

Affirmative Action Statistics

Data Packet

Compiled From American Community Survey 5-Year Data 2006 to 2010

Equal employment opportunity is the objective of affirmative action programs. To achieve this goal, and to meet Equal Employment Opportunity compliance requirements, an affirmative action program must include an analysis of a contractor's employment of women and minorities, and goals and timetables to correct deficiencies.

Affirmative action statistical packets: These data packets are available to companies for completing an availability analysis and utilization/underutilization analysis. These packets are compiled and distributed by the Labor Market Information Office of the Minnesota Department of Employment and Economic Development in cooperation with the Minnesota Department of Human Rights to assist employers who are completing affirmative action plans.

Data Definitions

| | |
|----------------|---|
| COC | Census Occupational Code - this is the original code that is used by the Census Bureau when they collect and aggregate the data. |
| Occupation | Title of occupation |
| SOC | Standard Occupational Code - this is the standard coding system used by the BLS and most labor market data products. |
| Labor Force | The labor force includes all people who are working or who want to work and are actively seeking employment. It excludes anyone under 16 and retirees or other people who are not looking for work. |
| White/Minority | The Census Bureau tracks race and ethnicity as separate classification systems. Moreover, people can self-identify on the form as one or more than one race. |

In the table White percentage is for people who self-reported as White only and non-Hispanic. The Minority percentage includes anyone who reported as white plus another race, non-White (single or multiple races), or Hispanic (and any race including white).
