# The State of Minnesota at Your Service

Whether you're looking to expand an existing business, relocate from another state or country, or need regulatory and permitting guidance for a complex startup, expansion or relocation, our business consultants have the right background, information, and connections to other state and local agencies to help turn your plans to reality.

Our business consultants have got you covered at any stage with expert advice and analysis. We're located across the state, and also have 6 foreign offices representing 132 countries around the world. We can help you assess Minnesota opportunities to make your business grow. And, we're ready to serve you now - **Join us!**

In Minnesota, you'll be as connected as you could ever hope to be: To your customers. To industry leaders who can help you grow. To supply chains. To infrastructure. To R&D. To a culture of innovation and excellence. To an educated and driven workforce, ready to work. To entrepreneurship and to a concentration of unique expertise you won't find anywhere.

**In the Midwest, we're in the middle of everything!**

# STATE OF MINNESOTA

## EMPLOYMENT AND ECONOMIC DEVELOPMENT

The Minnesota Department of Employment and Economic Development (DEED) is the state's principal economic development agency.

DEED programs promote business recruitment, expansion, and retention; international trade; workforce development; and community development.

## MINNESOTA EXHIBITORS

## Trade and Economic Development

The Minnesota Trade Office (MTO), an office within the Department of Employment and Economic Development, is the state agency that provides export assistance to Minnesota companies, attracts foreign direct investment, and serves as the Office of Protocol for Minnesota. The MTO delivers programs and services particularly focused on helping small and medium sized companies enter and compete in the international market.

# CLEAN GRID

## ASSOCIATION

Clean Grid Association is the leading Midwest trade association representing the multi-technology clean energy industry, including utility-scale solar, land-based wind, battery energy storage, and electric transmission. We work to advance policies that support reliable, affordable clean electricity.
