An Equal Opportunity Employer and Service Provider

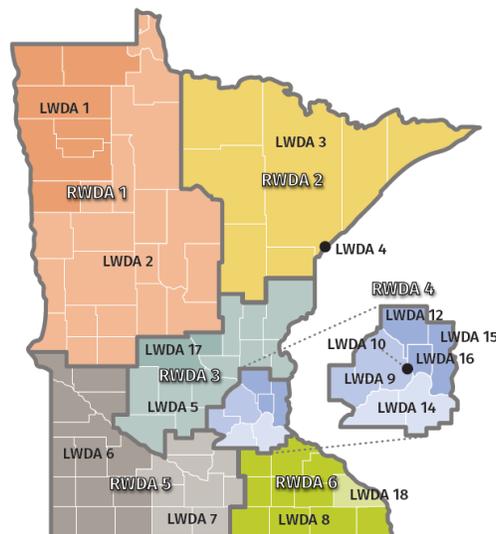

INTRODUCTION

The purposes of the WIOA are the following:

- (1) To increase, for individuals in the United States, particularly those individuals with barriers to employment, access to and opportunities for the employment, education, training and support services they need to succeed in the labor market.
- (2) To support the alignment of workforce investment, education and economic development systems in support of a comprehensive, accessible and high-quality workforce development system in the United States.
- (3) To improve the quality and labor market relevance of workforce investment, education and economic development efforts to provide America's workers with the skills and credentials necessary to secure and advance in employment with family-sustaining wages and to provide America's employers with the skilled workers the employers need to succeed in a global economy.
- (4) To promote improvement in the structure of and delivery of services through the United States workforce development system to better address the employment and skill needs of workers, jobseekers and employers.
- (5) To increase the prosperity of workers and employers in the United States, the economic growth of communities, regions and states and the global competitiveness of the United States.
- (6) For purposes of subtitle A and B of title I, to provide workforce investment activities, through statewide and local workforce development systems, that increase the employment, retention and earnings of participants, and increase attainment of recognized post-secondary credentials by participants, and as a result, improve the quality of the workforce, reduce welfare dependency, increase economic self-sufficiency, meet the skill requirements of employers and enhance the productivity and competitiveness of the Nation.

Workforce Development Areas

Minnesota has designated six Regional Workforce Development Areas (RWDAs) in the state that represent a combination of Local Areas, as defined in WIOA, and Economic Development Regions, as defined in other federal law. These Workforce Development Areas have been approved and adopted by the Governor and the chief local elected officials of the Local Areas.

Each Regional Workforce Development Area is responsible for submitting a Regional Plan, inclusive of the Local Plans of the Local Workforce Development Areas. The Regional and Local Plans will align with the strategic vision set by the Governor, address the regional needs of the workforce and business communities and comply with the planning requirements as determined by the State of Minnesota's Department of Employment and Economic Development and the U.S. Department of Labor and applicable federal and state statutes.

Minnesota's Vision for the Workforce Development System

Vision Statement:

A healthy economy, where all Minnesotans have or are on a path to meaningful employment and a family sustaining wage, and all employers are able to fill jobs in demand.

This vision statement was developed through Minnesota's participation in the National Governor's Association's Policy Academy on Career Pathway Models. Minnesota's effort engaged seven state agencies and has influenced workforce development thinking at the system level. It is fitting to continue to move forward with pursuing the implementation of WIOA under this inclusive effort.

Mission:

The creation of a Career Pathway System that aligns local, state and federal resources, policies and services to meet the workforce needs of business and industry and improves access to employment, education and training services for Minnesota's current and future workforce.

Rationale:

The economic conditions of the 21st century require a more responsive approach to meeting the needs of business and industry; and the growing diversity of the workforce population. As economies become more global, competition will continue to increase and pressures on the inputs of production, specifically the timing, availability and skill base of the workforce. Rediscovering the value proposition of the Workforce Development System is critical to responding to the 21st century economy.

A Career Pathway System approach will position the needs of a skilled workforce at the center of the system, recognizing the important role of a "dual customer" approach – businesses and workers. Businesses will lead sector strategies that address the most critical growth needs in occupations that support family sustaining wages. The diverse needs of workers will impact the design and delivery of employment and training programs and services to fulfill these employment needs and their career goals.

SECTION B: LOCAL PLAN

Strategic Operations: *The core elements of strategic operations focuses on operating policies and procedures related to the one-stop system and physical locations of service delivery.*

1. Describe how local area boards will work with each other, core title providers and available data to designate at least one WorkForce Center per local workforce development area and make recommendations on recognizing affiliate and standalone partner sites.

The current locations of WorkForce Centers within suburban Hennepin County appear to serve our demographic targets well at this time. That said, we acknowledge that a broader review within the metro region may be of value.

