can be used to help purchase specialized technical development and commercialization services from public higher-education and non-profit organizations based in Minnesota.

Funds available under this program may be used by a small business to access technical assistance and other services such as research, technical development, product development, commercialization, technology exploration and improved business practices. Up to $25,000 is available per business. Vouchers require a 50 percent match by recipients.

Eligibility
Companies with 40 or fewer employees, with at least half of the employees based in Minnesota, may apply. Recipients must provide a cash match equal to 50 percent of the voucher award. For example, under the matching requirement, a company that receives the maximum award of $25,000 must contribute at least $12,500 towards the total cost of the project.

Note
Unfunded for 2018

For more information
mn.gov/deed/business/financing-business/deed-programs/voucher
Minnesota Investment Fund
This program provides up to $1 million in financing to help add new workers and retain high-quality jobs. The program focuses on industrial, manufacturing and technology-related industries and aims to increase the local and state tax base and improve economic vitality.

Eligibility
Funds are awarded to local units of government that provide loans to assist expanding businesses. Cities, counties, townships, selected economic development organizations and recognized Indian tribal governments are eligible. Local government submits an application on behalf of the expanding business.

All projects must meet minimum criteria for private investment, number of jobs created or retained and wages paid.

At least 50 percent of total project costs must be privately financed through owner equity and other lending sources.

Local Loan Funds
Over the years, many communities that participated in MIF have created local revolving loan funds that complement MIF loans. These loan programs are accessed directly through the local government.

For more information
mn.gov/deed/business/financing-business/deed-programs/mif
Minnesota Job Creation Fund
This program provides financial incentives to new and expanding businesses that meet certain job creation and capital investment targets.

Companies deemed eligible to participate may receive up to $1 million for creating or retaining high-paying jobs and for constructing or renovating facilities or making other property improvements. For extremely large projects, companies may be eligible to receive up to $2 million. Award amounts depend on job creation and investment levels.

Eligibility
The program is available to businesses engaged in select industries including manufacturing, warehousing, distribution and technology-related industries, among others. Business submits an application which must include local government support documents.

To be eligible, the business must meet requirements including:

✓ Invest at least $500,000 in real property improvements and create at least 10 full-time jobs if the business is located in the Twin Cities area

✓ Invest at least $250,000 in real property and create at least 5 full-time jobs if the business is located in Greater Minnesota or owned by minorities, women, veterans or persons with disabilities

✓ Meet wage and compensation requirements

✓ Have other location options outside of Minnesota

✓ Operate in an eligible industry

mn.gov/deed/business/financing-business/deed-programs/mn-jcf
**Minnesota Minerals 21st Century Fund**

This program makes loans or equity investments in innovative mineral processing facilities, such as taconite processing, direct reduction processing and steel production.

Loans or equity investments from the fund require matching investments from facility owners. For facilities in the state’s taconite tax relief area, the Iron Range Resources and Rehabilitation Board may match the fund’s investment.

**Eligibility**

Owners of innovative mineral processing facilities are eligible.

**For more information**

[mn.gov/deed/business/financing-business/deed-programs/minerals](http://mn.gov/deed/business/financing-business/deed-programs/minerals)
Minnesota Reservist and Veteran Business Loan Program
This program provides loans to companies that are affected when certain employees are called to active military duty. It also gives loans to individual veterans who have returned from active duty and want to start their own business.

The program provides one-time, interest-free loans of $5,000 to $20,000.

Eligibility
Business loans are for existing small businesses that have an essential employee called to active service in the military reserves for 180 days or longer on or after September 11, 2001. The business must be injured substantially due to the employee's absence.

Startup loans are for veterans who were on active duty on or after September 11, 2001, seeking financial assistance to start their own businesses.

For more information
mn.gov/deed/business/financing-business/deed-programs/reservists
STEP Grant Program: Export Assistance

This program provides financial and technical assistance to qualifying small businesses with an active interest in exporting products or services to foreign markets.

Participants may be first-time exporters or companies that are currently exporting but are interested in expanding into new international markets.

