

Recipient: City of Scandia

Project: Advanced treatment nitrogen, rehab LSTS

Award Date: June 11, 2026

MPFA Award Total: \$1,878,933

Description: The Project consists of the planning, design, and construction of improvements to the existing wastewater treatment facility and a new total nitrogen removal process using denitrification.

Project Funding:

Entity	Funding Source	PFA Funding ID	Amount
PFA	Point Source Implementation-Grant	MPFA-PSIG-G-082-FY26	\$1,503,146
	Clean Water SRF-Loan <i>(20 years at 2.211%, estimated savings to recipient is \$28,923)</i>	MPFA-CWRF-L-082-FY26	\$261,395
	Clean Water SRF-PF Grant	MPFA-CWRF-G-082-FY26	\$114,392
Total MPFA Project Costs:			\$1,878,933

More about the Minnesota Public Facilities Authority and its Programs:

The Minnesota Public Facilities Authority (MPFA) provides financing and technical assistance to help communities build public infrastructure that protects public health and the environment and promotes economic growth.

Clean Water Revolving Fund (also known as the Clean Water State Revolving Fund or CWSRF):

The CWSRF is supported by federal capitalization grants from the U.S. Environmental Protection Agency and state matching funds. These funds, together with MPFA revenue bond proceeds, are used to make low interest loans to communities throughout the state for wastewater and stormwater infrastructure projects. Loan repayments revolve back to make new loans, providing a permanent source of low-interest capital to help cities finance clean water infrastructure projects. Since its start in 1990, Minnesota's CWSRF has awarded more than 565 loans for over \$3.1 billion, providing over \$691 million in interest savings to local governments and their taxpayers.

Point Source Implementation Grants (PSIG):

The PSIG program provides grants to help cities upgrade water treatment facilities to reduce their discharge of specific pollutants to meet water quality restoration and protection goals.
