The Minnesota Department of Employment and Economic Development (DEED) delivers key services to career seekers and businesses through Job Service. The focus of all services, which are available through Minnesota’s statewide network of WorkForce Centers, is to help career seekers find work and help employers attract and retain qualified employees.

JOB SEEKER TESTIMONIALS

- I’ve been working with the Workforce Center much of this year attending various workshops. I’m happy to report I now accepted a job offer! I cannot thank the team at the Workforce Center enough for the guidance and training they provided to help me through this job transition, from improving my resume (after 20 years!) to interviewing skills to networking classes to LinkedIn workshops to Displaced Worker skill improvement classes. I needed them all to set myself up for success again. To you and your staff I extend a sincere THANK YOU!
  — David

- I visited the Workforce Center in Hutchinson to get some direction in my job search. I received excellent assistance in creating my resume. I also participated in workshops. I was impressed with the professionalism, knowledge and the personal touch. I was going from a 30 year career in retail, seeking a new career in the medical field. Thanks to all the resources I was informed of (through the Workforce Center) I was able to make my wish come true.
  — Suzanne

* The Wagner-Peyser Act provides for a labor exchange in offering employment opportunities and services on a no-fee basis to job seekers and businesses.
DEED’s Workforce Strategy Consultants develop innovative workforce solutions by aligning resources, facilitating collaboration, and leveraging expertise in targeted industry sectors to drive economic equity and growth.

THE VALUE WE BRING
- Assist key stakeholders in the successful implementation of regional plan
- Leverage expertise in industry sector workforce development strategies
- Connect key stakeholders to workforce development resources
- Enhance regional economic prosperity through partnership with DEED’s Business Development Specialists and Labor Market Analysts
- Design tools and resources to support businesses in developing strategic workforce solutions that are relevant in today’s dynamic and ever-changing environment.

We are also committed to increase outreach to women and minority groups and, through the apprenticeships and degrees, help pave the way to higher wages and a more secure career path. The landscape and demographics are changing, and we are trying to match our patient population with a more diverse workforce.

• Mount Olivet Rolling Acres has been very excited to be part of the registered apprenticeship/MAI grant this past year. By participating in this program, we have had the opportunity to provide our apprentices extensive training to further develop their skills. In return, these apprentices have passed that knowledge onto their co-workers, building stronger, more effective teams. The program has expedited developing these staff into promotional opportunities, which has resulted in retaining these highly skilled individuals. The program has created excitement amongst our staff to further develop them in our field of study.

• Through registered apprenticeship and the support of the Minnesota Apprenticeship Initiative Grant Pequot Tool & Manufacturing has arrived at an unplanned outcome. We have experienced accelerated skills development, greater employee engagement, and reduced workforce turnover. While our apprenticeship program remains a “work in progress” we are leveraging the support and resources readily accessible from MNDOLI, MAI, and third party training providers. PTM is committed to the systematic training and development of the 21st century workforce.