Financial Assistance Available

Small businesses may apply for reimbursement of up to $500 for export-training or up to $7,500 for approved export-development activities, including:

- Participation in trade missions
- Exhibiting at trade shows or industry-specific events
- Translation of marketing materials
- Development of foreign language websites
- Gold Key or other business matchmaking services
- Company-specific international sales activities
- Testing and certification (such as CE marking) required to sell products in foreign markets

Eligibility

Activities must be pre-approved in order to be eligible for reimbursement. Companies MAY NOT APPLY for reimbursement for activities that have already taken place.

To apply visit the DEED website for application form, instructions and complete eligibility requirements.

For more information

mn.gov/deed/business/exporting/export-financing/index.jsp
Tourism Business
Septic Tank Replacement
This program makes low-interest financing available to existing tourism-related businesses that provide overnight lodging and need to replace a failed septic system.

Participation loans in cooperation with financial institutions can be made for up to 50 percent of the total cost of the project.

Eligibility
Corporations, sole proprietorships or partnerships engaged in an existing tourism-related business that provide overnight lodging are eligible, including: resorts, bed and breakfast inns, hotels, motels, ski lodges, campgrounds and recreational vehicle trailer parks.

Projects that replace an existing septic system that has failed are eligible. However, project costs incurred more than 30 days before submission of a completed application are ineligible. Applications are not considered complete until DEED has approved the loan.

For more information
mn.gov/deed/business/financing-business/deed-programs/septic-tourism
Border Cities Enterprise Zone Program
This program provides tax credits to qualifying businesses that are the source of investment and job creation or retention in the cities of Breckenridge, Dilworth, East Grand Forks, Moorhead, Ortonville and Taylors Falls. Tax benefits include property tax credits, debt financing credit on new construction, sales tax credit on construction equipment and materials, and new or existing employee credits.

Eligibility
Businesses locating or existing in those cities are eligible, unless they are:

✓ Recreation or entertainment facilities
✓ Owned by a fraternal or veteran’s organization
✓ Owned by a public utility
✓ Used in operation of a financial institution
✓ Owned by a retail food or beverage service business operating under a franchise agreement requiring the business to be located in the state

For more information
mn.gov/deed/business/financing-business/tax-credits/border-cities/index.jsp
Data Centers
This program provides sales tax exemptions that build or refurbish data centers. The 20-year sales tax exemption applies to the purchase of computers, servers, cooling and energy equipment, energy use and software.

Eligibility
Companies building new data or network operation centers of at least 25,000 square feet must invest at least $30 million in the first four years to qualify for the tax break.

Companies refurbishing existing data or network operation centers of at least 25,000 square feet must invest $50 million in the first two years to qualify for the tax break.

For more information
mn.gov/deed/business/locating-minnesota/industries-sectors/data-centers/employment.jsp
**Foreign Trade Zones (FTZs)**

Foreign Trade Zones (FTZs) provide two major benefits that can save businesses time and money: Minimization of duty/import user fees and quicker supply chains. They can help businesses reduce or eliminate duty payments and merchandise processing fees, accelerate global supply chains, and improve their competitive position in domestic and foreign markets.

FTZs are commerce sites set up in or near U.S. Customs ports of entry where merchandise is considered legally outside U.S. Customs territory. They are generally used for storage, testing, cleaning, processing, assembling, manufacturing, re-labeling, repackaging, displaying, exhibition and repairing of merchandise.

Minnesota has three FTZs:

- ✔ Greater Metropolitan Area Foreign Trade Zone (GMAFTZ)
- ✔ Duluth Seaway Port Authority Foreign Trade Zone
- ✔ International Falls Foreign Trade Zone

DEED’s Business Development Office administers the GMAFTZ. Minnesota’s FTZs have magnet site locations that offer businesses leased storage or distribution space that can be quickly brought online.

In addition, businesses anywhere in the state can establish a subzone or usage-driven site at their facility.

**For more information**

[mn.gov/deed/business/exporting/importing/mftz](http://mn.gov/deed/business/exporting/importing/mftz)
Greater Minnesota Job Expansion Program
This tax refund program provides sales tax rebates to existing businesses located in Greater Minnesota that are approved by DEED and meet job creation, wage levels and other eligibility requirements.