The Greater Metropolitan Workforce Council (GMWC) anticipates taking two steps together during the coming year: a) an informal review of service locations relative to population/demographic needs; and, b) consideration of shared criteria for recognizing affiliates among partners and contracted community-based providers. These analyses will be conducted jointly by all metro area Boards with results considered collectively by the regional oversight group identified in the regional plan.

2. Describe the strategies to ensure proper connectivity and coordination among the **physical sites** within the local workforce development area.

Workforce Development Area staff meet regularly with staff and partners at each of the WorkForce Centers in suburban Hennepin to review programming, client flow, and ensure high quality coordinated service between WorkForce Centers and partner sites in suburban Hennepin County. These face-to-face contacts address all elements of program coordination at our shared sites.

3. Describe the strategies to ensure proper connectivity and coordination among the **service providers** within the local workforce development area.

Workforce Development Area staff meet at least twice annually with leadership from contracted service providers to review programming, client flow, and ensure high quality coordinated service between WorkForce Centers and partner sites in suburban Hennepin County. The GWMC is considering a structure in which service providers throughout the metro region would be part of an annual convening to review regional labor market data, assess progress against stated goals, and revisit strategies. As there are service providers in the region who serve individuals from multiple Workforce Development Areas, we imagine that such coordination is best done at the regional level.

4. Describe other strategies that will be used to maximize services and access to services, such as non-traditional hours or using partner facilities.

The Hennepin-Carver Workforce Development Board is exploring three strategies in the coming program year to maximize access to services:

- a) Within the Bloomington WorkForce Center, new service offerings and a set of expedited services will more than double the numbers served while reducing cycle time by as much as 80%;
- b) Partnering with suburban Hennepin human service and homeless service providers, workforce staff are exploring how they might train and coach

- partner staff and/or develop a 'circuit rider' approach to expand capacity of workforce service offerings in existing suburban partner locations; and,
- c) Through Hennepin Career Connections, low-income, County-involved residents will have priority access to training and placement pathways for work as Hennepin County employees or in comparable private sector positions.

5. Describe the strategic approaches to ensure all elements of Career Services are available at service locations or online, including services for youth and individuals with barriers to employment or service access.

The GMWC will collectively undertake an analysis of service element availability at physical locations and online, relative to expected needs of populations being served – specifically youth and adults with barriers to employment and/or who would benefit from culturally-specific service delivery strategies. As with the location analysis above, this will be completed collectively and presented with recommendations to the regional oversight group identified in the regional plan.

6. Describe strategies that will be used to leverage technology for services and ensure compliance with accessibility standards.

In conjunction with the analysis outlined above, recommendations for new or enhanced technology will be made to ensure that metro job seekers and employers have access to tools they need to enjoy successful labor exchange functions.

7. Describe how supportive services, such as transportation and other needs, will be coordinated to better serve individuals with specific barriers to training, education and employment.

As noted earlier, the GMWC will collectively undertake an analysis that will also include assessing the availability, suitability, and accessibility of support services at service locations throughout the region, physical locations and online, relative to expected needs of populations being served – specifically youth and adults with barriers to employment and/or who would benefit from culturally-specific service delivery strategies. As with the location analysis above, this will be completed collectively and presented with recommendations to the regional oversight group identified in the regional plan.

8. Describe how local area boards will ensure state policies on infrastructure funding requirements are adhered to and the process for addressing any discrepancies or disagreements.

The Hennepin-Carver Workforce Development Board will train its own staff on infrastructure funding requirements and protocol for addressing discrepancies using material to be jointly developed by the GMWC (in partnership with the MN Workforce Council Association). The Hennepin-Carver Workforce Development Board will rely on existing (or modified) Memoranda of Understanding and internal audit processes to address any serious compliance issues.

9. Describe how local area boards, who contract out for provider services, will ensure that providers fully participate in infrastructure funding requirements and the alignment of service delivery within the local workforce development area.

The Hennepin-Carver Workforce Development Board will train contracted partners on infrastructure funding requirements and protocol for addressing discrepancies using material to be jointly developed by the GMWC (in partnership with the MN Workforce Council Association). Service alignment issues will be addressed, as noted above, in our contracting process and in regular communications with partners during implementation. Again, the Hennepin-Carver Workforce Development Board will rely on existing (or modified) Memoranda of Understanding and internal audit processes to address any serious compliance issues regarding infrastructure funding requirements.

10. Describe how the Memorandum of Understanding will be developed and used to ensure commitment of resources from service providers and required partners.

Staff from the Hennepin-Carver Workforce Development Area will develop a template MOU for review with service partners, likely drawing on a template to be developed by the GMWC, in partnership with the MN Workforce Council Association. Partners will engage in negotiation with Hennepin staff regarding commitments of resources and cost allocations. Leaders of all organizations will review final MOUs prior to signing.

