FINAL RATE METHODOLOGY
Costs will be determined using the “Medicaid Reimbursement Department of Human Services Medicaid Cost Report for State Operated Dental Clinics.” This CMS-approved cost reporting protocol collects cost data from the State Operated Services dental providers and allocates the costs as allowable or unallowable using Medicare principles of reimbursement. The cost report also allocates allowable costs among payers using total billed charges.

Final payment rates will be equal to total costs multiplied by the result of Medicaid fee-for-service charges divided by total charges.

The Department will settle-up with State Operated Services dental providers within 18 months following the receipt of clean and correct cost data reported by the SOS dental providers for the rate year. If the interim payments exceeded the final rate, the Department will recover the overpayment within 60 days from determination of the final rate.

C. Critical access dental providers include public and private dental providers. The State agency established rate is the same for both public and private dental providers.

Effective for services on or after July 1, 2016, payment to critical access dental providers not owned by a health maintenance organization, and who qualify under the criteria at Attachment 3.1-A or B, item 10.I.1-6, will be increased by 37.5% above the base payment rate described in Attachment 4.19-B, item 10(A). Payment to critical access dental providers owned by a health maintenance organization, and who qualify under the criteria at Attachment 3.1-A or B, item 10.I.1-6, will be increased by 35% above the base payment rate described in Attachment 4.19-B, item 10(A).