Eligibility
Businesses must meet program requirements including:

✔ Have operated for at least one year in Greater Minnesota
✔ Meet wage and compensation requirements
✔ Will add at least two employees or 10 percent of current staff, whichever is greater, within three years
✔ Meet industry eligibility including not being engaged in retail, gambling, entertainment, among many other industries
✔ Demonstrate that the expansion wouldn’t occur without assistance
✔ Have a significant share of sales from the facility to non-Minnesota customers

For more information
mn.gov/deed/business/financing-business/tax-credits/greater-mn-job-expansion
Research and Development Tax Credit

If your business paid certain research and development (R&D) expenses in Minnesota, you may qualify for the Credit for Increasing Research Activities.

The R&D credit is equal to 10 percent of qualifying expenses up to $2 million, and 4 percent for expenses above that level. Qualifying expenses are the same as for the federal R&D credit — defined in Section 41 of the Internal Revenue Code — but must be for research done in Minnesota.

Examples include R&D-related wages, supplies and research contracted outside your business. Contributions to qualified nonprofit organizations that make grants to early-stage technology businesses in Minnesota also may qualify.

S corporations, partnerships and C corporations are eligible to claim the credit.

For more information

Contact the Minnesota Department of Revenue at 651.556.3075 or email: businessincome.tax@state.mn.us
Single Sales Factor Apportionment
Apportionment formulas determine how much of a business’s income is taxable in a state. Many states apportion corporate income using the in-state proportions of the corporation’s sales, payroll and property to determine corporate franchise tax. Minnesota uses only sales in-state to apportion corporate income.

Single sales apportionment is beneficial to Minnesota businesses whose Minnesota sales factor is lower than the average of their Minnesota property and payroll factors.

All other things being equal, increasing non-Minnesota sales will reduce the amount of Minnesota taxable income, since more income will be attributed to or apportioned outside of Minnesota.

Throwback
Over half of the states with corporate taxes also use “throwback rules” in defining the sales factor. Throwback rules treat sales to out-of-state buyers as in-state sales, if the buyer’s state cannot tax the business/seller or if the purchaser is a federal government agency. These “thrown-back” sales increase in-state sales factor and corporate tax, decreasing the benefits to the taxpayer of single sales apportionment. Minnesota does not have a throwback rule.

Greater Minnesota Internship Tax Credit Program
Eligible employers may claim a refund credit of up to $2,000 for each internship provided to an eligible student in Greater Minnesota.
Tax Increment Financing
Cities, counties and development authorities often use Tax Increment Financing (TIF) to help finance project costs. TIF is used to encourage private development and to pay for public improvements, such as streets, sidewalks, sewer and water, and similar public infrastructure improvements that are related to the development.

Tax Abatement
Local governments may use property tax abatement to help finance certain economically beneficial projects. Property taxes are forgiven for a period of time. Or the taxes are captured for a period of time and an up-front payment is made to help with project costs.

Personal Property Exemption
In Minnesota, only real property such as land and buildings, is taxable. Personal property is exempt from the property tax. Anything that is not real property is personal property. The main characteristic of personal property is that it is movable without causing damage to itself or the real estate.

Capital Equipment Exemption
Businesses that buy or lease qualifying capital equipment (machinery and equipment used in manufacturing) for use in Minnesota are eligible for an up-front exemption from Minnesota state and local sales or use.
Border-to-Border Broadband Development Grant Program
This program helps to promote the expansion of access to broadband service in unserved and underserved areas of the state.

Grants will be awarded for last mile or middle mile broadband infrastructure acquisition and installation. The infrastructure deployed through the project must be scalable to broadband speeds of at least 100 Mbps download and upload. A grant awarded to a single project may not be for more than 50 percent of the project cost and not exceed $5 million.

Eligibility
Eligible applicants include an incorporated business or partnership, a political subdivision, an Indian tribe, a Minnesota nonprofit organized under state law, or a Minnesota limited liability corporation organized under state law for the purpose of expanding broadband access.