11. A. Describe the local area board's strategic vision and how it aligns with the designated state priorities under WIOA.

As the most populous Workforce Development Area in the state, the Hennepin-Carver Workforce Development Board strives to maintain high quality services and superior outcomes even as it continues to serve a high volume of jobseekers with barriers and businesses with multiple levels of demand. The Board values skill training – particularly for middle-skill jobs (which are plentiful in the region) that can help move lower-income individuals to middle-class lifestyles. The Board is also cognizant of systemic barriers to employment facing individuals of color, those with disabilities, and other County residents. The Board is committed to removing those barriers and is prepared to take on an active advocacy role with respect to job skills' requirements, hiring practices, and working conditions to ensure that there are high-quality jobs available to high-quality jobseekers.

The Hennepin-Carver Workforce Development Board's strategic vision aligns well with Minnesota's two overarching priorities of: reducing educational and employment disparities based on race or disability; and, aligning skill development with careers in demand through employer-led industry-sector partnerships.

- B. Describe the local area board's goals for preparing an educated and skilled workforce, including youth and individuals with barriers to employment.

The Hennepin-Carver Workforce Development Board has established program goals for specific populations and economic targets meaningful to the County. Based on expected allocations for PY16, we anticipate serving 200 adults, 270 (federally-funded) and 430 (state-funded) dislocated workers, and 400 youth.

- C. Describe how these goals relate to the performance accountability measures based on the primary indicators in order to support regional economic growth and economic self-sufficiency.

The Hennepin-Carver Workforce Development Board, in partnership with the GMWC, will use the GreaterMSP Regional Dashboard indicators to assess progress toward regional economic growth and economic self-sufficiency. The metro Boards will target two specific indicators to impact over a multi-year period: the “of color-white employment gap”; and, talent availability – particularly the number of individuals who receive credentials that contribute to associates degree awards in the region.

- D. Describe the strategy to work with the entities that carry out the core programs to align resources available to the local workforce development area, to achieve the strategic vision and goals of the local area board.

The Hennepin-Carver Workforce Development Board has a strong relationship with its core partners working in the WorkForce Centers; and, is strengthening its relationships with service partners (not necessarily contracted) working throughout suburban Hennepin and Carver Counties. The Board is taking two steps to align resources and services in the coming years: a) The vision and programmatic elements outlined here are being shared with partners and will be reviewed, revised, and jointly implemented by Hennepin-Carver staff dedicated to the task; and, b) formula funds and special project funds to work with incumbent workers (as well as others) are being set aside to support the expanded roster of services within WorkForce Centers and potentially at other service points throughout the WDA.

12. Describe how the local workforce development system will work with entities carrying out core programs to align and support services with programs of study authorized under Carl D. Perkins Career and Technical Education Act.

The GMWC, following the focus on specific occupational clusters and career pathways (outlined in the regional plan), will work with all of the metropolitan Carl Perkins consortium partners, collectively, to identify appropriate Perkins-funded activities that support entry and advancement into the career identified pathways. The Hennepin-Carver Workforce Development Board will pursue appropriate steps, with its own Perkins consortia members, to ensure program alignment within the Workforce Development Area.

13. A. Describe how the local area board, working with the entities carrying out core programs, will expand access to employment opportunities for eligible individuals, particularly eligible individuals with barriers to employment.

As noted earlier, the Hennepin-Carver Workforce Development Board is expanding and strengthening services at the Bloomington WorkForce Center (with Brooklyn Park, expected to follow), to better support individuals with barriers to employment. Outreach efforts will also be strengthened through expanded relationships and effort to reach County-involved adults and youth (via Hennepin Career Connections), individuals experiencing or at risk of experiencing homelessness (via suburban service locations), in-school youth (via school partners and North Hennepin Chamber of Commerce program); and, in-house referrals from Veteran and Vocational Rehabilitation Services.

Adult Basic Education and other secondary school partners will continue to be engaged in programming specific to adults and youth with academic barriers to employment and skill development needs.

- B. Describe how the local area board, working with the entities carrying out core programs, will expand access to supportive services for eligible individuals, particularly eligible individuals with barriers to employment.

As noted in an earlier question, the GMWC expects to complete a metro-wide assessment of supportive services appropriate for jobseekers, training recipients, and incumbent workers seeking advancement. Per the outreach efforts identified in #13A, the Hennepin-Carver Workforce Development Board will identify resources in its own funding streams, as well as coordinated opportunities with external sources (philanthropy or other public sources), to ensure that supportive services can be expanded to individuals facing barriers to employment.

- C. Describe how the local area board will facilitate the development of career pathways, co-enrollments (as appropriate) and activities that lead to industry recognized post-secondary credentials that are portable and stackable.

