Identification of hazards

This section is provided as a resource for your emergency preparedness. It allows you to identify the risk of certain hazards occurring, the impact that a hazard could have if it did occur, and how you would continue operating during and after the emergency.

Attention licensed child care centers: You are not required to complete this section as you should have already identified potential risks and impacts as part of your Risk Reduction Plan (see Minn. Stat. 245A.66). If you have not addressed any of these hazards that could impact your site, you should use this section or add items to your Risk Reduction Plan.

Child emergency contact information

You should collect each child’s emergency contact information and keep it with your emergency kit(s). Licensed child care centers and licensed family child care providers already collect this information from parents/guardians upon enrollment.

Keep the following information with your emergency kit(s) in case of an emergency:

Child specific information:

- Child's name
- Child's address
- Child's date of birth
- Special instructions for children with disabilities or chronic medical conditions (if applicable)

Parent/guardian information:

- Name(s) & relationship to child
- Preferred contact information (i.e. phone number or email address)
- Alternate emergency contacts
- Individuals authorized for pick-up

For licensed family child care providers, this information is on the first page of each child’s Admissions and Arrangements form. Keep a copy of the first page of each child’s Admissions and Arrangements form with your emergency kit(s) so that the information can be easily accessed in an emergency.

Please note: Do not post any child-specific information with your emergency plan or share it with other parents.

Yearly review of child care emergency plan

This section is provided for programs to document a yearly review of the child care emergency plan.