For more information
mn.gov/deed/programs-services/broadband/grant-program/index.jsp
Cleanup Revolving Loan Program
This program provides low-interest loans through the U.S. Environmental Protection Agency to clean up contaminated sites that can be returned to marketable use.

Loans may pay for contamination cleanup, related site sampling and monitoring, and costs associated with meeting requirements for public participation in project review. Under certain conditions, loans may also be used to demolish buildings.

Eligibility
Cities, counties, developers, economic development authorities, housing redevelopment authorities, port authorities, and for-profit and nonprofit organizations are eligible.

To qualify for financing:

- Applicants must own or demonstrate legal control of the site to be developed
- The site must be enrolled in the appropriate Minnesota Pollution Control Agency Voluntary Cleanup Program
- The site must have a pre-approved Response Action Plan for cleanup of contamination defined by state law
- The applicant cannot have caused or worsened the contamination

For more information
mn.gov/deed/government/financial-assistance/cleanup/cleanuprevolvingloanprogram.jsp
Contamination Cleanup and Investigation Grant Program

This program helps communities pay for assessing and cleaning up contaminated sites for redevelopment.

The program assists development authorities in contamination investigations, cleanup of contamination, the development of Response Action Plans (RAPs) and cleanup of contamination. Grants are awarded to those sites where there is planned redevelopment.

Contamination Cleanup grants pay for up to 75 percent of the costs of cleaning up contaminants (defined under state law) or petroleum contamination not eligible for reimbursement under Minnesota’s Petrofund.

Eligibility

 Authorities, economic development authorities or cities, counties, port authorities, housing and redevelopment are eligible. Both publicly- and privately-owned sites with known or suspected soil or groundwater contamination qualify.

Applications are ranked on several criteria. They include the tax base increase resulting from the site cleanup and development and the number of jobs created as a result.

Applicants must make a 25 percent local match. If they are located in the Twin Cities, they must also participate in the Met Council’s Local Housing Incentives programs.

For more information

mn.gov/deed/government/financial-assistance/cleanup/contamination.jsp
Demolition Loan Program
This program helps development authorities with the costs of demolishing blighted buildings on sites that have development potential but where no immediate development plans exist.

The following terms apply:

- Loans will be low-interest (2 percent)
- Loans will be interest-free for first two years
- Principal and interest payments will start in year three
- Loan terms cannot exceed 15 years

If the site is developed, the remaining principal and interest (up to 50 percent of the loan) could be forgiven based on development benefits.

Eligibility
Eligible applicants are development authorities, including cities, counties, port authorities, housing and redevelopment authorities, and economic development authorities.

Demolition activities, including interior remediation such as asbestos abatement, are eligible. Loans would pay up to 100 percent of demolition costs for a qualifying site. The loans may also assist with site acquisition costs.

Property and buildings must be publicly owned.

Note
Unfunded for 2018

For more information
mn.gov/deed/government/financial-assistance/cleanup/demolition.jsp
Greater Minnesota Business Development Infrastructure Grant Program

This program helps stimulate new economic development, create new jobs and retain existing jobs through investments in public infrastructure.

It provides grants to cities of up to 50 percent of the capital costs of the public infrastructure necessary to expand or retain jobs in the area, increase the tax base, or expand or create new economic development.

Eligibility

Eligible applicants are statutory or home rule cities outside of the Twin Cities seven-county metropolitan area.

Eligible projects include publicly-owned infrastructure that supports economic development projects, including water and wastewater needs, storm sewers, utility extensions and streets.

Economic development projects include:

- Manufacturing
- Technology
- Warehousing and distribution
- Research and development
- Agricultural processing
- Industrial park development

Retail developments and office space developments are not eligible.

For more information

mn.gov/deed/government/financial-assistance/business-funding/infrastructure/
Innovative Business Development Public Infrastructure Program
This program focuses on job creation and retention through the growth of new innovative businesses and organizations.

The program provides grants to local governmental units on a competitive basis statewide for up to 50 percent of the capital cost of the public infrastructure necessary to expand or retain jobs.

Eligibility
Local governmental units (cities, counties, townships, special districts, or other political subdivisions or public corporations) are eligible to apply for a grant.