Building on the metrowide sector approach described in the Twin Cities metro regional plan (see attached), the GWMC will identify career pathways associated with identified priority sectors. As part of the career pathway development, metro Boards will detail training and credentialing opportunities, broker co-enrollment possibilities with area training providers, and work to identify financial resources and other supports to allow WIOA program participants to pursue these pathways.

14. A. Describe how the local area board will facilitate engagement of employers, including small employers, and employers in in-demand industry sectors and occupations, in workforce development programs.

The GMWC has identified specific sectors and associated career pathways in the Twin Cities regional plan that calls for the convening of metrowide 'sector panels' in partnership with Chambers, MnSCU partners, MnSCU advisory boards, and others. These panels will be business-led, focused on the workforce needs within a particular industry or occupational cluster. The Hennepin-Carver Workforce Development Board is likely to take a lead role in organizing the emerging public sector/admin panel as well as possibly the health care and manufacturing sectors for the region on behalf of our metro partners.

In addition to the participation in key regional sectors, the Hennepin-Carver Workforce Development Board will continue its outreach and relationship-building with local businesses through partnership with DEED Business Service representatives, partnerships with area Chambers of Commerce, and industry associations. There is particular strength in our relationship with the North Hennepin Chamber of Commerce, where we are piloting several youth service initiatives in partnership with area schools; and, partnering in job fairs twice annually that overwhelmingly serve local employers.

Finally, the Hennepin County Workforce Leadership Council, convened by Commissioner Peter McLaughlin and Minneapolis Downtown Council President Steve Cramer, has begun to serve as an aggregator of demand for work opportunities that may be particularly appropriate for County-involved adults. Hennepin County will make use of the business leadership at this table for its Hennepin Workforce Career Connections programs as well as other workforce development efforts.

- B. Describe how the local area board will support a local workforce development system that meets the needs of businesses in the local workforce development area.

The Hennepin-Carver Workforce Development Board has touchpoints with local businesses in suburban Hennepin County at multiple levels: representatives on the Board itself, partners with area college and CBO training providers, representatives on numerous civic organizations and clubs (e.g., Chambers, Rotary, et al), and, as partners in multiple school-based initiatives in which County staff have meaningful relationships.

- C. Describe how the local area board will better coordinate programs and services with regional economic development providers.

The GMWC is developing a governance structure that substantially engages regional economic development providers in new ways, particularly with more cross-appointments between economic development and local Workforce Development Boards. Further, the GMWC envisions an annual gathering of regional partners to review economic and demographic data and update each other on shared strategies toward regional prosperity.

- D. Describe how the local area board will strengthen linkages between the one-stop delivery system and unemployment insurance programs by offering services to laid-off workers and possible lay-off preventative services for businesses, such as incumbent worker training that up-skills the workers and meets the needs of employers (can include but not be limited to, on-the-job training, apprenticeships, etc.).

The Hennepin-Carver Workforce Development Board is strengthening its service offerings at the Bloomington and Brooklyn Park WorkForce Centers to offer more intensive workshops and services, many of which will be targeted specifically to UI claimants, dislocated, and incumbent workers. Specific offerings are expected to include: one-on-one job staff-assisted search sessions, additional job search and networking workshops, and significant increase in *Creative Job Search* workshop capacity.

15. Describe how the local area board will coordinate workforce investment activities with economic development activities, including the promotion of entrepreneurial skills training and microenterprise services.

As noted above, the Hennepin-Carver Workforce Development Board, as a member of the GMWC, is engaging with regional economic development activities at higher levels than previously. Just underneath that level of connectivity, the metro Workforce Development Boards are exploring a more systemic approach to promotion of entrepreneurship training and microenterprise supports. The GMWC will initiate discussion with the broad 'business development' and entrepreneurship communities to see how to best connect their services and offerings with jobseekers who also wish to explore business development pathways. And, the GMWC will explore partnerships to expose WorkForce Center staff to local business development opportunities that may be under consideration so that they could potentially identify talent for those emerging businesses.

16. A. Describe how the local area board will ensure continuous improvement of eligible providers of services through the system.

The Hennepin-Carver Workforce Development Board, as a member of the GMWC, will explore conversation with the community of nonprofit training providers about a shared vision for continuous improvement across the public and nonprofit workforce arenas. Multiple efforts in recent years have supported continuous improvement among eligible training providers (notably, the Twin Cities Greater United Way return-on-investment work, participation in the national Workforce Benchmarking project, participation in the GWDC return-on-investment workgroup, and a most recent engagement with CLASP led by the Minnesota Employment Services Coalition (MESCC). Many of these efforts have involved eligible training providers, but not necessarily engaged the public workforce system directly. Discussions are expected during this program year about how to bring such efforts together.

In the end, each local Workforce Development Board will manage the quality of service among its own training providers by pruning and/or adding to the eligible training provider list.

