Progress so Far

Coverage Analysis

- Coverage is the primary goal
- Capacity is second goal particularly for more populated areas.
- ECN has created a guide to test coverage, Adoption Workbook. Providing more details on testing choices.

WIRELESS BROADBAND FOR PUBLIC SAFETY

About FirstNet

The future of information sharing involves significant changes to broadband networks. One of those changes will likely involve devoting a portion of broadband to public safety during emergencies.

Agencies Consider FirstNet Adoption

ECN is now facilitating workshops across the state as individual public safety agencies consider adoption FirstNet Workshops in the Southwest, Northeast, Southeast, Central and Northwest regions have already taken place. Additional workshops are set to take place over the next several months.

- April 20 at 10 a.m. at the Carver County Government Center in Chaska: Metro Region Workshop
- TBD: South Central Region Workshop

Any interested fire, emergency medical services, and law enforcement personnel, along with elected officials, are encouraged to attend. The workshops are part of the National Public Safety Broadband Network (NPSBN) implementation timeline.