Cities must provide a 50 percent match of the project capital costs.

Projects must involve publicly-owned infrastructure related to a development project, or research park development that would be used by an innovative business that is engaged in proprietary technology.

Funds from this program can also be used for land acquisition and preparation, telecommunications, bridges, parking ramps, demolition, hazard remediation, predesign, construction, equipment and furnishings.

For more information
mn.gov/deed/government/financial-assistance/business-funding/innovative/
Redevelopment Grant Program
This program helps communities with the costs of redeveloping blighted industrial, residential or commercial sites and putting land back into productive use.

The program assists development authorities with demolition, infrastructure improvements, stabilizing unstable soil, installing ponding or other environmental infrastructure and interior abatement for adaptive reuse projects.

Grants are awarded to those sites where there is a planned redevelopment.

Grants pay up to half of redevelopment costs for a qualifying site, with a 50 percent local match.

Eligibility
Eligible applicants are cities, counties, port authorities, housing and redevelopment authorities, and economic development authorities. Both publicly and privately owned sites qualify.

Applications are ranked on several criteria. They include the tax base increase and job creation resulting from the redevelopment of the site.

Applicants must make a 50 percent local match to be eligible for grant funds.

For additional qualifications, see DEED’s website.

Note
Unfunded for 2018

For more information
mn.gov/deed/government/financial-assistance/cleanup/redevelopmentgrantprogram.jsp
**Shovel-Ready Site Certification**
This program certifies that sites have already completed the most time-consuming technical and regulatory aspects of development including: planning, zoning, surveys, title work, environmental studies, soils analysis and public infrastructure engineering, ownership status, general site information, specific tests and assessments, utility services and transportation access completed prior to putting the site up for sale or lease.

Shovel-ready site certification offers communities a competitive edge by taking much of the time, expense, unpredictability and risk out of development, making the sites more attractive to companies and site-selection consultants looking for locations for business startups, expansions or relocations.

**Eligibility**
Communities work with DEED to receive shovel-ready certification for sites.

**For more information**
[mn.gov/deed/government/shovel-ready](mn.gov/deed/government/shovel-ready)
Small Cities Development Program
This program provides financial assistance to communities by supporting local economic development including housing, public infrastructure and commercial rehabilitation projects.

The maximum grant award for a Single Purpose project is $600,000. The maximum grant award for a Comprehensive project is $1.4 million. The timeline to complete projects is normally 30 months, depending on project size and scope.

DEED receives funding for the program from the U.S. Department of Housing and Urban Development.

There are three categories of funds under the program: housing grants, public facility grants and comprehensive grants, which frequently include housing with a commercial activity or public facility activity.

Eligibility
Cities with fewer than 50,000 residents and counties with fewer than 200,000 residents are eligible. Indian tribal governments and entitlement communities that receive funds directly from HUD are ineligible.

Proposed projects must meet one of three federal objectives:

- Benefit people of low and moderate incomes
- Eliminate slum and blight conditions
- Eliminate an urgent threat to public health or safety

In addition, need, impact and cost effectiveness must be documented and the general public must be involved in the application process.

For more information
mn.gov/deed/government/financial-assistance/community-funding/small-cities.jsp
Transportation Economic Development Infrastructure Program (TEDI)

TEDI is a competitive grant program available to communities for public infrastructure and road projects that create jobs, support economic development and improve the transportation system. Funds may be used to fund predesign, acquisition of land, construction, reconstruction, and infrastructure improvements in coordination with trunk highway improvements under taken by MnDOT.

TEDI is a collaboration with MnDOT’s Transportation Economic Development program (TED). TED may provide up to 70 percent of the costs for trunk highway improvements while TEDI provides grants to assist with projects non-trunk highway costs of projects.

Eligibility

Eligible applicants must be local units of government. Although private entities are not eligible, they may enter into agreements with eligible borrowers to request funding for eligible projects.

Matching funds from the applicant may come from other federal, state, local and private funding sources.

For more information

mn.gov/deed/ted
Dual Training Competency Grants
The Dual Training Program is a collaborative of the Minnesota Department of Labor and Industry (DLI), The Office of Higher Education (OHE) and DEED. The Program will provide grants to employers or organizations representing the employer to train employees in achieving the competency standard for an occupation identified by the Commissioner of DLI.