- B. Describe how the local area board will ensure that eligible providers meet the employment needs of local employers, workers and job seekers.

As noted earlier, there will be multiple levels of engagement of eligible training providers and public partners to engage with local employers, incumbent workers, and jobseekers to ensure alignment of programs and services.

- C. Describe how the local area board will facilitate access to services provided through the one-stop delivery system, including in remote areas, through the use of technology and other means.

The Hennepin-Carver Workforce Development Board will work closely with 'remote' service locations within its Workforce Development Area to (community-based providers, libraries, other county service locations) to identify opportunities for electronic access to be made available as widely as possible. We note, however, that with an increased emphasis on staff-assisted services at WorkForce Center locations, a primary goal of such access points may be to drive traffic toward locations where staff-assisted services can be made available.

- D. Describe how entities within the one-stop delivery system will comply with section 188, if applicable, and applicable provisions of the Americans with Disabilities Act of 1990, regarding the physical and programmatic accessibility of facilities, programs and services, technology and materials for individuals with disabilities including providing staff training and support for addressing the needs of individuals with disabilities.

The Hennepin-Carver Workforce Development Board will train its own staff on applicable provisions of the ADA using material to be jointly developed by the GMWC in partnership with the MN Workforce Council Association and DEED.

- E. Describe the roles and resource contributions of the one-stop partners.

The primary partners in the Hennepin-Carver WorkForce Centers include:

- 1) **Hennepin County staff** who serve as the WIOA administrative entity and staff to the Hennepin-Carver Workforce Development Board. County staff also provide management and oversight for Title I Adult, Dislocated Worker and Youth Services, function as administrative liaison to Hennepin County's Diversionary Work Program (DWP), Minnesota Family Investment Program (MFIP/TANF) and the County Supplemental Nutrition Assistance Program (SNAP) partners. County staff are also responsible for securing relationships with, and services from other partners and vendors serving customers in the two WorkForce Centers in Hennepin County.
- 2) **MN Department of Employment and Economic Development (DEED)** is a major partner, providing Wagner-Peyser labor exchange services, Job Service staff, Veteran Services staff, liaison with Unemployment Insurance services and associated Re-employment Assistance. DEED staff also provide pre-screening for program eligibility, manage resource room functions, and offer individual client services as appropriate.
- 3) **Vocational Rehabilitation Services** provides vocational assessments, community-based evaluations, job placement and coaching support, and additional case management as it relates to tuition and other support services.
- 4) **HIRED** is contracted to deliver adult and dislocated worker services, included client assessments, case management, referrals for training, and additional supports.
- 5) Although not delivering services on-site within the Hennepin South or Brooklyn Park WorkForce Centers, our community college partners (Normandale, Hennepin Technical College, and North Hennepin Community College) and our Adult Basic Education and Carl D. Perkins Consortium partners (Hennepin West and Southwest Metro) are significant partners in shaping services within the Workforce Development Area. To the best of its ability, Hennepin County staff also engage many of the 22 independent school districts, as well as charter schools, serving Hennepin County, particularly in addressing youth workforce needs.

We are in the process of updating our MOUs with the primary partners named above to reflect new operating arrangements under WIOA.

17. Describe and assess the type and availability of adult and dislocated worker employment and training activities in the local workforce development area.

The Hennepin-Carver Workforce Development Board offers a range of employment and training activities to adult and dislocated workers at its WorkForce Centers and at other locations. These include:

- Creative Job Search workshops
- Interviewing workshops and coaching
- Specialty workshops and coaching on specific tools, e.g., LinkedIn, HireWire, etc.
- Group/peer support via job clubs
- Interest assessments (using Career Code and other tools)
- Job Fairs
- Basic, advanced, and specialized one-on-one job search services
- Assessments for adult basic education and advanced job training opportunities

18. Describe and assess the type and availability of youth workforce investment activities in the local workforce development area, including youth with disabilities, which description and assessment shall include an identification of successful models of such youth workforce

development activities.

The Hennepin-Carver Workforce Development Board offers a range of youth development activities including:

- Year-round training and placement services delivered by Tree Trust
- Summer youth training and placement program
- In-school youth services focused on career awareness and career pathway efforts (some delivered in partnership with area Chambers of Commerce)
- Out-of-school youth training and placement services, with partnerships (being strengthened) with County Sheriffs, courts, and school-based truancy officers. There may be particular emphasis on reaching truant, but not-yet-released students *before* they become fully out-of-school youth.

19. Describe how the local area board will coordinate education and workforce investment activities carried out under this title with relevant secondary and post-secondary education programs and activities to coordinate strategies, enhance services, and avoid duplication of services.

As noted in Question #12, the GMWC, following the focus on specific occupational clusters and career pathways (outlined in the regional plan), will engage Carl Perkins consortium partners who often represent our closest relationship with secondary and post-secondary partners. Local efforts to support students will be developed, in conjunction with metrowide efforts focused on identified career pathways, and efforts will be made at the local and regional levels to ensure that services are not duplicated.

