

## **Applications window for Point Source Implementation Grant Program (PSIG) now open**

The Minnesota Public Facilities Authority (PFA) is accepting applications for the PSIG program from July 1, 2026 through July 31, 2026 for grant awards during Fiscal Year 2027. Eligible projects are those that expect to start construction by June 30, 2027. Applications must be received by July 31, 2026 to be considered. Grant applications are available on the PFA website here: <https://mn.gov/deed/pfa/funds-programs/point-source-grants.jsp> Submit completed applications to the PFA email box: [mn.pfa@state.mn.us](mailto:mn.pfa@state.mn.us).

Applicants that previously submitted PSIG applications but have not received Minnesota Pollution Control Agency (MPCA) PSIG certification by June 30, 2026 must resubmit an updated application by the July 31, 2026 deadline.

The [PSIG](#) (Minnesota Statutes, Section 446A.073 as amended) program is jointly administered by the PFA and the MPCA. Eligible projects must be ranked on the MPCA's 2027 Clean Water Revolving Fund (CWRP) Project Priority List (PPL). Eligible drinking water treatment projects must also be listed on the Minnesota Department of Health's (MDH) 2027 Drinking Water Revolving Fund (DWRF) PPL.

PSIG provides 80% grants up to \$12 million to eligible governmental units for water infrastructure projects necessary to:

- meet wasteload reductions prescribed under a total maximum daily load (TMDL) plan required by Section 303(d) of the federal Clean Water Act,
- meet a phosphorus concentration or mass limit which requires discharging one milligram per liter or less at permitted design flow, which is incorporated into a permit issued by the MPCA,
- meet any other water quality-based effluent limit established under section Minnesota Statute Section 115.03, subd 1, (5) (viii), that is incorporated into a permit issued by MPCA that exceeds secondary treatment limits; or
- meet a total nitrogen concentration or mass limit that requires discharging ten milligrams per liter or less at permitted design flow.