Dual training intends to build on the PIPELINE Project at DLI which convened four industry councils with representatives from higher education, industry, labor and employers. The councils develop competency standards and identify models Minnesota’s education providers can use to develop the training needed to meet the competency standards. To date, the four industries councils include advanced manufacturing, information technology, agriculture and healthcare services.

Eligibility
Employers or organizations representing employers to train employees in a competency standard identified by the DLI. The maximum grant is $150,000 per application based on a maximum of $6,000 per trainee. Matching funds may be required.

Export and Trade Classes and Training

Minnesota Trade Office (MTO) is staffed by experts who offer classes and seminars across the state to help small and midsized companies learn how to export goods and services successfully. These training sessions, frequently offered in partnership with other international business specialists, also provide opportunities for networking.

Some seminars are on particular countries or industry sectors, but many have a broader focus. Examples of recurring programs include:

✓ “Export Process: Intro to Exporting”
✓ “How to Finance Your Export Operations”
✓ “Export Tools and Strategies for Success”
✓ “Finding and Motivating the Right Foreign Business Partner”

Minnesota businesses also can make export connections by participating in MTO-organized mission trips and delegations to global trade shows. STEP grants can provide funding to qualifying Minnesota small businesses to help them develop their export plans. See page 17 for details.

Eligibility

Classes are open to everyone. Subscribe to MTO information on DEED’s website for a calendar of upcoming seminars and events.

Job Training Incentive Program
This program provides grants of up to $200,000 to new or expanding businesses for the purpose of training new workers as quickly and efficiently as possible. The program is available to businesses located in Greater Minnesota. Grant funds may be used for direct training costs for training provided in-house; by institutions of higher education; by federal, state, or local agencies; or private training or educational providers.

Eligibility
The business must be located in Greater Minnesota. The new jobs must pay wages at least equal to the median hourly wage for the county in which the jobs are located, plus benefits. The new jobs must also provide at least 32 hours of work per week for a minimum of nine months per year.

The business must be able to demonstrate that its training needs cannot be met through a Minnesota Job Skills Partnership grant. Additional eligibility and project requirements apply.

Minnesota Job Skills Partnership
The MJSP program works with businesses and educational institutions to train or retrain workers, expand work opportunities and keep high-quality jobs in the state. The goal is to target short-term training for full-time employment in the growth sectors of the state’s economy.

MJSP offers grants through a variety of programs to offset training-related expenses incurred by business, industry and educational institutions to meet current and future workforce needs.

The main grant option, the Partnership Program, provides up to $400,000 for training new workers and existing employees of participating businesses. Other training options include the Pathways Program and the Low-Income Worker Training Program. In addition to its flagship program, MJSP offers assistance to businesses for training low-income individuals.

Eligibility
Training projects pair at least one public or private accredited Minnesota educational institution and one business, with the exception of the Low Income Worker Training Program option. That program provides grants to Minnesota public, private or nonprofit entities that provide employment services to low-income individuals.

Additional eligibility and project requirements apply.

SciTechsperience
Internship Program

SciTechsperience is a paid internship program that connects college students in science, technology, engineering and math (STEM) disciplines with rewarding hands-on opportunities at small to mid-sized Minnesota companies that need their skills. The focus is on strengthening Minnesota’s STEM industries and developing an experienced and well-trained workforce. Businesses receive a dollar-for-dollar cash match up to 50 percent of the intern’s wages ($2,500 maximum), providing a low-cost option for small and medium-sized companies that otherwise would not have access to qualified interns.

Eligibility

Eligible students must be a Minnesota resident or attend college in Minnesota. They must be 18 years of age or older and be in good academic standing. Registration as a second-year tech or community college student or as a junior or senior at a four-year institution is required.

Eligible companies must be for-profit businesses with a physical presence in Minnesota, operating in qualifying industries. They must offer an internship that provides hands-on industry experience, focusing on STEM.

Other eligibility requirements and opportunities apply and are available on the SciTechsperience website.