20. Describe how the local area board will coordinate education and workforce investment activities carried out under this title with public transportation and other appropriate supportive services.

The GMWC is committed to working cooperatively to strengthen relationships with the Met Council at multiple levels. One such effort will be to ensure that a stronger line of communication is maintained with transit planners to facilitate closer coordination with public transit in areas where transportation challenges represent a primary barrier to employment. The Hennepin-Carver Workforce Development Board will make particular effort to ensure that suburban jobseekers have better access to public transit (and/or other forms of transportation assistance) and that suburban employers can better receive workers from urban centers.

21. Describe the plans and strategies for, and assurances concerning, maximizing coordination of service provided by the state employment service under Wagner-Peyser Act, and services provided in the local workforce development area through the one-stop delivery system, to improve service delivery and avoid duplication of services.

The Hennepin-Carver Workforce Development Board has Wagner-Peyser staff located within WorkForce Centers who currently have relatively strong working relationships with local staff. Two specific ideas have been explored in the past that may warrant consideration again at the regional level: a) Expansion of the shared contact management system (SalesForce) to further include local staff at multiple levels may strengthen service delivery significantly; and, b) revisit prior discussions about staffing models from other states (Iowa in particular) where Wagner-Peyser staff remain state staff, but take specific direction from local leaders employed by other units of government.

22. Describe how the local area board will coordinate workforce investment activities carried out

under this title in the local workforce development area with the provision of adult education and literacy activities under title II, including a description of how the local area board will carry out, consistent with subparagraphs (A) and (B)(i) of section 107(d)(11) and section 232, the review of local applications submitted under title II.

The GMWC has engaged Adult Education partners in the development of this plan, and expect to continue doing so through the implementation period. Adult Education partners will continue to be engaged in at least three ways: a) Development of career pathways in the identified sectors and clusters, with clear integration opportunities for literacy and adult education to be woven into existing and emerging training; b) Clarification or strengthening of protocol for assessing adult education needs at WorkForce Centers (and other points of service) and making appropriate referrals for services; and, c) Provision of career awareness materials and/or workshops prepared by workforce development staff, that can be shared with adult education partners to expose students to opportunities and facilitate referral from adult education programs to WorkForce Centers and other workforce development programs.

23. Describe the replicated cooperative agreements (as defined in section 107(d)(11)) between the local area board or other local entities described in section 101(a)(11)(B) of the Rehabilitation Act of 1973 (29 U.S.C. 721(a)(11)(B)) and the local office of a designated state agency or designated state unit administering programs carried out under title I of such Act (29 U.S.C. 720 et seq.) (other than section 112 or part C of that title (29 U.S.C. 732, 741) and subject to section 121(f)) in accordance with section 101(a)(11) of such Act (29 U.S.C. 721(a)(11)) with respect to efforts that will enhance the provision of services to individuals with disabilities and to other individuals, such as cross training of staff, technical assistance, use and sharing of information, cooperative efforts with employers, and other efforts at cooperation, collaboration, and coordination.

The local Workforce Development Board and Vocational Rehabilitation Services collaborate to enhance services to individuals with disabilities, individuals with other barriers to employment, and individuals living in poverty. To the extent possible, services are co-located in WorkForce Centers to provide access to a wide variety of services. Each WorkForce Center provides an orientation to services available to assist job-seekers make an informed decision on choice of service provider. Direct service staff participate in cross-training to ensure they understand the services offered by the various partners, and the eligibility criteria for each program.

Vocational Rehabilitation staff is available for consultation without the need for the person to apply for services. Typical topics include how and when to disclose a disability, effective use of assistive technology, Social Security work incentives, and benefits planning. There is currently a joint effort to provide joint financial planning and work incentives planning for individuals receiving Social Security Disability Insurance. Disability Benefits 101, a software program developed using Medicaid Infrastructure grant funding, is available to all partners to assist staff inform job-seekers about the impact earned income will have on federal and state benefits, including public health insurance.

The Workforce Development Board consults with Vocational Rehabilitation Services as they are developing initiatives such as incumbent worker training programs, customized training programs, career pathways initiatives, youth services, and other business services.

Local Workforce Development Boards sponsor local Job Fairs. Vocational Rehabilitation participates in the Job Fairs and other community events. The local partners also share

job leads, and Vocational Rehabilitation may purchase placement services from the local Board as part of a performance-based funding agreement.

24. Describe and identify the entity responsible for the disbursement of grant funds described in section 107(d)(12)(B)(i).

The Hennepin-Carver Workforce Development Board is governed by a joint powers agreement between the Hennepin and Carver County Boards. They have jointly designated the Hennepin-Carver Workforce Development Board as the decisionmaking body responsible for the disbursement of grant funds.

25. Describe the competitive process to be used to award the sub-grants and contracts in the local workforce development area for activities carried out under this title.

The Hennepin-Carver Workforce Development Board issues a Request for Proposals (RFP) when sub-grants and contracts are to be let. Leadership from the Board identifies staff and lay leaders responsible for managing that RFP process and bringing decision recommendations forward to the Hennepin-Carver Workforce Development Board for all decisions related to disbursement of funds.

26. Describe how the local levels of performance negotiated with the Governor and chief elected official will be used to measure the performance of the local workforce development area and to be used by the local area board for measuring the performance of the local fiscal agent, eligible providers under subtitle B and the One-stop delivery system.

As noted earlier, the GMWC has agreed to align performance for all Local Workforce Development Boards in the region with the GreaterMSP Regional Dashboard, to assess the level of impact that the collective efforts of the public workforce system has on regional prosperity in a few specific areas. Additionally, each local Workforce Development Board will use its own performance measures, looking downstream, to parse out what specific services (and service providers) contributed to outcomes for each local Workforce Development Area.

27. Describe the actions the local area board will take toward becoming or remaining a high-performing board, consistent with the factors developed by the state board.

Regionally, the GMWC is considering a governance structure that will require greater crossover with other business, philanthropic, and economic development leadership in the region. Over time, individual local Workforce Development Boards will shift their own leadership in order to bring the regional governance model to peak influence. The Hennepin-Carver Workforce Development Board may shift its own recruitment process in the coming two years to ensure alignment with this new regional governance model.

Statewide, the MN Workforce Council Association has always been committed to supporting local Workforce Development Boards' growth and strong performance. The GMWC will explore a refreshed and strengthened information-sharing and 'training' approach (through the shared convenings described in the regional plan) that will advance understanding for local Board members; and, attract additional talent and skill to serve on local Workforce Development Boards going forward.

28. Describe how training services under chapter 3 of subtitle B will be provided in accordance with section 134(c)(3)(G), including, if contracts for training services will be used, how the use of such contracts will be coordinated with the use of individual training accounts under

that chapter and how the local area board will ensure informed customer choice in the selection of training programs, regardless of how the training services are to be provided.

The Hennepin-Carver Workforce Development Board contracts training services for adults and Dislocated Workers when necessary, including through the Hennepin Career Connections program where training has been delivered through local MnSCU campuses. Additionally, the Board is developing a new suite of services that will expand customer choice. These will offered in conjunction with staff-assisted services, delivered by Hennepin-Carver Workforce Development Board staff, partner, or contracted staff. In all cases, staff ensure that customers understand that recommendations for services are never mandatory and that additional training or service options should be explored by the client at his/her discretion. Every client has an individual development plan that is reviewed, signed, and serves as documentation of a customer's intentions going forward.

29. Describe the process used by the local area board to provide opportunity for public comment, including comment by representatives from businesses and comment by representatives of labor organizations; and input into the development of the local plan, prior to submission of the plan.

Local planning and regional planning within the Twin Cities area have been done concurrently. At the regional level, entities engaged in the planning process have included local Workforce Development Boards (including their private sector business members), other public service providing partners (Wagner-Peyser, Voc Rehab, and other staff) community-based service delivery partners, adult basic education, secondary and higher-education partners, Chambers of Commerce and business associations, and private philanthropy. Collectively the GMWC expects to continue to engage others in planning and implementation, specifically reaching the following groups in the coming months:

- Jobseeker customers from WorkForce Centers and other service provider partners;
- Business customers/employers from WorkForce Centers and other service provider partners;
- Front-line staff from WorkForce Centers

Upon completion of this plan, a 30-day comment period has been provided, with the plan circulated to all those partners identified above electronically as well as in a widely accessible internet posting.

30. Describe how the one-stop centers are implementing and transitioning to an integrated, technology-enabled intake and case management information system for programs carried out under this Act and programs carried out by one-stop partners.

All Workforce Development Areas, public and nonprofit partners included, are using Workforce One as the primary tool for capturing intake and case management information. Within the Twin Cities region, discussion is underway with several nonprofit and philanthropic partners about broader use of one or two electronic case management systems that could be used, supplementary to Workforce One, to better capture client-level activity and link to broader data sets for wage matching and longitudinal tracking of outcomes across adult education, post-secondary, workforce (and eventually even primary and secondary school) outcomes. This is a longer-term process in which the GMWC is just now beginning to be involved. As the process continues, there may be opportunity for a more complete transition for WorkForce Centers and many other partners to use the same platform for case management information.

SECTION C: PROGRAM OPERATIONS

1. A. How does the local workforce development area ensure staff comply with the policies and procedures for Rapid Response as communicated on DEED's website?

The Hennepin-Carver Workforce Development Board relies on DEED's contracted providers for Rapid Response services and does not deliver any of those services directly.

- B. How does the local workforce development area inform the state Rapid Response team within 24 hours about an actual or potential dislocation event when there is possibility of a mass layoff (50 or more dislocations)?

When appropriate, Hennepin and Carver County staff reach DEED staff by phone or email to share information of a dislocation and are prepared to support and coordinate services with the State Rapid Response Team in providing and securing information, data and resources as appropriate.

- C. Describe how the local area board will coordinate workforce investment activities carried out in the local workforce development area with statewide rapid response activities.

Hennepin-Carver Workforce Development Board staff are responsive to Rapid Response providers when asked to provide facilities, additional training opportunities and access to other training and support services.

- D. Complete **Attachment B – Local Workforce Development Area Contacts**.

2. A. How does the local workforce development area inform the state Trade Act staff of companies that are potentially TAA certifiable?

When appropriate, Hennepin and Carver County staff reach DEED staff by phone or email to share information of a TAA-eligible activity and are prepared to support and coordinate services with DEED staff in providing and securing information, data and resources as appropriate.

- B. How does the local workforce development area cooperate with the state Trade Act staff where the layoff involves a company that the DOL trade-certified?

Hennepin-Carver Workforce Development Board staff are responsive to Rapid Response providers when asked to provide facilities, additional training opportunities and access to other training and support services.

- C. Is the local workforce development area willing to participate in TAA Counselor Training and TAA Participant Training when a trade-certification occurs?

Yes X

3. A. The local workforce development area has developed and implemented local Supportive Service policies that are consistently applied for all participants.

Yes X

B. Describe the steps taken to ensure consistent compliance with the policy.

The Hennepin-Carver Workforce Development Board trains staff directly as well as sending staff to statewide or other training opportunities to ensure compliance with this policy.

SECTION D: SYSTEM OPERATIONS AND ATTACHMENTS

1. The local workforce development area has processes in place to assure non-duplicative services, and avoid duplicate administrative costs.

Yes

2. The local workforce development area is aware of and staff participate in the Reception and Resource Area Certification Program (RRACP) to better serve all customers?

Yes

3. A. The local workforce development area and their partners are aware of the responsibilities of the Equal Opportunity Officer, including attending DEED sponsored EO Training?

Yes

B. Complete **Attachment B – Local Workforce Development Area Contacts**.

- C. The local workforce development area is aware and conducts annually a physical and program accessibility review?

Yes

4. Does the local workforce development area have in place an agreed upon WIOA Discrimination complaint process per the regulations?

Yes

5. A. Does the local workforce development area have in place an agreed upon WIOA Program Complaint Policy per the regulations?

Yes

B. Complete **Attachment B – Local Workforce Development Area Contacts**.

6. How do you identify current or former Military Service Members coming into your WorkForce Center?

Clients are asked to self-identify and then independent verification is pursued.

7. How do you inform current or former Military Service Members coming into your WorkForce Center about “Veteran Priority of Service?”

Clients are informed verbally and in written materials at multiple points of contact.

8. If your WorkForce Center has a presence on the Internet (outside of your local DEED WorkForce Center site) how do you promote Public Law 107-288, “Veterans Priority of Service” to veterans on that website?

N/A

9. How do you identify current or former Military Service Members with “significant barriers to employment?”

Disabled Veteran Outreach Program (DVOP) staff work closely with clients during intake and assessment.

10. When a current or former Military Service Member with a significant barrier to employment is identified, how do you refer them to an appropriate intensive service provider when there is no Disabled Veteran Outreach Program (DVOP) specialist in your WorkForce Centers?

DVOPs are typically located in the WorkForce Center. If no Vets Rep is on-site, Veterans are asked if they want an immediate referral to a partner located onsite; or, if preferred waiting (typically no more than 24 hours) for a meeting with DVOP.

11. How are DVOP and/or Local Veterans Employment Representatives (LVER) staff integrated into the overall service delivery strategy in your WorkForce Centers?

DVOP staff are engaged at all levels of client service delivery, program planning, and staff training and delivery efforts.

12. Are all WIOA-funded partners complying with the guidance provided in the TEGL regarding Selective Service?

Yes

13. What is your strategy to ensure that job-ready job seekers enrolled in your programs (including non-program universal customers) are registering in MinnesotaWorks.net and are making their resumes viewable to employers?

Every customer is given the opportunity to register with MinnesotaWorks when entering either of our WorkForce Centers and encouraged to do so.

14. **Conflict of Interest and Integrity:** Local area boards must make decisions in keeping with several laws and regulations. Indicate below that your local area board is aware of DOL Training and Employment Guidance Letter 35-10 and Minnesota OGM 08-01 and its relevant federal laws and regulations.
